UCB CalFresh MEGA Clinic

CalFresh for College Students

Our Basic Needs Committee has been in an epic journey to expand CalFresh eligibility for college students:

- 39% of Undergraduates and 23% of Graduate Students are Food Insecure
- CalFresh provides up to $192, additional aid per dependent, for groceries.
- Funding is provided in addition to financial aid.
- This is a significantly better and more sustainable intervention/resource, than to continue to increase our Food Pantry usage.
- We are inspired to increase the financial resources of students to be food secure.

Policy Changes for College Student CalFresh

- In partnership with local, statewide, and Higher Education partners... we've effectively advocated for the passage of AB1930, AB1747, AB214, and AB453. The state of California is now the most inclusive state for college student CalFresh eligibility. Who is potentially eligible?

- CalGrant Recipients
- EOP, Federal TRiO Program, Current/Former Foster Youth, Disabled Students
- Federal Work Study Eligible with Financial Need (Undergraduate and Graduate Students)

Prerequisites: One year of beginning Greek or equivalent.

Requirements: Regular participation in class; weekly quizzes; one midterm; one final; two writing assignments, one 2-3 pp. and one 5-7 pp.

Things to discuss: Seduction, magic, monsters, and cannibals: in the original adventure story, an unreliable narrator tells tales as vivid as they are surreal, charming and perhaps disturbing his audience. This class will cover books 9, 10, and 12 of the Odyssey, which encompass
many of its most famous and fantastical stories: the Lotus-Eaters, the Cyclops, Circe’s island, the Sirens, Scylla and Charybdis, and the Cattle of the Sun.

➢ **Spring Courses on Entrepreneurship Alternative Meat/BlockChain**

**INDENG 185-001: The Challenge Lab; Blockchain**
Th 4PM-7PM; Instructor(s) P.C. Wu; 4 units
Blockchain is among the most exciting recent developments in computer science. While it has served the basis of the Bitcoin currency, it has significantly more potential because its crypto-locked distributed database has the potential to offer trust, security, and smart contracts to a new generation of internet applications.

**INDENG 185-002: The Challenge Lab; Disaster and Recovery in Puerto Rico**
Th 4-7PM; Instructor(s) R. Powers; 4 units
In this course, you will learn how to apply the Berkeley Method of Entrepreneurship (BMoE) to build novel solutions and social enterprises that will help deliver the next generation of solutions to aide and recovery of natural disasters. Given the shifting global climate, disaster and recovery is an emerging need and growth area worldwide. The climate crisis is no longer an abstract issue and needs to be addressed in our lifetime.

**INDENG 185-003: The Challenge Lab; Data & Internet Privacy**
W 5-8PM; Instructor(s) L Edwards; 4 units
Today, online data trails provide large volumes of personal, real-time consumer information to companies doing business on the Internet. Data tracking and mining provide tremendous
opportunity for businesses to personalize content and make decisions about which customers to pursue and what to offer them. At the same time, purchase and use histories, GPS locations, browsing behaviors or social media postings allow companies to connect and mine data streams to gain insights and details that consumers may consider private and may incorrectly assume is undiscoverable.

INDENG 185-004: The Challenge Lab; Cybersecurity
W 3PM-6PM; Instructor(s) R. Rasmussen; 4 units
Information breaches clearly aren’t being solved by cybersecurity technology alone. Since the information you’re protecting, who you’re protecting it from and why are drastically different for corporations, nation states and critical infrastructure providers, an integrated holistic approach to thwarting bad actors is required. This Challenge Lab explores the next generation of Cybersecurity paradigms as they relate to attacker motivation and actions.

INDENG 185-005: The Challenge Lab; Alternative Meat
W 4-7PM; Instructor(s) R. San Martin; 4 units
This course is for students interested in creating the next generation of healthy, delicious, affordable and sustainable plant-based protein foods. Embark on a unique, team-based challenge to build novel enterprises to address the most pressing environmental and ethical issues of our times.

A new year fighting for the public interest, 1/31/18

Happy New Year and welcome back to a new semester!

