Sigma Xi Scientific Research Honor Society Interest Form

Hello and welcome!

If you are interested in joining a growing community of student and faculty researchers, networking, mentorship, learning about others' research, and more, please consider joining Sigma Xi, the Scientific Research Honor Society! Sigma Xi was a huge part of our lives (Morgan and Mitch!) in undergraduate and it's an organization we're looking forward to growing here at Berkeley and UCSF for grad and undergrad students. Currently it's only a few students and faculty, but our vision is to make it a big and strong chapter full of life again through mentorship, community outreach, and sharing our science passions! If you're interested in learning more about Sigma Xi or possibly joining, please fill out [this 2 minute form](#) so we can distribute more information! (This is a non-binding interest form and you can opt out of emails at any time!)

If you have any questions, please don't hesitate to reach out! (morgan.pfaff@berkeley.edu)

Courses Opportunity

Studying for graduate-level exams like the MCAT, OAT, GRE, etc., is often stressful and unstructured. To get more help and earn a higher score on the exams, consider buying a Kaplan Course Certificate. AMSA is offering limited certificates at a price less than half of their market value! This course certificate is currently being auctioned with the lowest bid starting at only \$899, while the original price of the same is \$1800. All the collected proceeds from the sales will go towards helping our organization make your lives easier as a pre-health student!

If this sounds like something you would be interested in, please visit the link down below:

Study for Prospective Experimental Psych Ph.D. Students

Our names are Zahira Flores and Melanie Montejano, and we are undergraduate students at Heritage University. We are supervised by Dr. Amy Nusbaum. We are conducting a research study to learn about the admissions experience for prospective experimental psychology Ph.D. students, in addition to exploring the factors that contribute to preparation for the admission process. With these findings, we hope to give undergraduate students clarity to know what is

Miscellaneous Opportunities: Week of October 31st, 2022

expected of them in the graduate school application process and help graduate programs clarify and improve their admissions procedures.

We are recruiting individuals who meet all of these criteria:

1. Attend a four year college/university
2. At least a junior in standing
3. Psychology majors
4. Are planning on applying to an experimental psychology program for a Ph.D.

If you decide to participate in this study, you will be asked to complete an anonymous survey through SurveyMonkey. The survey will take approximately 15 minutes. You may skip any question you feel uncomfortable answering and all responses will be kept anonymous.

During this activity, you will be asked questions about your demographics (race/ethnicity, gender, year in school, household size, income, citizenship status), academic experiences, knowledge of the graduate application process, and involvement in extracurricular activities. If you are interested in participating in this study, please click this link:

www.surveymonkey.com/r/psychgrad. If you have any questions, please contact us at: nusbaum_a@heritage.edu

Applications Now Open: UC Berkeley MNSD

Applications are now open!

The 21-month Master of Nutritional Sciences and Dietetics (MNSD) program at UC Berkeley prepares students for a career as a registered dietitian nutritionist.

Our program is held in-person with all coursework taking place on the UC Berkeley campus, and all supervised practice training rotations take place within the San Francisco Bay Area.

Graduates of any bachelor's program are welcome to apply for admission as long as they have completed the prerequisite coursework. [Applications for enrollment in fall 2023 are now open.](#)

Looking for more info?

Join us at an open house this fall.

Upcoming Scholarship Info Sessions and Deadlines

UPCOMING SCHOLARSHIP INFO SESSIONS

* [Yenching Scholars](#):

Online information session for West Coast U.S. ([pre-registration](#) required)

Tuesday, October 11th, 6:00pm (PDT)

The Yenching Academy offers a highly customizable Master's program in China Studies for English speakers with varied levels of Chinese language competency. At the core of the program is an emphasis on interdisciplinarity and thinking about China – past, present and future – from both Chinese and international perspectives. As a college integrated within Peking University, the Yenching Academy prepares a diverse group of exceptional international and Chinese students with the knowledge of China that they need to fulfill their potential as global citizens and leaders. The fellowship covers tuition and fees, accommodation, and living costs. University nomination required. Campus application deadline: November 15, 2022. Students interested in applying must schedule an individual advising appointment with Keila Diehl (ourschol-coordinator@berkeley.edu).

OTHER UPCOMING SCHOLARSHIP DEADLINES

[Knight-Hennessy Scholars](#)

Application deadline: October 12, 2022

[Luce Scholarship](#)

Application deadline: October 15, 2022

[Churchill Scholarship](#)

University nomination required.

