March 13, 2017: Internship and Volunteer Opportunities

> Berkeley Early Learning Lab Summer Internship Program 2017

The Berkeley Early Learning Lab (BELL), under the direction of Dr. Fei Xu, is now accepting applications from highly motivated undergraduates and graduating seniors for our Summer Internship Program in 2017.

Descriptions of the Program

The goal of this internship is to provide hands on research experience to students interested in pursuing graduate work in Cognitive and Language Development or a related field. Successful applicants will be paired with a graduate student or postdoc mentor and will have the opportunity to conduct research at local children's museums and in the lab, and collaborate on a variety of on-going and new projects. Our lab uses looking time, eye tracking, free play, intervention, and other behavioral methods to investigate inductive learning and statistical inference in social cognition, category learning, physical reasoning, causal learning, word learning, and other domains.

In addition to collaboration with individual graduate students and work on specific projects, weekly lab meetings will give interns a chance to present their own work for feedback and provide feedback to others. We will also discuss current papers being published that relate to the lab's projects.

Eligibilities

Berkeley affiliated and Non-Berkeley undergraduates who are interested in developmental psychology and cognitive science are welcome to apply to our summer internship program. Applicants should have some course work in developmental psychology and cognitive science. Programming skills and experiences working with children are highly desirable.

Commitments

This is an unpaid internship and requires a commitment of 20-30 hours/week for 8 weeks between June 5 and August 4.

To apply

Please refer to http://www.babylab.berkeley.edu/summer-internship for more information.

The application deadline is March 31, 2017 11:59p.m. PST.

If you have further questions about the program, please contact us at babylab@berkeley.edu.
