Global Entrepreneurship and Innovation Summer Program, 1/26 - 2/3

Global Entrepreneurship and Innovation, Berkeley’s largest study abroad program, is a three-week intensive program where students from around the world collaborate to take their ideas and build new technology startups with guidance from esteemed mentors. This summer, the program will be offered virtually in partnership with European Innovation Academy.

The program is broken down into three parts:

1. **Leadership Week** - Students learn essential leadership skills to help them form new ventures, such as teamwork, collaboration, and how to form an effective team.
2. **The Challenge Lab** - Students learn product and team development with students from around the world and work together to bring their idea to life to form a new technology startup in just 15 days.
3. **Field Experience** - Students are placed with an established international company to work on a project to learn the latest and most relevant technologies and challenges in an industry that they can then apply to their own venture. Students will also gain professional and practical skills they can use to become a successful leader in the field.

Upon completion of the program, students will earn 6 units and the UC Berkeley Certificate in Entrepreneurship & Technology, have an internship experience for their resume, and have the ability to start new companies. The program will be virtual for summer 2021, but students will still have the opportunity to network with students and industry experts to learn in-demand entrepreneurial and tech skills.

Social and Moral Development Lab RA, 2/1

Sarah Manchanda will need two research assistants to join the Social and Moral Development Lab (in the Human Development and Education program) this upcoming semester, to help on a project dealing with the bullying experiences of students with disabilities during the COVID-19 pandemic and social/moral decision-making. Research assistants are needed as soon as possible as this study is set to begin on Monday, February 1st. Ideal candidates will have some knowledge of quantitative research methods, prior experience working in schools or with children or adolescents, and interest in moral development.

Tasks will include supporting with the recruitment of study participants, managing the survey platform, reviewing relevant literature, transcribing interviews, and helping code and clean data. Students can expect to learn about developmental psychology, as it relates to social and moral development and bullying based on group identity (i.e., disability). Students also will receive Psych 199 units for participating.

Interested students can email me (Sarah Manchanda) at sarah_manchanda@berkeley.edu
Students also should attach a resume/CV and include a brief statement of interest in the email.

YWCA Racial Justice/Advocacy Cohort Spring 2021 Program, 2/1

Are you passionate about racial and gender justice?
Are you interested in developing your grassroots organizing skills to advance the issues you care about?
Are you looking to build a powerful community with other young leaders, organizers and advocates united for justice?

Apply to become a member of the YWCA Racial Justice/Advocacy Cohort, Spring 2021 TODAY!
Internship and Volunteering Opportunities: Week of January 25, 2020

https://docs.google.com/forms/d/e/1FAIpQLSe16URXClESEc-kJ9WXBt6rjjFeJsVY1MkFNwqwh_3M6WHsfg/viewform?usp=sf_link

*Accepting applications through February 1st, 2020, share with your networks!

**SPRING 2021 OVERVIEW:**
This Spring Semester, the Racial Justice and Advocacy program will be co-collaborating and will be meeting virtually for weekly, interactive meetings. Together we will demystify the legislative process, and will explore how grassroots movement combined with policy can be used as a tool for racial justice and collective liberation. We will co-create and facilitate political education sessions and workshops centered around the issues and topics that program members are passionate about to deepen our knowledge and understanding of the history of white supremacy and systemic racism in the United States, as well as liberation movements and initiatives led by Queer, Trans, Black, Indigenous, Native & Communities of Color.

Through community engagement, legislative advocacy, connecting with local movements that align with the Movement for Black Lives, direct action opportunities, as well as participating in an end of semester lobby visit, we will work to deepen our leadership and advocacy skills to be able to advance issues of racial and gender justice in our community. Additionally, interested program members will have the option to take on additional leadership development by applying to join the RJ/Advocacy Stand Against Racism Planning Committee, that will be responsible for coordinating our annual YWCA Stand Against Racism Campaign!

**The Data Incubator Fellowship, 2/5**

In today’s world, we know how difficult it can be to attend a full-time data science fellowship program for 8 full weeks.

That’s why we’re proud to introduce our part-time fellowship program.

You’ll get the same great training, instructors and career boost as our full-time program, but with more flexibility.

