UCB CalFresh MEGA Clinic

CalFresh for College Students

Our Basic Needs Committee has been in an epic journey to expand CalFresh eligibility for college students:

- 39% of Undergraduates and 23% of Graduate Students are Food Insecure
- CalFresh provides up to $192, additional aid per dependent, for groceries.
- Funding is provided in addition to financial aid.
- This is a significantly better and more sustainable intervention/resource, than to continue to increase our Food Pantry usage.
- We are inspired to increase the financial resources of students to be food secure.

Policy Changes for College Student CalFresh

- In partnership with local, statewide, and Higher Education partners... we’ve effectively advocated for the passage of AB1930, AB1747, AB214, and AB453. The state of California is now the most inclusive state for college student CalFresh eligibility. Who is potentially eligible?

- CalGrant Recipients
- EOP, Federal TRiO Program, Current/Former Foster Youth, Disabled Students

Who?
Dr. Adele Diamond
Adele Diamond, PhD, FRSC is the Canada Research Chair Professor of Developmental Cognitive Neuroscience at University of British Columbia (UBC), Vancouver, BC, Canada. Her discoveries have impacted education worldwide and improved treatment throughout the world for two medical disorders (PKU and ADHD). Greek 101: Odyssey - Call for Students

Description: In this class we will read books 9, 10, and 12 of the Odyssey in Greek. Most of our time in class will be devoted to reading and enjoying the Greek together. We will also read the entirety of the Odyssey in English, with each student reading a different translation, and discuss the various translators’ choices and methods for handling the problems of translating ancient epic.

Prerequisites: One year of beginning Greek or equivalent.

Requirements: Regular participation in class; weekly quizzes; one midterm; one final; two writing assignments, one 2-3 pp. and one 5-7 pp.

Things to discuss: Seduction, magic, monsters, and cannibals: in the original adventure story, an unreliable narrator tells tales as vivid as they are surreal, charming and perhaps disturbing his audience. This class will cover books 9, 10, and 12 of the Odyssey, which encompass
many of its most famous and fantastical stories: the Lotus-Eaters, the Cyclops, Circe’s island, the Sirens, Scylla and Charybdis, and the Cattle of the Sun.

**Spring Courses on Entrepreneurship Alternative Meat/BlockChain**

INDENG 185-001: The Challenge Lab; Blockchain
Th 4PM-7PM; Instructor(s) P.C. Wu; 4 units
Blockchain is among the most exciting recent developments in computer science. While it has served the basis of the Bitcoin currency, it has significantly more potential because its crypto-locked distributed database has the potential to offer trust, security, and smart contracts to a new generation of internet applications.

INDENG 185-002: The Challenge Lab; Disaster and Recovery in Puerto Rico
Th 4-7PM; Instructor(s) R. Powers; 4 units
In this course, you will learn how to apply the Berkeley Method of Entrepreneurship (BMoE) to build novel solutions and social enterprises that will help deliver the next generation of solutions to aide and recovery of natural disasters. Given the shifting global climate, disaster and recovery is an emerging need and growth area worldwide. The climate crisis is no longer an abstract issue and needs to be addressed in our lifetime.

INDENG 185-003: The Challenge Lab; Data & Internet Privacy
W 5-8PM; Instructor(s) L Edwards; 4 units
Today, online data trails provide large volumes of personal, real-time consumer information to companies doing business on the Internet. Data tracking and mining provide tremendous opportunity for businesses to personalize content and make decisions about which customers to pursue and what to offer them. At the same time, purchase and use histories, GPS
locations, browsing behaviors or social media postings allow companies to connect and mine data streams to gain insights and details that consumers may consider private and may incorrectly assume is undiscoverable.

