Supportiv is Looking for Peer Support Moderators (PT/Flexible Hours)

Supportiv (www.supportiv.com) is an anonymous online peer support network with live moderators (you!). Users are matched in real-time for live discussions among small groups of peers experiencing the same type of relationship, family, school, or work stress, anxiousness, sadness, or loneliness.

Supportiv is hiring part-time Peer Support Moderators with flexible hours. Pay is $15/hr. Jobs are remote/work from home.

Moderators should exhibit:

- Passion for mental health & wellness
- Willingness to be an active participant in the training curriculum for moderator skillset, including offering suggestions on how to improve the process
- Openness to feedback towards personal improvement
- Eagerness to make the user experience as welcoming as possible

TO APPLY: Email your resume to info@supportiv.com with "Berkeley Moderator" in the subject line.

Paid Opportunity at a Mental Health Startup

Interested in psychology, healthcare, or helping increase access to support for those in need (and earn ~$30/hour for doing it)? Become involved as a Basis Specialist, a paid opportunity, at a mental health startup! Benefits include training in motivational interviewing skills, basic counseling techniques, and how to apply these skills in one-on-one interactions with clients seeking the service.

All trainings and sessions are conducted via a video conference platform. Scheduling is flexible and location is not an issue!

Interested? Find more information about the position and fill out an application here: https://www.fountain.com/basis/apply/basis-hq-basis-counselor

Personality and Behavioral Scientist Position Open at Ntrepid

Ntrepid Corporation seeks an innovative personality psychologist with strong research, analytic, and communication skills. This is a full-time position on the Behavioral Science Team. The personality psychologist will be a member of a team that simultaneously supports multiple product development and research projects across the organization.

Work Opportunities – Week of November 5, 2018

Job Opening for Psychology/Neuroscience Research Assistant at Virginia Tech

Clinical Research Coordinator (Project Associate) Position Available

Position Summary:

An NIH-funded Clinical Research Coordinator/Associate is being sought for the labs of Dr. Pearl Chiu and Dr. Brooks King-Casas at the Virginia Tech Carilion Research Institute (http://research.vt.edu) in Roanoke, Virginia. Projects in the labs focus on the neuroscience of motivated behavior and social decision-making, in both healthy and psychiatric groups including individuals with major depression, substance use disorders, personality disorders, and PTSD. This is an excellent opportunity for a detail-oriented person who enjoys interacting with others, being a key part of a diverse and active scientific environment, working with individuals with varied mental health difficulties, and managing multiple project duties. The position is available for immediate start.

Position Duties and Responsibilities:

The Clinical Research Coordinator/Associate will be expected to provide subject matter expertise in the areas of psychiatric diagnostic assessment, crisis management, empirically supported psychotherapy, and team supervision. Primary responsibilities will include psychiatric assessment and structured diagnostic interviews, tracking rater reliability, treatment fidelity and adherence, participant recruitment and oversight, research compliance (including IRB protocols), forming liaisons with clinical professionals, and maintaining the integrity of participant databases. The Clinical Research Coordinator/Associate will oversee a junior clinical team including training and supervising junior staff in all aspects of the clinical research process (e.g., research administration, basic clinical research design, participant recruitment, assessment and retention, and clinical data reduction and analysis). The successful team member will be skilled in monitoring and adjusting priorities, problem solving, and generally ensuring the day-to-day implementation of the clinical research programs. The Clinical Coordinator/Associate is an essential member of the research team and will be expected to regularly interact with research collaborators, hospital and community clinicians, and research administrators on behalf of the principal investigators. Opportunities to participate in manuscript and/or grant preparation are available for interested candidates.

Required Qualifications:

1) MAMS in clinical psychology, counselling psychology or related fields (PhDs will be considered favorably); 2) two years of adult psychiatric research or patient care experience; 3) experience in the administration of standard psychiatric assessments; 4) demonstrated attention to detail and excellent communication skills.

Preferred Qualifications:

1) experience with semi-structured psychiatric diagnostic interviews (including; Structured Clinical Interview for DSM-5, Clinton Administered PTSD Scale, Mini Neuropsychiatric Interview); 2) empirically supported psychotherapy or research experience with major depression, borderline personality disorder, PTSD, and/or substance use disorders; 3) licensure in field of training; 4) facility with basic statistical methods.

Required application materials: Cover letter including statement of interest, CV/Resume, list of references. Two letters of recommendation will be required prior to final consideration.

