## Apply for the 2023 AAPI Media Creatives Fellowship, March 1

While Asians and Asian Americans have helped build America and contributed to culture around the world, until very recently mainstream storytelling from Hollywood has not reflected these contributions or included narratives of the Asian diaspora. **We want to change this and create a pipeline of creatives from Cal to Hollywood.**

Through our AAPI Media Creatives Fellowship, BCNM aims to transform both how entertainment careers are viewed by AAPI students, and how AAPI are viewed within the entertainment industry. **Selected fellows will receive a summer stipend of \$1,500 plus mentorship from industry professionals.** The funding will help fellows pursue their creative passions in media and entertainment over the summer. This may be through an internship at a Hollywood studio, developing a script or videogame, or auditioning for television and movie roles. Fellows will also receive valuable mentorship from industry leaders Jason Lin (Producer, Story Arch Pictures), Lacy Lew Nguyen Wright (Executive Director, Hillman Grad Foundation), and Laura Reddy (Manager, Range Media Partners), which will include four activities, such as lunches, 1-1 meetings, speaker events and more.

We want to build a network of AAPI Cal alumni in leadership positions in media who, by developing narratives that feature AAPI and encouraging greater diversity at all levels within studios and agencies, will fundamentally change the ecosystem of cultural production to be more reflective of the AAPI community at large.

This year, BCNM has **one** Fellowship to award.