INDENG 185-004: The Challenge Lab; Cybersecurity
W 3PM-6PM; Instructor(s) R. Rasmussen; 4 units
Information breaches clearly aren’t being solved by cybersecurity technology alone. Since the information you’re protecting, who you’re protecting it from and why are drastically different for corporations, nation states and critical infrastructure providers, an integrated holistic approach to thwarting bad actors is required. This Challenge Lab explores the next generation of Cybersecurity paradigms as they relate to attacker motivation and actions.

INDENG 185-005: The Challenge Lab; Alternative Meat
W 4-7PM; Instructor(s) R. San Martin; 4 units
This course is for students interested in creating the next generation of healthy, delicious, affordable and sustainable plant-based protein foods. Embark on a unique, team-based challenge to build novel enterprises to address the most pressing environmental and ethical issues of our times.

Learn ORGANIZING or RESEARCH AND POLICY SKILLS for Social & Economic Justice, June 18–August 10, 2018
Applications due: Monday, February 26, 2018, 11:59 PM (PST)

Have you ever organized a meeting? Researched an issue? Volunteered in your community? Taught a class? Do you have the courage to knock on a door and listen to someone’s story? Can you imagine a better future for the working poor? If your answer to any of these questions is “yes” or if you want to learn how to do these things, then Labor Summer is for you!
Help get the word out! Forward this email or print and post the Labor Summer 2018 Program Flyer!
The UC Berkeley Center for Labor Research and Education (Labor Center) and co-sponsor San Francisco Central Labor Council are offering students an opportunity to spend their summer learning about social and economic justice and reflecting on the intersections of race, class, gender, and immigration in the labor movement. Labor Summer is a full-time, PAID, intensive eight-week educational internship program. Students learn from and work with labor and community organizations in Northern and Central California, applying their skills in real-world settings on issues vital to the state’s working people.
"When I started my internship with the Berkeley Labor Center I knew that there was power in numbers, but had no idea the power data and research could provide. Data can provide the facts unions need to accomplish their goals, but data isn’t something that just happens. Workers need to be involved in the collection process and must be involved in creating the questions so that the data can be useful to achieve better working and living conditions.” — Labor Summer Intern 2016

➤ TGIF Now Accepting Proposals for Campus Sustainability, 2/26/18

The Green Initiative Fund (TGIF) spring grant applications are now live for those seeking $2,000 or above of funding for environmental sustainability-related projects. Applying in the spring is a 2-stage process, and the deadline to submit final abstract proposals is Monday, February 26, 2018 by 5PM. This spring 2018, TGIF is also prioritizing environmental justice thematic project proposals.

ELIGIBILITY
Students, faculty members, and/or staff members of the University of California, Berkeley are encouraged to submit a proposal for consideration by The Green Initiative Fund (TGIF) Committee. Along with a grant abstract application, individuals or groups of applicants must submit necessary project approvals and estimated metrics for their proposed project's sustainability impact on campus.

In order to be considered for environmental justice grant funding from TGIF, project applications must have a direct link to environmental results, meaning they must produce tangible sustainability metrics. All applicants who would like to be considered for environmental justice grant funding must indicate on their application this option and answer the 2 environmental justice prompts on TGIF's Spring 2018 application.

First priority will be given in the Committee's review process to student organizations that fall into the following categories:

- Cultural & Identity/Cultural & Ethnic;
- Cultural & Identity/International Student Organizations;
- Cultural & Identity/LGBTQ+;
- Cultural & Identity/Women’s Interest.

Student organizations and campus departments with a focus on social equity and/or environmental justice will be given second priority in the Committee's review process and evaluated by supplemental environmental justice questions on TGIF's Spring 2018 application.

Priority can be defined in a 3-tiered system as the Committee reading and voting on applications from these 4 categories of student organizations first, followed by applications not from these organizations but that would like to apply for environmental justice funding, followed finally by
“traditional” sustainability applicants.

To be considered for environmental justice grant funding, please submit a statement of environmental justice intent with your abstract, and if invited back to the final application stage, answer the conditional 2 prompts at the bottom of the application form. Please also indicate on your metrics sheet what the projected environmental justice and sustainability impacts of your project will be.

