

Jobs

Summary

1. Impact Job Position
2. Cal Teach Work-Study Opening
3. Very attractive Financial Analyst positions for Cal grads

1. Impact Job Position

Impact is a non-profit project of leading advocacy organizations, including Environment America and U.S. PIRG, that creates the grassroots action and power it takes to make an impact on issues that matter. We're hiring a team of organizers for a two-year program.

Organizers currently work in 25 states. We're working with national campaigns to get our country to 100 percent renewable energy, reduce corporate agriculture's pollution of our water, and end the overuse of antibiotics on factory farms.

WHAT YOU CAN DO WITH IMPACT

What will you do with Impact? First, you'll come together with other new and experienced staff from across the country to learn how to make your impact in classroom trainings on the issues, our campaigns, our strategies and the tactics you'll be using throughout the year. Then, you'll put those skills to use in the field.

Your campaign assignment will depend in part on where you applied to work and where you can make the biggest difference. For example, you might build the coalition that convinces a major restaurant to stop serving meat raised on antibiotics. Or you could organize the news event that convinces the governor in your state that switching to more renewable energy is an opportunity to be a hero with the public.

Even when there's not a vote coming up, organizing helps build long-term power to secure victories in the future. By first educating people on an issue and then winning them over to our point of view, we lay the groundwork for political change. It's challenging, fun and incredibly meaningful. We're taking on big issues and we're up against big adversaries. We run campaigns with concrete goals, detailed plans, rigorous training, and above all, a laser-like focus on results.

HOW YOU'LL MAKE AN IMPACT

Every day with Impact is different. You could be connecting with new health or consumer groups to build a coalition to stop antibiotic overuse, speaking in a church basement or at a town hall meeting on 100 percent renewable energy, organizing a news event on water pollution from factory farms, or meeting with an editorial board about any of these issues.

During the summer, you'll run a citizen outreach canvass—and have the power of a paid staff of college students and others ready to help you build support for an issue, recruit new members, and raise funds for the campaign. And you'll recruit the next wave of Impact organizers and interns so we can continue to work on more campaigns. So if what

you want to do after college is to join a team of people who bring their passion to work every day to make an impact on issues that matter, then we're the group for you.

PAY & BENEFITS

The target annual compensation for this position is \$26,000 in the first year. Impact offers a competitive benefits package. We also offer an excellent training program and opportunities for advancement.

TO LEARN MORE AND APPLY: WeAreImpact.org

Impact is an equal opportunity employer and will not discriminate against any employee or applicant on the basis of race, color, national or ethnic origin, religion, age, sex, disability, pregnancy, sexual orientation, gender identity or veteran status.

2. Cal Teach Work-Study Opening

We here at Cal Teach are looking for a few great candidates for some openings we have on our work-study team. The positions are a balance of office support and peer advising (students need not be Cal Teach minors, but have an interest in supporting others interested in STEM education).

Please share with your students and direct any interested students to email calteach@berkeley.edu

Cal Teach Student Assistant/Peer Advisor

Start Date: 10/01/2016

Total Positions: 1-2

Work Hours: 10-12 hrs/week

Hourly Rate: 13.00

The Berkeley Science and Math Initiative (BSMI) is seeking a part-time work study student to assist in office tasks and also to serve as a peer advisor to fellow students. BSMI is a program designed to increase both the quantity and quality of K-12 science and mathematics teachers for California schools. BSMI consists of two separate programs: Cal Teach, a pre-service teacher education program for STEM majors to become K-12 science and math teachers as part of the UC wide Science and Mathematics Initiative; and Math for America, Berkeley, a five-year professional development program for middle and high school science and math teachers.

The position supports the administrative and office staff of these two programs, and also serves as a Cal Teach Peer Advisor. As a peer advisor, you will provide academic advising and support to prospective and current Cal Teach students and staff the Cal Teach Resource Center. Additional opportunities will include campus outreach, marketing, event planning, and inventory management as this role serves as student coordinator for these areas.

Job Duties:

Under the direction of Cal Teach staff, support various office and organizational tasks such as copying, managing inventory, and preparing requested materials. As Peer Advisor, under the direction of the Cal Teach Student Services Coordinator, the position will advise, market, and plan events for Cal Teach.

Advising

- Staff the Advising and Resource Center (30 Evans)
- Advise prospective and current Cal Teach Students on the following:
 - Cal Teach Courses; Field Placement Requirements; CBEST/CSET; Cal Teach Minor; Cal Teach Credential Program; Noyce Scholarships and Summer Internships; Summer Research Institute; Study Abroad Program in Chile

Administrative

- Manage the Cal Teach resource materials and inventory
- Keep the Resource Center organized and supplied with current Cal Teach materials
- Assist with special projects in the office

Marketing and Outreach

- Find opportunities and help with Cal Teach sponsored events including information sessions, orientations, and receptions
- Identify, develop, and coordinate the marketing of the Cal Teach program to relevant stakeholders.
- Develop content for social media, events, and manage communications and outreach via MailChimp, Twitter and Facebook.

Qualifications:

Preference will be given to students seeking the Cal Teach Minor. Must commit to the position for at least one semester. Must also have work study funding for a minimum of 10 hours a week (approximately equivalent to a work study award of \$2,000 for the semester).

Candidates must also have strong communication and organization skills and a demonstrated interest in education/teaching. Relevant technical, computer, and outreach skills are also desirable, such as website (HTML/CSS), research background, or graphic design (Illustrator/Photoshop).

To apply, please email both a resume and cover letter to calteach@berkeley.edu.

3. Very Attractive Financial Analyst Positions for Cal Grads

10/10/2016

To: Cal seniors, master's degree candidates, and recent graduates

Brownson, Rehmus & Foxworth, one of the largest independent wealth management organizations in the U.S., welcomes seniors, non-MBA master's degree candidates, or recent Cal graduates from any major to apply for very attractive Financial Analyst positions based in Menlo Park, starting in July 2017. Please feel free to share this information with Cal friends who might be interested.

Students may learn more by visiting us online at www.brfadvisors.com. We will conduct on-campus interviews on October 25th and 26th. We invite students to submit resumes and interview materials via Handshake prior to October 13th.

Brownson, Rehmus & Foxworth advises clients with approximately \$10 billion of combined assets under management and has offices in Menlo Park, Chicago, New York and Atlanta. We provide sophisticated investment advice and integrated comprehensive planning to high net worth families and related foundations. We endeavor always to do the right thing by our clients. Careful to minimize conflicts of interest with our clients, we neither sell products nor receive commissions. We believe the quality of our people meaningfully distinguishes us from many advisory firms.

We welcome candidates who wish to join a close-knit West Coast team with a high degree of camaraderie, collaboration, mentorship, and professional standards. We give substantial early responsibility and client contact to Financial Analysts. We provide many opportunities for learning, enrichment, and career development. We are committed to a healthy work-life balance, and our Financial Analysts work significantly fewer hours than analysts in comparable positions. Nevertheless, compensation is highly competitive with top-tier banks and consulting firms. Past Financial Analysts have a compelling track record of gaining admission to top-tier business schools.

We hope to hire truly great team players who have the potential to become partners in our organization in the future. We seek colleagues who are highly ethical, empathetic, team-oriented, analytical, motivated, and intellectually curious. Ideal candidates will possess great interpersonal skills, excellent judgment, broad problem-solving skills, and a professional, service-oriented demeanor.