The part-time program:

- Lasts 20 weeks instead of 8
- Takes place on Monday and Thursday evenings from 7:00-9:30 p.m. ET, with office hours held each week
Internship and Volunteering Opportunities: Week of January 25, 2020

- Allows you to work full-time while advancing your data career
- Includes TDI data science certification
- Offers the same curriculum and career services as our full-time program

The new application for our Spring 2021 Fellowship Program opens on 12/6.

Select your preference for full-time or part-time in your application and take the option that's right for you.

The Data Incubator

Seeking Pashto Translation Help, 2/8

Calling all UC Berkeley Undergrads!

Dr. Allison Harvey’s research team is seeking 1-2 undergraduate students to translate mental health/sleep treatment study materials from English to Pashto.

This serves as a great opportunity to get introduced to research and join a lab community. There will be opportunities to learn about research and participate in other study pieces down the road. Research units can be awarded, please reach out before February 8, 2021 if you are interested.

Please reach out to shayna_howlett@berkeley.edu if you are interested in this translating opportunity.

Dream Summer 2021 Fellowship, 2/19

What is Dream Summer?

Dream Summer is an annual fellowship of the UCLA Labor Center’s Dream Resource Center (DRC) that empowers immigrant youth and allies to be the next generation of social justice leaders through leadership and professional development, movement building, and on-the-ground experience in social justice organizations. During the summer, fellows are placed within social justice-based host organizations and work closely with their host organization to incorporate and strengthen the role of immigrant rights issues alongside the organization’s social justice work.

Are you interested in becoming a Dream Summer 2021 fellow?
Dream Summer 2021 is open to both experienced social justice leaders and those who wish to begin or strengthen their involvement in social justice. Dream Summer fellows receive a $5,000 fellowship award, leadership and professional development training, and become part of a national alumni network of over 750 immigrant rights leaders.

**Are you interested in becoming a Dream Summer 2021 host organization?**
For Dream Summer 2021, the DRC is seeking to partner with organizations that address issues intersecting with the experiences of immigrant youth including: educational access; health; labor; mass incarceration and deportation; and the unique experiences of Asian and Pacific Islander, Black, Muslim, and LGBTQ+ undocumented communities.

**What is the deadline to apply?**
The deadline for fellows to apply is February 19, 2021 at 12 PM PST.  
The deadline for host organizations to apply is February 5, 2021 at 12 PM PST.

**Will Dream Summer 2021 be a virtual experience due to COVID-19?**
Yes, as of now Dream Summer will happen virtually in 2021 due to the COVID-19 pandemic. Staff will notify participants immediately of any changes.

Casa de Esperanza Internship Program, year-round apps

Casa de Esperanza, a non-profit in Houston, Texas, provides residential care to children birth through six who are in crisis due to abuse, neglect, or the effects of HIV. Care is provided in our neighborhood by our Hands of Hope interns. Our interns, most of whom are recent college graduates, join us for a year of service (a twelve-month full-time post-graduation internship). Applicants wishing to complete shorter internships are considered on a case by case basis. We provide on-site housing (interns live with the children they are caring for) and interns join us from all over the United States to be part of our internship program.

Information about our internship may be found here:  
https://www.casahope.org/hands-of-hope-internship

The application for our internship may be found here:  
https://www.casahope.org/application-part-one
Interns in our program gain valuable experience that is relevant to a number of fields and future career goals while simultaneously making a meaningful difference in the lives of a vulnerable. We will have groups joining us in January, June, and August of 2021.

**Volunteer RA Position: Emotion, Health, and Psychophysiology Lab at UCSF**

The Emotion, Health, and Psychophysiology Lab at UCSF is accepting applications for volunteer research assistant positions.

Our research focuses on embodiment -- how the mind influences the body, and the reciprocal, how bodily changes influence thoughts, emotions, and intentions. Research assistants working in the lab are exposed to a variety of studies at the intersection of social psychology, emotion, and psychophysiology. RAs learn how to conduct studies, collect physiological data, and edit and score autonomic data. Our RAs work at least 10-12 hours a week for two school semesters.