ALLOWABLE COSTS
Students initially voted and passed TGIF Fee in 2007 and have since voted to renew the program for an additional 10 years in Spring 2016. Currently assessed at $8.00 per semester (and planned to increase by $1 in steps over 3-year increments through 2027), TGIF Fee will continue to provide funding, via grants, for projects that improve and support UC Berkeley's campus sustainability efforts.
Current themes for sustainability projects include those that address:
- Education & Behavioral Change
- Energy Conservation & Efficiency
- Agriculture & Food Justice
- Habitat Restoration & Native Landscaping
- Transportation & Urban Development
- Waste Diversion & Reduction
- Water Conservation

Description: In this class, we will read the two major surviving epics of archaic Greek literature, the *Iliad* and the *Odyssey*, as well as the most famous Roman epic, the *Aeneid*, and learn about their origins and cultural significance. These poems, one a story of power struggle and the dangers of vengeful anger, the second of adventure, homecoming, and family, and the last of romance, duty, and conquest, have resonated with listeners and readers throughout the millennia. This class is an opportunity to read these timeless poems slowly and thoroughly, to analyze their language, themes, and structure, and to gain insights into how they influenced much of the Western literature that succeeded them.

Requirements: Weekly 1-page written responses; one paper of 4-6 pages; one midterm; one final.

Join us for Campus Conversations with Berkeley Leaders

Much change is afoot at Berkeley, as we work to eliminate our budget deficit as well as set the campus on a path toward continued academic and research excellence. These efforts are being directed by a host of campus leaders, some of whom have been at Berkeley for a long time and others who have just recently arrived, but all of whom are committed to engaging with the campus to develop solutions that serve our institution and community.

In the interest of open, transparent communication, this semester we are launching Campus Conversations, a monthly series of meet-and-greet events in which a campus leader will share his or her vision for the future and take questions from members of our community. Bring your thoughts and your lunch (we’ll provide cookies and refreshments!) and join the conversation.

**The first event will take place this Friday, January 26, and will feature Vice Chancellor and Chief Financial Officer Rosemarie Rae.** Rosemarie will give an overview of the campus budget and the financial challenges we face, as well as discuss approaches to building a sustainable financial model for the campus. The event will be held in Alumni House from noon to 1 p.m. Please bring your Cal ID if you’d like to attend.

Other upcoming events this spring will feature Executive Vice Chancellor and Provost Paul Alivisatos on February 12, Vice Chancellor for Administration Marc Fisher on March 22, and Chancellor Carol Christ on April 24. For more information, visit campusconversations.berkeley.edu.

#### Global Poverty & Practice Minor Info Sessions

Cal Students,

You are invited to attend a Global Poverty & Practice Minor Information Session! The GPP Minor introduces students to the theoretical frameworks, methods, and practical skills necessary to engage with global poverty and inequality in imaginative and effective ways.

The "Practice Experience" is a central component of the Minor in which students partner with domestic or international non-governmental or community organizations, government agencies, or other poverty or development programs, on various dimensions of poverty action – from community health and food security to economic justice and grass-roots political power. The combination of the the coursework for the Minor and this real world experience allows students to connect theories and practices of poverty action. Funding is available to support students’ practice experiences.

**The deadline to declare the Minor this semester is Wednesday, March 7th. There are no prerequisites required to declare.**

The Declaration Form and additional information about the Minor can be found at: [http://blumcenter.berkeley.edu/gppminor](http://blumcenter.berkeley.edu/gppminor).

Spring 2018: seats added for new Data Science and Science, Technology & Society courses

182A/AT: Science, Technology, and Society

Where do modern science and technology come from? How and why do they change? How is their credibility established — or challenged — in modern societies? How do they interact with the rest of our culture? The course examines these and other related questions using historical case studies from different periods. We shall discuss the emergence of science as a defining dimension of modernity, and its relations to other cultural traditions such as magic, religion, and art. We shall pay particular attention to the evolution of artifacts and technological systems such as industrial machinery, weapons, computers, and contraceptives. The aim of the course is for you to learn about how science and technology shape the way we live and, especially, how they are invariably shaped by historical and social circumstances. At the end of the course, you will be able to think historically about science and technology, and thus engage effectively with questions of technoscientific change — or lack thereof.