My name is Andre Delattre and I'm with U.S. PIRG. A big part of our plan for 2018 is adding smart, motivated new staff to our team of public interest advocates so we can take on more campaigns to protect our health, safety, and democracy. Can you pass along the job description below to your top students who are looking to make a difference when they graduate? Our early application deadline is fast approaching on January 31st.

Our fellowship program provides a unique opportunity for new graduates to build crucial skills while leading a campaign right out of college. Our fellows do policy research, lobby decision-makers, host town halls and media events, and lead a team of 15-30 activists during the summer in our citizen outreach offices. They work closely with an experienced team of advocates, organizers, and researchers in creating lasting change and working on campaigns to ban the overuse of antibiotics on factory farms, protect consumer protections on Wall Street, and get toxic chemicals out of our personal care products.

We're proud of what we accomplished in 2017 – from pushing KFC to stop selling chicken raised with the routine use of antibiotics to informing the public on how to protect their personal information and advocating for free credit freezes for all Americans following the Equifax breach. Despite a year of partisan fever, the problems we face aren't liberal or conservative, and we seek to stand up for the public for commonsense solutions.

Once again, our early application deadline is on January 31st.

Shame is an embodied belief that “Something is wrong with me.” Because shame exists in the body as well as in the mind, it is helpful for therapists to work with shame somatically. In this workshop, we will explore how to utilize somatic techniques to connect more quickly with the client and forge a strong therapeutic alliance.

We will:
- Focus on using breathing and grounding to resource the client, becoming more aware of our own breathing and expanding it in the process.
- Learn ways to help clients repair the disconnect between self and others—and between parts of the self—that have been created by shaming, inappropriate behavior or abuse.
- Explore how to keep our clients more present in the room with us and counter over-verbalization, dissociation and freezing.
- Learn techniques and theory from Wilhelm Reich (the father of Somatics), Peter Levine (Somatic Experiencing®), Ron Kurtz (Hakomi) and Eugene Gendlin (Focusing).

Learn ORGANIZING or RESEARCH AND POLICY SKILLS for Social & Economic Justice, June 18–August 10, 2018
Applications due: Monday, February 26, 2018, 11:59 PM (PST)

Have you ever organized a meeting? Researched an issue? Volunteered in your community? Taught a class? Do you have the courage to knock on a door and listen to someone’s story? Can you imagine a better future for the working poor? If your answer to any of these questions is “yes” or if you want to learn how to do these things, then Labor Summer is for you!

Help get the word out! Forward this email or print and post the Labor Summer 2018 Program Flyer!

The UC Berkeley Center for Labor Research and Education (Labor Center) and co-sponsor San Francisco Central Labor Council are offering students an opportunity to spend their summer learning about social and economic justice and reflecting on the intersections of race, class, gender, and immigration in the labor movement. Labor Summer is a full-time, PAID, intensive eight-week educational internship program. Students learn from and work with labor and community organizations in Northern and Central California, applying their skills in real-world settings on issues vital to the state’s working people.

"When I started my internship with the Berkeley Labor Center I knew that there was power in numbers, but had no idea the power data and research could provide. Data can provide the facts unions need to accomplish their goals, but data isn't something that just happens. Workers need to be involved in the collection process and must be involved in creating the questions so that the data can be useful to achieve better working and living conditions." — Labor Summer Intern 2016

Exchange Week in Austria – Innsbruck Goes International

This year, the International Exchange Week of Psychology at the Leopold-Franzens University of Innsbruck takes place for the 11th time and is scheduled from May 4th to May 11th, 2018. We, eleven psychology students from the University of Innsbruck, invite fellow psychology students from various countries to Innsbruck to get to know our academic life, the Tyrolean culture, and the beautiful city of Innsbruck.

Our aim is to create an intercultural, social, and professional exchange between psychology students. The whole exchange program is organized by students of the University of Innsbruck in cooperation with the Department of Psychology.

In the past, every year about 30 students from several universities around the world have taken part in this project. This year we would like to invite the same number of students again to come visit us in Innsbruck.

Our international guests will be hosted free of charge by fellow psychology students, who are also invited to take part in the program. The affordable participation fee for each student is 95 Euros and includes all activities we have planned.