Campus application deadline: October 17, 2022

Graduate Application Workshops - UCI School of Social Ecology - Start on October 3rd

Hi there,

My name is Irice Castro, and I am the Assistant Director of Graduate Affairs at the [UCI School of Social Ecology](#). Starting this October, we will be offering online graduate application workshops where we will be providing feedback on application essays and general support on how to fill out the application. Workshops are free of charge and are open to all prospective applicants to our graduate programs; we just ask that they register below:

<https://grads.soceco.uci.edu/pages/plan-your-visit#AppWorkshop>

We offer the following graduate programs and will begin [accepting applications](#) October 3, 2022 for a Fall 2023 start:

DOCTORAL PROGRAMS

- [Criminology, Law & Society](#)
- [Urban & Environmental Planning & Policy](#)
- [Psychological Science](#)
- [Psychological Science with a concentration in Clinical Psychology](#)

ON-CAMPUS MASTER'S PROGRAMS

- [Master of Public Policy](#)
- [Master of Urban & Regional Planning](#)

ONLINE MASTER'S PROGRAMS

- [Master of Advanced Study in Criminology, Law & Society](#)
- [Master of Legal & Forensic Psychology](#)

For additional information regarding admission to our School, please visit:

<https://grads.soceco.uci.edu/pages/admissions>

Chicago Booth Research Opportunities

The [University of Chicago Booth School of Business](#) has launched its fall recruiting cycle for pre-docs. Pre-docs (sometimes called Research Professionals or full-time RAs) are two-year

Miscellaneous Opportunities: Week of October 31st, 2022

full-time appointments working directly for faculty on their research in the quantitative social sciences (QSS), like economics, business, political science, behavioral science, and others. Students who are interested in graduate study in QSS fields but do not yet feel ready for a PhD program, or who are uncertain whether they want to pursue a PhD, find these positions to be especially useful. These are competitively paid positions with full benefits. Students can [sign up](#) to hear about new job opportunities when they are ready to apply (e.g., a freshman could sign up to hear about new postings in three years). The [PREDOC Consortium](#) also provides a wealth of [programming and information sessions](#), as well as [guides to the pre-doc application process](#). PREDOC's offerings are growing rapidly, so students should [sign up to receive updates](#).

Staff at Booth and PREDOC are more than happy to answer any questions you or your students have about pre-doctoral opportunities. Please email us at ResearchProfessional@lists.chicagobooth.edu or info@predoc.org with any questions or to arrange a meeting or information session. Please don't hesitate to reach out as one of our goals at Booth is to reduce as much as possible the informational frictions surrounding these positions, to help you advise your students effectively.

Pursuing a Career in Mental Health: A Comprehensive Guide for Aspiring Professionals by Professor Ann F. Garland

Pursuing a Career in Mental Health

A Comprehensive Guide for Aspiring Professionals

Pursuing a Career in Mental Health

A Comprehensive
Guide for
Aspiring
Professionals

Ann F. Garland, Ph.D.

Pursuing a Career in Mental Health helps demystify the world of mental health by identifying the best educational path for people interested in this career and by giving them the resources to prepare for success. Designed to prepare students to excel in training and in careers in practice, the book offers an introduction to the topics addressed in graduate study across disciplines, exploring important issues relating to current and future mental health practice. Throughout, mental health professionals share inspirational wisdom to build realistic expectations and highlight key decision points.

FEATURES

- Provides comprehensive information about the disciplines of counseling, marital/couples and family therapy, psychology, psychiatry, psychiatric nursing, and social work, along with an expansive array of job possibilities
- Offers practical guidance about masters versus doctoral degrees, graduate admissions requirements, educational costs, and salary projections
- Teaches how diversity and inclusion issues, as well as laws and ethics, impact mental health
- Recommends multimedia resources to continue preparing for a career in mental health

THE AUTHOR: Ann F. Garland

Ann F. Garland is Professor and former Chair of the Department of Counseling & Marital and Family Therapy at University of San Diego, as well as Professor Emerita in the Department of Psychiatry at U.C. San Diego.

Summer 2023 Applications Open! University of Washington MA in Applied Child & Adolescent Psychology - Deadline November 15th

The Master of Arts in Applied Child & Adolescent Psychology: Prevention & Treatment.

This program prepares students for careers providing clinical prevention and intervention services to children and adolescents in various settings including schools, community organizations and health care facilities. Based on a bioecological model of child development, the master's degree provides students with a background in biological, interpersonal and contextual processes that contribute to child psychopathology. Students are also trained in the use of evidence-based treatment programs for improving children's mental health outcomes. Plus, through the program practicum, students gain real-world experience observing and practicing treatment models in local clinical mental health settings.

Our students study under nationally recognized experts in child psychology affiliated with the Department of Psychology, the Department of Psychiatry & Behavioral Sciences, and the University's Center for Child & Family Well-Being.

For full-time students, this 53-credit program lasts five quarters (summer–summer). We also accept a few part-time students annually who we expect to complete the program in two years and one quarter. Most classes take place starting in the late afternoon. Practicum schedules, which average 16-20 hours a week, are arranged with the practicum site supervisor.

The deadline to apply for Summer 2023 is November 15, 2022. To find out more, add your name to their mailing list, or to apply, visit their website at appliedchildpsych.uw.edu. You may also contact Program Specialist Chelsea Melton at 206-543-3067 or psychma@uw.edu.