The course draws approaches and materials from both STEM and the social sciences. Throughout, we emphasize historical development. Scientific ideas and technological artifacts are not timeless, and they did not drop from the sky. A main course goal is to practice thinking historically; assignments and examinations call on those skills. The course is aimed at students of all majors; no scientific knowledge is presupposed.

C182C: Introduction to Science, Technology, and Society: Human Contexts and Ethics of Data

In Spring 2018 this class will offer a special focus on data analytics and information technologies in the contemporary world, as an exemplary case of science, technology, and society. The course provides an introduction to the field of Science and Technology Studies (STS) as a way to study how our knowledge and technology shape and are shaped by social, political, historical, economic, and other factors. We will learn key concepts of the field (e.g., how technologies are understood and used differently in different communities) and explore how human values and technology can interact (e.g., how values are embedded in technical systems, shape the choices of their users, and pose ethical questions for their creators). This class has been proposed to meet the Human Contexts and Ethics requirement of the proposed Data Science major.

Margo Boenig-Liptsin is co-instructor for this course.
DACA Open Letter from Psychology Department

See below for information regarding a statement on DACA. The Psychology Department's position statement action committee (Professors: Oz Ayduk, Iris Mauss, Serena Chen, and Graduate Students: Jon Reeves, Vyoma Shah, Jen Pearlstien, and Paul Connor) would like as many signatures as possible before forwarding to the chancellor. They want to make sure all have a chance to sign should they so choose.

➢ Summer 2018: NATAMST 179 "Indigenous Peoples and Env Change in North American West"

Native American Studies 179:
Indigenous Peoples and Environmental Change in the North American West (14941)
Summer Session A 2018
Tuesday/Wednesday/Thursday
1:00PM-3:30PM
Instructor: John J. Dougherty, Ph.D.

This course explores the dynamic relationships between indigenous communities and the continuously changing environmental landscapes of the North American West from before European contact to the present, and how these communities have continually adapted traditional cultural practices to meet ever-changing environmental realities. With this broader context, this course examines how specific indigenous communities have navigated their relationship with the natural world amidst the challenges of colonialism, globalization, environmental ruin, and climate change in the North American West. Additionally, this course examines the specific transformations of the regions unique and diverse environmental landscapes, and demonstrates how Native peoples have been central figures in the past, present, and future of natural resource preservation and management in the North American West.

**SERC's New EJ Resource Folder now live**

The Environmental Justice Associate for the Student Environmental Resource Center (SERC) at UC Berkeley has been compiling resources related to environmental justice and environmental intersectionality for the past semester. You may find them at the following link: [https://serc.berkeley.edu/environmental-justice/](https://serc.berkeley.edu/environmental-justice/)

From the Environmental Justice survey SERC distributed in October 2017, over half of the responses requested more learning materials and resources, hence the beginning of this resource collection. The *Environmental Justice Resource Collection* is a living, growing group of readings, toolkits, books, videos, and activities concerning the intersection of the environment and social justice. The purpose of this collection of resources is to fill some of the gaps we have in mainstream environmentalism and to provide some of the tools to facilitate these conversations in environmental spaces.

If you have any suggestions or know of resources that should be added here, feel free to email the Environmental Justice Associate, Amanina, at amanina.shofry@berkeley.edu, or SERC’s email at serc@berkeley.edu with the subject topic [EJ Resource Submission]. Please share these organized new resources with your networks, and especially anybody considering applying for The Green Initiative Fund (TGIF)’s environmental justice thematic grant cycle this term.
SUMMER 2018: American Studies 101AC - Age of Monopoly

This course satisfies the American Cultures requirement.