The Program: In general, the program is based on the following 3 concepts:

Professional exchange
• presentations on our department and the University of Innsbruck
• lectures held by our professors of the psychology department
• psychological workshops
• establishing international networks

Cultural exchange
• a guided tour through the city
• a hiking trip on the local mountains
• a visit to a theater/museum
• leisure activities depending on the regional offer (e.g. glacier-trip, high rope course)

Social exchange
• Welcome dinner (opening event at the university, including an open buffet)
• Pub-Quiz
• Running Dinner (a dinner where every course is eaten at a different host’s apartment)
• “Exchange-Party” and Innsbruck’s nightlife For further information visit our website: http://www.psychologygoesinternational.com/innsbruck/

WHAT IS BLACK QUEER STUDIES?

Black Queer Studies emerged as an academic field of study after the Black Queer Studies in the Millenium Conference (2000), the subsequent publication of the Plum Nelly special issue of Callaloo (2000), and the edited anthology Black Queer Studies: A Critical Anthology (2003). Though we can trace the development of black queer thought much earlier in the works of black feminist, gay, lesbian, bisexual, and gender non-conforming artists, activists, and intellectuals, this course will focus on the field’s development within the academy in order to interrogate the power relations that circumscribe its formation and consolidation. This course will address the following questions: What marks a study as a black queer study? What binds the disparate intellectual projects gathered under the rubric of black queer studies as a field? Who/what are its subjects/objects of inquiry? What are its methods and aims? What are the field’s guiding assumptions? Who are its intellectual, activist, and creative predecessors? What relationship does the field have to other fields of intellectual inquiry, namely black (diaspora) studies and queer studies? By examining the field’s foundational works, recent developments, methods and methodologies, disciplinary interventions, and genealogies, this course will interrogate the field’s current state and future directions, as well as its overlaps and tensions with other contemporary fields of knowledge. We will address these questions and concerns through an examination of the works of scholars such as Cathy Cohen, E. Patrick Johnson, Roderick Ferguson, Kara Keeling, Marlon Bailey, Francesca Royster, Jafar Allen, C. Riley Snorton, L.H. Stallings, Ormoc’eke Tinsley, Kevin Mumford, Vincent Woodward, Ashon Crawley, Shaka McGlotten, and GerShun Avilez.

➤ TGIF Now Accepting Proposals for Campus Sustainability

The Green Initiative Fund (TGIF) spring grant applications are now live for those seeking $2,000 or above of funding for environmental sustainability-related projects. Applying in the spring is a 2-stage process, and the deadline to submit final abstract proposals is Monday, February 26, 2018 by 5PM. This spring 2018, TGIF is also prioritizing environmental justice thematic project proposals.

**ELIGIBILITY**

Students, faculty members, and/or staff members of the University of California, Berkeley are encouraged to submit a proposal for consideration by The Green Initiative Fund (TGIF) Committee. Along with a grant abstract application, individuals or groups of applicants must submit necessary project approvals and estimated metrics for their proposed project’s sustainability impact on campus.

In order to be considered for environmental justice grant funding from TGIF, project applications must have a direct link to environmental results, meaning they must produce tangible sustainability metrics. All applicants who would like to be considered for environmental justice grant funding must indicate on their application this option and answer the 2 environmental
First priority will be given in the Committee's review process to student organizations that fall into the following categories:

- Cultural & Identity/Cultural & Ethnic;
- Cultural & Identity/International Student Organizations;
- Cultural & Identity/LGBTQ+;
- Cultural & Identity/Women’s Interest.

Student organizations and campus departments with a focus on social equity and/or environmental justice will be given second priority in the Committee's review process and evaluated by supplemental environmental justice questions on TGIF's Spring 2018 application.

Priority can be defined in a 3-tiered system as the Committee reading and voting on applications from these 4 categories of student organizations first, followed by applications not from these organizations but that would like to apply for environmental justice funding, followed finally by “traditional” sustainability applicants.

To be considered for environmental justice grant funding, please submit a statement of environmental justice intent with your abstract, and if invited back to the final application stage, answer the conditional 2 prompts at the bottom of the application form. Please also indicate on your metrics sheet what the projected environmental justice and sustainability impacts of your project will be.