This volunteer opportunity is ideal for undergraduate students or recent graduates looking to gain research experience for graduate school or medical school. Please note that while we welcome international applicants, we cannot help with the visa process.

*If you are interested in applying, please fill out this application form ([https://forms.gle/b2qs7eP7kjZwyPfS9](https://forms.gle/b2qs7eP7kjZwyPfS9)).*

*Any questions can be directed to the lab manager, Julia Moore, at julia.moore2@ucsf.edu.*

*Lab website: [https://www.wendyberrymendes.com/](https://www.wendyberrymendes.com/)*
Pandemic Professors: Volunteer Tutors needed!

We envision a world with no barriers, where every child can have access to a quality education and pursue their dreams.

Pandemic Professors provides free online 1-on-1 tutoring to help students in underserved communities strengthen subject comprehension, build important skills and increase their academic confidence.

Give back while learning new leadership skills!

We have the perfect student match for you, plus resources and support to help you grow alongside your student.

From the moment they met, it was a positive connection.

- Happy mom of a middle school student

I had never been a tutor before but the supportive community along with the many resources, have allowed me to create exciting lessons.

- Alyssa Wong
  Pandemic Professors' Tutor

Flexible schedule: tutor any day of the week, any time of day.

While tutoring any student can be a fun and flexible way to give back, we offer a unique opportunity to partner with families in underserved communities.

STEM Mentors Needed Now for Berkeley Middle Schools

"Be A Scientist" is Going Virtual! Inspire 7th graders to discover their inner scientist

https://crscience.org/outreach/beascientist/

We invite UC Berkeley graduate students, post-docs, and motivated 3rd/4th year undergrads to take part in Be A Scientist, an exciting award-winning science outreach program for Berkeley middle schools. We have made modifications to run our program fully online to accommodate distance-learning and we need you - we will be running a year's worth of programming in a single semester, so join us as we ensure that no 7th grader misses out this year!

Spring 2021 Session 1 for King Middle School: February 1st - March 19th (with gap days for President's Day). Registration is currently open!

Spring 2021 Session 2 for Willard Middle School and Longfellow Middle Schools: March 29th - May 14th (with gap weeks for BUSD and UCB Spring Breaks)). Registration is currently open!

As a volunteer scientist mentor, you will guide a small group of 7th graders through the process of designing and conducting their own scientific investigations during distance-learning lab periods over a 6-week period. This is a wonderful opportunity for you to serve as a STEM role model while developing your communication skills and gaining hands-on experience in important science outreach.

Details:

- Mentors must commit to one mandatory 2-hr Training Session: All trainings will be held on Zoom beginning two weeks prior to the start of each session
- Commit to attend at least one school lab period each week for the 6-week program (schedule program dates here). We encourage mentors to sign up for multiple lab periods if possible!
- Guide 4-6 student mentees through the process of developing a testable question, designing an appropriate experiment, and gathering and analyzing data. Each student in your group will have the opportunity to choose an independent scientific question based on their own interests and will be provided the materials they need to run these hands-on investigations at home during distance-learning school hours.

Please carefully read over the details provided here: https://crscience.org/outreach/basdetails/
Ready to participate? Sign up as a mentor to make an impact on future scientists, engineers, and critical thinkers! Sign up here: https://crscience.org/outreach/beascientistsignup/

To learn more, visit: https://crscience.org/outreach/beascientist/
Questions? Contact Darlene Yan at BASprogram@crscience.org

**UC Center Sacramento-Internship Opportunities**

UC Center Sacramento (UCCS) is a UC system-wide program that supports and allows students to participate in an internship, take upper division UC courses, and conduct and compile research every quarter.

We have upcoming webinars for all current UC Students. Please consider sharing the attached flyers and below email content with your students.

Registration link: https://ucdavis.co1.qualtrics.com/jfe/form/SV_cUajQ11YawFuff8

**UC Davis Summer Abroad & Internships Programs**
Enrollment is now open for UC Davis Summer Abroad, Summer Abroad Internships, and Virtual Summer Internships! There are 30+ programs in 20+ countries to choose from for 2021. Below are some unique programs that may be of interest to you.

