## **Sigma Xi Scientific Research Honor Society Interest Form**

Hello and welcome!

If you are interested in joining a growing community of student and faculty researchers, networking, mentorship, learning about others' research, and more, please consider joining Sigma Xi, the Scientific Research Honor Society! Sigma Xi was a huge part of our lives (Morgan and Mitch!) in undergraduate and it's an organization we're looking forward to growing here at Berkeley and UCSF for grad and undergrad students. Currently it's only a few students and faculty, but our vision is to make it a big and strong chapter full of life again through mentorship, community outreach, and sharing our science passions! If you're interested in learning more about Sigma Xi or possibly joining, please fill out [this 2 minute form](#) so we can distribute more information! (This is a non-binding interest form and you can opt out of emails at any time!)

If you have any questions, please don't hesitate to reach out! ([morgan.pfaff@berkeley.edu](mailto:morgan.pfaff@berkeley.edu))

## **Courses Opportunity**

Studying for graduate-level exams like the MCAT, OAT, GRE, etc., is often stressful and unstructured. To get more help and earn a higher score on the exams, consider buying a Kaplan Course Certificate. AMSA is offering limited certificates at a price less than half of their market value! This course certificate is currently being auctioned with the lowest bid starting at only \$899, while the original price of the same is \$1800. All the collected proceeds from the sales will go towards helping our organization make your lives easier as a pre-health student!

## **Study for Prospective Experimental Psych Ph.D. Students**

Our names are Zahira Flores and Melanie Montejano, and we are undergraduate students at Heritage University. We are supervised by Dr. Amy Nusbaum. We are conducting a research study to learn about the admissions experience for prospective experimental psychology Ph.D. students, in addition to exploring the factors that contribute to preparation for the admission process. With these findings, we hope to give undergraduate students clarity to know what is

## Miscellaneous Opportunities: Week of November 14th, 2022

expected of them in the graduate school application process and help graduate programs clarify and improve their admissions procedures.

We are recruiting individuals who meet all of these criteria:

1. Attend a four year college/university
2. At least a junior in standing
3. Psychology majors
4. Are planning on applying to an experimental psychology program for a Ph.D.

If you decide to participate in this study, you will be asked to complete an anonymous survey through SurveyMonkey. The survey will take approximately 15 minutes. You may skip any question you feel uncomfortable answering and all responses will be kept anonymous.

During this activity, you will be asked questions about your demographics (race/ethnicity, gender, year in school, household size, income, citizenship status), academic experiences, knowledge of the graduate application process, and involvement in extracurricular activities. If you are interested in participating in this study, please click this link:

## Applications Now Open: UC Berkeley MNSD

Applications are now open!

The 21-month Master of Nutritional Sciences and Dietetics (MNSD) program at UC Berkeley prepares students for a career as a registered dietitian nutritionist.

Our program is held in-person with all coursework taking place on the UC Berkeley campus, and all supervised practice training rotations take place within the San Francisco Bay Area.

Graduates of any bachelor's program are welcome to apply for admission as long as they have completed the prerequisite coursework. [Applications for enrollment in fall 2023 are now open.](#)

## Chicago Booth Research Opportunities

The [University of Chicago Booth School of Business](#) has launched its fall recruiting cycle for pre-docs. Pre-docs (sometimes called Research Professionals or full-time RAs) are two-year

## Miscellaneous Opportunities: Week of November 14th, 2022

full-time appointments working directly for faculty on their research in the quantitative social sciences (QSS), like economics, business, political science, behavioral science, and others. Students who are interested in graduate study in QSS fields but do not yet feel ready for a PhD program, or who are uncertain whether they want to pursue a PhD, find these positions to be especially useful. These are competitively paid positions with full benefits. Students can [sign up](#) to hear about new job opportunities when they are ready to apply (e.g., a freshman could sign up to hear about new postings in three years). The [PREDOC Consortium](#) also provides a wealth of [programming and information sessions](#), as well as [guides to the pre-doc application process](#). PREDOC's offerings are growing rapidly, so students should [sign up to receive updates](#).

Staff at Booth and PREDOC are more than happy to answer any questions you or your students have about pre-doctoral opportunities. Please email us at [ResearchProfessional@lists.chicagobooth.edu](mailto:ResearchProfessional@lists.chicagobooth.edu) or [info@predoc.org](mailto:info@predoc.org) with any questions or to arrange a meeting or information session. Please don't hesitate to reach out as one of our goals at Booth is to reduce as much as possible the informational frictions surrounding these positions, to help you advise your students effectively.