**ALLOWABLE COSTS**

Students initially voted and passed TGIF Fee in 2007 and have since voted to renew the program for an additional 10 years in Spring 2016. Currently assessed at $8.00 per semester (and planned to increase by $1 in steps over 3-year increments through 2027), TGIF Fee will continue to provide funding, via grants, for projects that improve and support UC Berkeley's campus sustainability efforts.

Current themes for sustainability projects include those that address:

- Education & Behavioral Change
- Energy Conservation & Efficiency
- Agriculture & Food Justice
- Habitat Restoration & Native Landscaping
- Transportation & Urban Development
- Waste Diversion & Reduction
- Water Conservation

Spring 2018 - Classics 34 - Newly Added Course

Classics 34: Epic
fulfills L&S Breadth in Arts & Literature and Philosophy & Values

TTh 12:30-2:00, 121 Latimer
Instructor: Marissa Henry
marissahenry@berkeley.edu

Description: In this class, we will read the two major surviving epics of archaic Greek literature, the Iliad and the Odyssey, as well as the most famous Roman epic, the Aeneid, and learn about their origins and cultural significance. These poems, one a story of power struggle and the dangers of vengeful anger, the second of adventure, homecoming, and family, and the last of romance, duty, and conquest, have resonated with listeners and readers throughout the millennia. This class is an opportunity to read these timeless poems slowly and thoroughly, to analyze their language, themes, and structure, and to gain insights into how they influenced much of the Western literature that succeeded them.

Requirements: Weekly 1-page written responses; one paper of 4-6 pages; one midterm; one final.

Join us for Campus Conversations with Berkeley Leaders

Much change is afoot at Berkeley, as we work to eliminate our budget deficit as well as set the campus on a path toward continued academic and research excellence. These efforts are being directed by a host of campus leaders, some of whom have been at Berkeley for a long time and others who have just recently arrived, but all of whom are committed to engaging with the campus to develop solutions that serve our institution and community.

In the interest of open, transparent communication, this semester we are launching Campus Conversations, a monthly series of meet-and-greet events in which a campus leader will share his or her vision for the future and take questions from members of our community. Bring your thoughts and your lunch (we’ll provide cookies and refreshments!) and join the conversation.

The first event will take place this Friday, January 26, and will feature Vice Chancellor and Chief Financial Officer Rosemarie Rae. Rosemarie will give an overview of the campus budget and the financial challenges we face, as well as discuss approaches to building a sustainable financial model for the campus. The event will be held in Alumni House from noon to 1 p.m. Please bring your Cal ID if you’d like to attend.

Other upcoming events this spring will feature Executive Vice Chancellor and Provost Paul Alivisatos on February 12, Vice Chancellor for Administration Marc Fisher on March 22, and Chancellor Carol Christ on April 24. For more information, visit campusconversations.berkeley.edu.

Book Talk at the UC Berkeley Labor Center with Asst. Professor Christian Paiz

In a Field of Patriarchy: Gender Politics and Freedom Dreams During the United Farm Worker Movement

Book Talk with Assistant Professor Christian Paiz
Monday, January 29, 2018 | 12:00–1:30 PM
UC Berkeley Labor Center
2521 Channing Way

Absent in farmworker historiographies are the voices of farmworker women who speak of patriarchal and racialized exploitation in post World War II California. For many, patriarchal power originated in domestic violence, strict gender roles and autonomy-denying social conditions. Using original oral interviews, this presentation foregrounds the patriarchal relations within the Mexican farmworker community, and traces its implications for the historiography on farmworker unionization in the 1960s and 1970s. More specifically, it argues for a direct confrontation with Mexican patriarchy so as to trace the racialized, gendered and classed power relations in California’s agricultural countryside. It further argues that only by engaging in this confrontation can we understand farmworker women’s experiences and recognize their political visions during the United Farm Worker Movement.

Join us for a book talk with Christian Paiz, Assistant Professor in Ethnic Studies at UC Berkeley. This brown-bag lunch event is free and open to the public.