- Open to all college students (all majors, freshman through graduating seniors)
- Typically, summer financial aid applies – check with your campus Financial Aid office to determine aid eligibility
- Program options abroad, in the US, and virtual
- UC Davis courses, led by UC Davis faculty = UC units
- Courses taught in English
- Guaranteed placement for internship programs

Enrollment is open and programs fill on a first-completed, first-reserved basis. Visit the program webpage links below for details on courses, syllabi, on-site experience, fees, and more.

France - Intro to Biological Psychology *(NEW)*
Courses: Psychology 101 & 198
Apply principles of biology to the study of psychology, learning about the workings of the mind in humans and animals. **Info Session**: 1/21/2021, 12:30 p.m. [Register on Zoom](#)

Italy - Science of the Mind
Courses: Psychology 135 & 135
Study Cognitive Neuroscience through the internationally known Department of Psychology at the University of Bologna in Italy. **Info Session**: 1/27/2021, 4 p.m. [Register on Zoom](#)

Netherlands - NPB 110A—Molecules to Individuals
Courses: Neurobiology, Physiology, and Behavior 110A & 198
Get introduced to the Neurobiology, Physiology, and Behavior curriculum in the Netherlands. We will stay in the college town of Wageningen.

Ireland—Psychology in Galway and Limerick
Intern in Galway or Limerick with placements focusing on community partnerships in two of Ireland’s most populous cities. **Psychology Internships Live Q&A**: 1/19/2021, 12:30 p.m. [Register on Zoom](#)

New Zealand—Psychology in Auckland and Wellington
Intern in Auckland or Wellington gaining experience in the fields of psychology and social work in a rich multicultural environment. Psychology Internships Live Q&A: 1/19/2021, 12:30 p.m. Register on Zoom

Spain—Psychology in Valencia (NEW)
Intern in the Mediterranean gem of Valencia with an individually tailored placement to work toward your career goals in psychology and social services. Psychology Internships Live Q&A: 1/19/2021, 12:30 p.m. Register on Zoom

UK—Psychology in London
Intern in the global metropolis of London with an individually tailored placement to work toward your career goals in psychology and social services. Psychology Internships Live Q&A: 1/19/2021, 12:30 p.m. Register on Zoom

Virtual – Counseling and Humanitarian Action (Jordan) (NEW)
This virtual internship focuses on the role of community-based and international aid organizations in responding to the refugee crisis in Jordan. Info Session: 2/2/2021, 12:30 p.m. Register on Zoom

Virtual – Int'l Development, NGO, and Charity (Worldwide) (NEW)
Gain cross-cultural work experience and build your resume with this 8-week, project-based internship.

Virtual – Multiple Career Fields (Worldwide) (NEW)
Gain international work experience and build your resume—from your laptop—with a Global Experiences virtual internship.

ACE Coaches Volunteer Tutoring

ACE Coaches is a tutoring club that serves elementary students in San Francisco Chinatown, and we're looking for new members to help us teach our weekly classes over Zoom this semester! This is a unique opportunity for more experience in education, community service, and virtual classrooms, and we're open to all students! Please visit our Facebook page, email us, or fill out our Google form to get in contact. Hope to serve with you soon!
Service
We partner with the SF Chinatown YMCA to tutor elementary students living in Single Room Occupancies (SROs).

Culture
In addition to tutoring math, English, and science, we teach them about Chinese culture.

Education
During weekly classes, our volunteers are teachers to the students, and we create curriculum to teach and support them!

ACE Coaches
Spring 2021
Facebook: @berkeleyacecoaches
Email: acecoaches@berkeley.edu
UCSF THRIVE Lab Volunteer Opportunities

Looking for an exciting research experience before medical or graduate school? The THRIVE (Trauma and Health Research on Immunity, Vitality and Emotions) Lab is hiring. We’re focused on revealing how psychological stress drives the development of mental and physical disorders like PTSD.

Volunteer Research Assistants will work for one year assisting with any research studies (e.g., screening or running patients), conducting literature reviews, developing protocols, and more!

Please check out our website to learn more about our research at odonovianlab.ucsf.edu

For a more complete job description or to submit materials, email esthethrive.lab@gmail.com.
Applications are reviewed on a rolling basis.