Consideration of applications will begin October 15, 2018, and will end when the position is filled. Expected start date is as soon as possible. Virginia Tech Carilion Research Institute is an Affirmative Action/Equal Opportunity employer and is committed to cultural diversity and compliance with the Americans with Disabilities Act.

Please apply at: http://www.jobs.vt.edu, posting #SR0180179

Pre-submission inquiries with CV may be emailed to:

Lab Manager for Dr. Pearl Chiu, Dr. Brooks King-Casas, and Dr. Stephen LeConte Virginia Tech Carilion Research Institute Roanoke, VA

VIRGINIA POLYTECHNIC INSTITUTE AND STATE UNIVERSITY
An equal opportunity, affirmative action institution
Work Opportunities – Week of November 5, 2018

Research Assistant (Lab Manager) position available

Virginia Tech Carilion Research Institute
Roanoke, Virginia

A full-time research assistant (lab manager) is sought for the labs of Dr. Pearl Chiu, Dr. Brooks King-Casas, and Dr. Stephen LaConte at the Virginia Tech Carilion Research Institute (http://research.vtc.vt.edu). Projects in the labs combine methods from experimental and clinical psychology, neuroscience, and behavioral economics with functional neuroimaging to investigate decision-making in healthy and clinical populations (focusing on adults with mood, anxiety, personality, or substance-use disorders, and at-risk youth). The research assistant will be responsible for recruiting and assessing research participants, implementing all aspects of study protocols, and maintaining positive communication with research participants and collaborators. Data collection involves various modalities including: behavior, fMRI, clinical interviews, genetic samples. Additional duties include managing participant databases, organizing project funds, and preparing and tracking IRB protocols. The research assistant is an essential member of the group and will be generally responsible for having overall knowledge of all lab projects and managing day-to-day logistics of ongoing lab projects. Training will be provided for all aspects of the position. For motivated individuals, there are many opportunities to be involved with data analysis. This is an excellent position for candidates interested in graduate school in cognitive or clinical psychology, neuroscience, and related fields. Preference will be given to candidates who are willing to make a two-year commitment.

Minimum requirements include: 1) BA/BS in psychology, biology, engineering, or related field; 2) two years of research experience; 3) ability to work both independently and as part of a team; 4) demonstrated organizational skills and attention to detail; 5) demonstrated ability and desire to succeed in a fast-paced research environment with multiple concurrent duties; 6) excellent written and oral communication skills; 7) proficiency with MS Word, Excel, and PowerPoint or equivalent.

Other information: MA/MS candidates with clinical (clinical psychology, psychiatry) training will be considered; salary will be commensurate with experience. Candidates with data analysis and/or computer programming experience will be considered favorably.

Required application materials: Cover letter including statement of interest, CV/Resume, list of references. Two letters of recommendation will be required prior to final consideration.

Consideration of applications will begin October 15, 2018, and will end when the position is filled. Expected start date is as soon as possible. Virginia Tech Carilion Research Institute is an Affirmative Action/Equal Opportunity employer and is committed to cultural diversity and compliance with the Americans with Disabilities Act.

drdorris.com
We invite you to share an exciting employment opportunity for graduating seniors interested in careers in medicine, psychology, or neuroscience: Mood, Brain and Development Unit (MBDU) at the National Institute of Mental Health in Bethesda, Maryland, is recruiting applicants for two-year, paid Intramural Research Training Award (IRTA) Fellowship with employment beginning in June 2019.

MBDU conducts research using fMRI data to study pathophysiology, treatment and prevention of childhood mental illnesses, with an emphasis on major depressive disorder in children and adolescents. IRTA Fellows are involved in all aspects of the clinical research process, including analyzing data and interacting with patients.

We request that interested applicants complete the following application: https://goo.gl/forms/kpkRpkfzFNS40qeh1 and send an updated resume or CV and unofficial transcript to Christine Wei at christine.wei@nih.gov. We would like to stress that we are accepting applications on a rolling basis and will not accept any applications after midnight December 15, 2018. Applicants should also complete the NIH’s universal IRTA application found at https://www.training.nih.gov/programs/postbac_irta by January 15, 2019 to be considered for this position.
The Green Initiative Fund (TGIF) is looking to hire 2 new Program Associates to support our program! The deadline to apply is November 9th by 5PM. You may find the Handshake posting at [this link](https://handshake.nyu.edu/jobs/2098775) or under the posting code 2098775. Here's also a [direct link](https://handshake.nyu.edu/jobs/2098775) to the job description, and I've attached a promotional flier for the role.
NOW HIRING

PROGRAM ASSOCIATE(S)

ARE YOU...

