Licensure Status of Our Graduates

Programs are expected to report the number and percentage of program graduates who have become licensed psychologists within the preceding decade. This would be the 8 years spanning the period of 2-10 years post graduation. The Clinical Science Program and the University of California, Berkeley prepares students for professional clinical activities. It is our experience that all of our graduates who are required to obtain state licensure as a psychologist for their employment have done so successfully.

Funding

Financial support is available to all enrolled students. The support comes from different sources: Some students obtain University or national fellowships; others are supported by Graduate Student Instructor (teaching) or Graduate Student Researcher appointments. The support typically pays at least 90% of the resident fees and provides a stipend.

All Clinical Science students must carry APAIT Student Liability Insurance while conducting clinical work while in residence (therapy, assessments, community work both in the Clinic and while on any Externship assignments). Students apply for this insurance (<http://www.apait.org/apait/>) at the beginning of the first semester upon arrival in the program and renew it annually. The Clinical Science Program reimburses the cost of the coverage for clinical work conducted in the Psychology Clinic. Copies of the policy must be on file in the Clinic Office. Current APAIT Student Liability Insurance Cost: \$35.00 per annum