AS 101AC - AGE OF MONOPOLY
Summer Session A (6 weeks - 5/21 - 6/29/18)
4 units
MTW 12-3, 155 Kroeber
Instructor: Michael Cohen
Class # 14166

This course will consider the making of modern American culture between the end of the Civil War and the start of the First Great Depression. In these years the United States transformed itself from an isolated and agrarian nation into the richest, most urbanized nation in the world. These enormous changes were driven by the astonishing growth of industrial and finance capitalism into a vast corporate empire of monopolies in money, steel, tobacco, movies, food, oil, electricity, organized crime, etc. With this corporate growth and concentration came tremendous social, political, racial and sexual conflicts characterized by the clash of labor and capital, the triumph of Jim Crow white supremacy, the mass immigration of workers from Asia, Mexico and Europe, the cataclysmic end to 400 years of Indian Wars, the growing woman’s movement, and the vibrant outbreak of radical social movements demanding a “cooperative commonwealth.” This class will consider the economic and political changes of the Age of Monopoly through a study of its culture, for it was this half-century that gave birth to modern American culture in the form of illustrated magazines and comic strips, world's fairs and amusement parks, Wild West shows and vaudeville, the advertising and public relations industry, window shopping and department stores, skyscrapers and national parks, military buildups and IQ tests, talk radio and Jazz music, automobiles and suburbs, and most importantly, the Hollywood movie.

Freedom in Action Conference 2018, 2/24/18

On Saturday, February 24th the Anti-Trafficking coalition at Berkeley will be hosting the biennial Freedom in Action Conference at the Blum Center for Developing Economies in partnership with the Blum Center for Developing Economies, the Human Rights Center at the UC Berkeley School of Law, and the Student Alliance Against Trafficking.

Through this conference, we bring together voices from across diverse disciplines within the anti-human trafficking movement to come and lead workshops and discussions on the complexities of human trafficking. This year’s theme is the Politics of Trafficking.
The conference is directed toward both professionals and a *general audience* with no required prior knowledge of trafficking.

We believe this conference has immense relevance to everyone here in the Bay Area -- a major hub of human trafficking -- and will provide invaluable information and education in understanding and addressing the issue both here at home and on the global scale.

I have included the link to our website, facebook, and ticketing information if you are interested in learning more: [https://freedominactionberkeley.wordpress.com](https://freedominactionberkeley.wordpress.com)  
[https://www.facebook.com/events/401097210337339/](https://www.facebook.com/events/401097210337339/)  

The price is $9 for community members, $5 for students, and free for survivors. Also, we do have an optional price waiver ticket for those who are unable to pay. Lunch and a light breakfast will be provided to all attendees.

Free Speech Commission 2/9/18

The Free Speech Commission invites comment from faculty, staff, and students on Friday, February 9 from 3:00 to 4:00 pm in the ASUC Senate Chambers (fifth floor of Eshleman Hall) on the question of how the campus's principles of community can be more effectively implemented within the campus's obligations under the First Amendment. The Commission would also appreciate comment on the following questions:

- How can we best protect the right of non-violent protest?
- How can we contain the costs of security for major events?
- How can we make the police a less intimidating presence at major events without compromising security?
- Should students be able to serve as observers (as staff and faculty can now serve) at major events?
- Does rental of facilities by the non-affiliated public come at the expense of campus use, and do these rentals generate enough income to make them worth continuing to support? Should fewer facilities be available for public rental?
- Does the campus need to develop a centralized reservation system for all of its facilities?

Speakers and spectators will need to show a valid Cal ID at the door. Students who do not yet have a Cal ID may show CalCentral proof of registration. Depending on the number of speakers, the Commission may limit speaking time so everyone has an equal chance to be heard.

If you cannot make this session, you are welcome to submit a statement in writing to the Commission at ucbpolicy@berkeley.edu.
