Here is the [AAPI Wellness Guide 2021](#).

It is one of many products from the AAPISC, led by Lisa Hirai Tsuchitani and Marcia Gee Riley. AAPISC is an inaugural advisory body to the Chancellor and her Cabinet under the executive sponsorship of VCEI Oscar Dubón that was created in 2019 to increase awareness about and address campus climate issues for AAPI undergraduate and graduate students, staff, and faculty: <https://diversity.berkeley.edu/aapisc>

[Sigma Xi Scientific Research Honor Society Interest Form](#)

Hello and welcome!

If you are interested in joining a growing community of student and faculty researchers, networking, mentorship, learning about others' research, and more, please consider joining Sigma Xi, the Scientific Research Honor Society! Sigma Xi was a huge part of our lives (Morgan and Mitch!) in undergraduate and it's an organization we're looking forward to growing here at Berkeley and UCSF for grad and undergrad students. Currently it's only a few students and faculty, but our vision is to make it a big and strong chapter full of life again through mentorship, community outreach, and sharing our science passions! If you're interested in learning more about Sigma Xi or possibly joining, please fill out [this 2 minute form](#) so we can distribute more information! (This is a non-binding interest form and you can opt out of emails at any time!)

If you have any questions, please don't hesitate to reach out! (morgan.pfaff@berkeley.edu)

Courses Opportunity

Studying for graduate-level exams like the MCAT, OAT, GRE, etc., is often stressful and unstructured. To get more help and earn a higher score on the exams, consider buying a Kaplan Course Certificate. AMSA is offering limited certificates at a price less than half of their market value! This course certificate is currently being auctioned with the lowest bid starting at only \$899, while the original price of the same is \$1800. All the collected proceeds from the sales will go towards helping our organization make your lives easier as a pre-health student!

Study for Prospective Experimental Psych Ph.D. Students

Our names are Zahira Flores and Melanie Montejano, and we are undergraduate students at Heritage University. We are supervised by Dr. Amy Nusbaum. We are conducting a research study to learn about the admissions experience for prospective experimental psychology Ph.D. students, in addition to exploring the factors that contribute to preparation for the admission process. With these findings, we hope to give undergraduate students clarity to know what is expected of them in the graduate school application process and help graduate programs clarify and improve their admissions procedures.

We are recruiting individuals who meet all of these criteria:

1. Attend a four year college/university
2. At least a junior in standing
3. Psychology majors
4. Are planning on applying to an experimental psychology program for a Ph.D

If you decide to participate in this study, you will be asked to complete an anonymous survey through SurveyMonkey. The survey will take approximately 15 minutes. You may skip any question you feel uncomfortable answering and all responses will be kept anonymous.

During this activity, you will be asked questions about your demographics (race/ethnicity, gender, year in school, household size, income, citizenship status), academic experiences, knowledge of the graduate application process, and involvement in extracurricular activities. If you are interested in participating in this study, please click this link:
