Volunteers Needed: Student Workers at Cal Project, 11/05

The UC Berkeley Labor Center is running a student-led project to conduct research on the experiences of being a student and a worker. The goal is to look into a day of the life of student workers on the UC Berkeley campus. This will take form in the medium of a short-film and the project is looking for footage and/or audio explaining student workers’ experiences to present the need for representation of student workers at Cal. The project will be hosting a brief info session on Thursday, November 5th at 3PM.

Zoom Meeting Info:
Thursday, November 5, 2020 @ 5pm PST
Meeting ID: 922 2842 6287
Passcode: 881622

The Data Incubator Data Science Fellowship, 11/06

Have you heard the news?
TDI's next data science fellowship cohort's application opens September 2nd!

Do you have what it takes to become a leading data scientist?

The Application

Check out the dates below and mark them in your calendar so you don't miss a single deadline.

Then check out this great data science demo with TDI instructor Michael Cullan and start preparing for your coding challenge.

Watch the Demo

Not sure what to do for your capstone project? See what one of our recent graduates did for her project to give you a jumpstart on your brainstorming.

See the Project

Curious to know what financing options are available? We’ve got you covered with everything from limited full-tuition scholarships to income sharing agreements. Find the solution that's right for you.

NIH Postbaccalaureate Research Opportunity, 12/13

NIH invites graduating seniors interested in careers in medicine, psychology, or neuroscience: Section of Clinical and Computational Psychiatry (COMP-Ψ) at the National Institute of Mental Health in Bethesda, Maryland, is recruiting applicants for a two-year, paid Intramural Research Training Award (IRTA) Fellowship with employment beginning in June 2021. Please note that our group was formerly called the Mood Brain and Development Unit (MBDU).

COMP-Ψ conducts research using fMRI and MEG data to study pathophysiology, treatment and prevention of childhood mental illnesses, with an emphasis on major depressive disorder in children and adolescents. IRTA Fellows are involved in all aspects of the clinical research process, including analyzing data and interacting with patients.

Detailed ads are attached to this email. Interested applicants complete the following application: https://forms.gle/b4QbE9KNzy8FsR3g7 and send an updated resume or CV and unofficial transcript to Payton Fors at payton.fors@nih.gov.

Applications are accepted on a rolling basis. No applications will be accepted midnight December 13, 2020.

Applicants should also complete the NIH’s universal IRTA application found at https://www.training.nih.gov/programs/postbac_irta by January 15, 2021 to be considered for this position.
Please feel free to contact payton.fors@nih.gov with any questions or concerns.

**Casa de Esperanza Internship Program, year-round apps**

Casa de Esperanza, a non-profit in Houston, Texas, provides residential care to children birth through six who are in crisis due to abuse, neglect, or the effects of HIV. Care is provided in our neighborhood by our Hands of Hope interns. Our interns, most of whom are recent college graduates, join us for a year of service (a twelve-month full-time post-graduation internship). Applicants wishing to complete shorter internships are considered on a case by case basis. We provide on-site housing (interns live with the children they are caring for) and interns join us from all over the United States to be part of our internship program.

Information about our internship may be found here:
https://www.casahope.org/hands-of-hope-internship

The application for our internship may be found here:
https://www.casahope.org/application-part-one

Interns in our program gain valuable experience that is relevant to a number of fields and future career goals while simultaneously making a meaningful difference in the lives of a vulnerable. We will have groups joining us in January, June, and August of 2021.
Pandemic professors seeking empathetic tutors

Want to help your community recover from COVID-19?

Are you interested in Psychology, Empathy, or Working with Kids?

VOLUNTEER WITH PANDEMIC PROFESSORS

Pandemic Professors is a 503(c)(3) non-profit organization that facilitates free tutoring to children in low-income communities.

Visit our website to sign up as a tutor:
https://pandemicprofessor.org

As a tutor, you will hold virtual tutoring sessions with students to provide the academic and emotional support students need to stay on track.
VOLUNTEERING BENEFITS

- Help our nation's youth stay on course with their education.
- Get officially recognized on our website (unless you prefer otherwise) - Check out our current tutors on our website.
- Showcase your leadership potential for future employers and graduate schools.
- A letter of recommendation for graduate school or employment.
- Learn by teaching! Teaching others is a great way to improve your skills.
- Engage in internal leadership opportunities, both current and upcoming.
- Flexible schedule with variable hours.

Become a Pandemic Professor!
For more information, visit our website:
https://pandemicprofessors.org
MOTIVATE Mentoring Program

Hello,

I hope this email finds you safe and well.

My name is Destiny Hernandez. I recently graduated from UCLA with a Bachelor's Degree in Neuroscience and I am working on the start of a virtual mentoring program, MOTIVATE, in the Montebello Unified School District. I am currently requesting those interested in the potential mentor role to fill out this form to provide a number of prospective mentors to the school district as we work together. If you could please send this out to your students, faculty, and alumni, I would greatly appreciate it. Here is a brief description of the program:

MOTIVATE is a mentoring program that aids to provide the students of the Montebello Unified School district resources that would aid their path to their career goal. The program aims to close the education gap by pairing students with mentors who have reached/are on their way to a career goal similar to the students’ goals to share their experiences, their knowledge, and their guidance.

I hope you consider giving back to the community with a little bit of your time. Once again, here is the interest form. I look forward to hearing from you all. If you have any questions, please reach out to dphernandez1224@gmail.com

Thank you,
Destiny Hernandez

Volunteer RA Position: Emotion, Health, and Psychophysiology Lab at UCSF

The Emotion, Health, and Psychophysiology Lab at UCSF is accepting applications for volunteer research assistant positions.

Our research focuses on embodiment -- how the mind influences the body, and the reciprocal, how bodily changes influence thoughts, emotions, and intentions. Research assistants working in the lab are exposed to a variety of studies at the intersection of social psychology, emotion, and psychophysiology. RAs learn how to conduct studies, collect physiological data, and edit and score autonomic data. Our RAs work at least 10-12 hours a week for two school semesters.

This volunteer opportunity is ideal for undergraduate students or recent graduates looking to gain research experience for graduate school or medical school. Please note that while we welcome international applicants, we cannot help with the visa process.

If you are interested in applying, please fill out this application form (https://forms.gle/b2qs7eP7kjZwyPfS9).
Any questions can be directed to the lab manager, Julia Moore, at julia.moore2@ucsf.edu.

Lab website: https://www.wendyberrymendes.com/

Volunteer Bootcamp Internship Program: Winning Battleground Campaigns

Flip the West is a Political Action Committee working to Flip the US Senate by electing Democrats in key Senate races in the West Coast and Midwest. This 2-4 week bootcamp program provides participants to make a quick and immediate impact on a national level while also gaining key experience in political advocacy, outreach, and organizing. This program provides comprehensive training and structure for successful field campaigns while making immediate and meaningful impact in the 2020 election.

As a part of the Flip the West Volunteer Bootcamp Internship Program you will have the opportunity to gain the following skills:

- Virtual Organizing
- Advocacy & Direct Engagement
- Virtual Network Building
- Political Advocacy

Successful participants may be eligible to receiving the following:

- Letter of Recommendation
- Professional Reference
- Professional Development

INSTRUCTIONS
Please fill out the following Google Form:
https://forms.gle/WSdHZ7iE2QNVfT2WA

You will be asked a few basic questions, to write a short personal statement and to attach your resume. If you are interested, please fill out as soon as possible. All applications will be reviewed and responded to within 48 hours.

If you have any questions, please email michael@flipthewest.com
Seeking Undergraduate Volunteers at UCSF Psychiatry Lab

Early Psychosis Research Lab | Looking for Volunteers - Clinical Research Assistant

The Prodrome, Assessment, Research and Treatment (PART) Program is based out of the University of California, San Francisco Department of Psychiatry. The PART Program conducts research with adolescents and young adults who are at high risk for developing schizophrenia, as well as young people recently diagnosed with schizophrenia. We are interested in 1) identifying young people at risk for a psychotic disorder; 2) studying risk factors for psychosis onset; and 3) testing prevention and early intervention treatments. Our program integrates psychosocial and neurobiological approaches to understanding major mental illness.

Principal Investigator: Rachel Loewy, PhD

Duties:
- Administrative/Clerical Duties such as data entry, data cleaning, research records review, etc.
- Participation in weekly clinical research meetings
- Great experience to put on your resume for graduate or medical school

Skills:
- Prefer Psychology Major
- Organizational skills are key
- Detail oriented
- Familiarity with Microsoft Office, Excel, and SPSS
- Previous research experience a plus but not necessary

We are looking for individuals who can commit about 8-16 hours per week for one year to our research lab. This would be an excellent opportunity for undergraduate students.

If you are interested in working with our dynamic, growing research program, please email your resume and cover letter to the lab manager, Heather Garman, at heather.garman@ucsf.edu