☐ Committed to advancing environmental sustainability and environmental justice on campus?

☐ Passionate about environmental grants and collaborating with stakeholders?

☐ Experienced in: social media, report writing, print and media design?

Students of color, LGBTQ+ students, and students with disabilities are encouraged to apply. Please send a cover letter expressing your interest/qualifications, and your resume in one single PDF to tgif_info@berkeley.edu by November 9th, 2018 5pm. Please include “TGIF Program Associate_Your Name” as the subject of the email.

Handshake posting: #2098775
Job Title: TGIF Program Associate
Handshake posting: #2098775

This position is funded by The Green Initiative Fund (TGIF) (More can be found at tgif.berkeley.edu).

About TGIF:
The Green Initiative Fund (TGIF) is UC Berkeley’s campus green fund. TGIF provides funding, via grants, for projects that improve and support UC Berkeley’s campus sustainability efforts. TGIF allocates funds to projects that promote sustainable modes of transportation, increase energy and water efficiency, restore habitat, promote environmental and food justice, and reduce the amount of waste created by UC Berkeley.

Portions of the fund also support education & behavior change initiatives, student financial aid (via return to aid), and student internships. Students, faculty, and staff may submit project proposals, which are selected for funding by the annually appointed TGIF Committee, consisting of students, faculty, and staff, on which students have the majority vote. TGIF is funded by an $8.00 per semester student fee, which began in the fall of 2007 and was renewed in 2016, persisting for 10 years.

The Green Initiative Fund is a program initiative within the Student Environmental Resource Center (SERC) (More can be found at serc.berkeley.edu).

Job Summary/Job Duties:
- Assist the TGIF Coordinator and the TGIF Lead Program Associate with the documentation of TGIF funded projects. Duties include recording and calculating quantitative and qualitative sustainability metrics produced by projects, reading project updates and reports, and following up with project leaders.
- Work closely with grant applicants by reviewing applications, providing feedback on grant applications before grant deadlines, and holding office hours for potential grant seekers.
- Hosting grant-writing workshops and TGIF info-sessions on behalf of the program.
- Assist with the publicity and marketing of metrics, data, and project outcomes; Update project results on social media platforms and TGIF website (Wordpress).
- Participate in TGIF Committee meetings, workshops, and events; Participate in SERC related events and meetings.
- Provide recommendations for improving the TGIF program as a whole.
- Other duties as needed.
Full-Time Operations Associate Opportunity at The Voleon Group

Voleon is seeking Operations Associates for our rotational program in Berkeley, California, an opportunity designed to provide recent grads with broad exposure to business operations and finance. We’re looking for candidates with a passion for tackling challenging problems and building scalable business solutions. We do not require experience or coursework in finance for this position. This is a great opportunity to have a significant impact at a fast-growing and successful company.

Voleon has been using machine learning to predict financial markets for over a decade. We’ve become a multi-billion dollar hedge fund, and we’re entering a bold new phase of growth (now over 100 employees). We have an open, collegial culture built around a brilliant group of people including internationally recognized experts in machine learning and top talent from tech and academia.

Click here to view the full job description and apply, and if you have any questions feel free to reach out to recruiting@voleon.com.

Research Coordinator Position at UCLA ADR

The Anxiety & Depression Research Center (ADRC) at University of California, Los Angeles is looking to hire a research coordinator, with the position beginning as early as November, 2018. Under the supervision of Michelle Craske, Ph.D., Aileen Echiverri-Cohen, Ph.D., and Amy Sewart, MA, the research coordinator will coordinate two novel intervention studies for the treatment of anxiety and depression. Responsibilities include scheduling participants, running behavioral sessions, training research assistants on data entry and related tasks, conducting semi-structured interviews (e.g. SCID), and managing study data. The research coordinator will also focus on participant retention and maintain contact with study participants. Experience with online questionnaire platforms and psychophysiological data collection is preferred. Applicants should 1) apply through official HR posting below and 2) send cover letter and CV to Amy Sewart, MA at amysewart@ucla.edu.

hr.mycareer.ucla.edu/applicants/Central?quickFind=74600

Research Fellowship Opportunities in Social Developmental Neuroscience

The Marcus Autism Center, in conjunction with the Emory University School of Medicine and Children’s Healthcare of Atlanta, is offering four fellowships: the Cohen Fellowship in Developmental Social Neuroscience, the Marcus Fellowship in Speech Science and Engineering, the Simons Fellowship in Computational Neuroscience, and the Education Sciences Fellowship. Students who will receive a bachelor’s degree by June 2019 will be eligible for the positions. The fellowships will commence in July 2019, and they are 2 years in duration. Students can find further details at: http://www.cohenfellowship.org and http://www.simonsfellowship.org
The Cohen Fellowship in Developmental Social Neuroscience will involve cutting-edge social neuroscience research in infants, toddlers and adolescents. Fellows will work to further the understanding of autism through eye-tracking research, guiding a project from the point of data collection to publication of results.

The Simons Fellowship in Computational Neuroscience will involve integrating computational strategies with clinical research goals. Fellows will develop methods for the analysis of visual scanning and eye-tracking data, computational models of visual salience, and data visualization techniques, all with the aim of advancing the understanding of autism and efforts at early diagnosis.

The Marcus Fellowship in Speech Science and Engineering will involve researching early vocal development, including speech production and speech perception, as part of a program to map out both typical and atypical development of spoken communication in early childhood.

The Education Sciences Fellowship will involve research in educational innovations in autism, from early child care through high school. Fellows will learn about classroom-based interventions to increase social emotional engagement and inclusion, gaining experiences with observational research methods, cutting-edge intervention research, and implementation science approaches.

All three fellowship tracks are paid, two-year positions, with full health care coverage.

➢ Clinical Research Assistant Position Open at UC Davis TCAN Lab, 11/8/18

The Translational Cognitive and Affective Neuroscience laboratory (PI: Dr. Cameron Carter), is recruiting for a Junior Specialist (research assistant) position at the UC Davis Medical Center. Positions have a one year appointment with an additional year based on performance, and we strongly consider applicants who are able to consider a two year commitment. Deadline for application review is November 8th, 2018.

Duration of Untreated Psychosis Specialist: https://recruit.ucdavis.edu/apply/JPF02504

This position is to serve as a junior specialist for the Duration of Untreated Psychosis study at the UC Davis Medical Center. This study tests the effectiveness of using electronic screening and telemedicine approaches to rapidly identify and treat individuals who present with psychosis to a variety of community sites (e.g., schools, emergency rooms, behavioral health clinics). The incumbent will be trained in diagnostic interviews, learn consenting procedures, manage IRB protocols, and work with community partners. The current study entered a new piloting phase that started Summer 2018, which will allow the incumbent to meaningfully contribute to Phase 2 study design and revisions. Depending on their contribution and role in the lab, the incumbent may have the opportunity assist in study design and analysis as well as writing and review of relevant manuscripts.
Clinical Psychology Research Coordinator at the San Francisco VA Medical Center, 1/27/19

The Job: Dr. Linda Chao is looking for a research coordinator to coordinate her IRB approved study “Pilot Test of Telephone-Delivered Cognitive Behavioral Therapy for Insomnia for Veterans with Gulf War Illness.”

Location: SFVA Medical Center (4150 Clement St. SF, CA)

Commitment: 1 year

Hours: Full-time with benefits, could be part-time

Contact: Please send an introduction and CV/resume to Kara at Kara.Dolar@va.gov

Deadline to Apply: January 27, 2019
Start Date: February 2019

Recruit
- Serve as the primary contact for the study.
- Responsible for recruiting subjects into the study. Recruitment includes identifying potential subjects through phone screening and enrolling appropriate subjects.
- Work closely with the Principal Investigator to develop recruitment strategy and materials, to recruit research participants, and to ensure adherence to the enrollment goals of the study

Coordinate
- Coordinate the daily study operations.
- Responsible for providing and documenting the Informed Consent.
- Schedule all assessment study visits and study procedures.
- Maintain rapport with study participants.
- Manage the relationship between the study and the study subjects, tracking and insuring continued participation of the subjects over the extended study period.
- Coordinate monthly lab meetings for the study.
- Coordinate with graduate students, PIs, and study therapists to ensure the best outcomes for study participants.

Manage
- Oversee systems for tracking and monitoring study progress to ensure adherence to timelines, standard operating procedures (SOPs), and applicable regulations.
- Maintain essential research study documentation.
- Provide various degrees of data processing and database management, including coding and scoring data, data input, data retrieval, and maintaining computer and paper data files.

Other Duties
- Perform other duties as assigned.
• Attend lab meetings with the Stress & Health Group at the SFVAMC
• Administer and scores neuropsychological and other cognitive assessments, structured psychological and psychiatric interviews, and psychological questionnaires when necessary.
• Obtain literature reviews and conducts library research. Abstracts and analyzes published and unpublished documents, patient records, and other pertinent research databases.
• Performs other general office duties or other research tasks identified as important by the project investigators.
