NIH Postbaccalaureate Research Opportunity, 12/13

NIH invites graduating seniors interested in careers in medicine, psychology, or neuroscience: Section of Clinical and Computational Psychiatry (COMP-Ψ) at the National Institute of Mental Health in Bethesda, Maryland, is recruiting applicants for a two-year, paid Intramural Research Training Award (IRTA) Fellowship with employment beginning in June 2021. Please note that our group was formerly called the Mood Brain and Development Unit (MBDU).

COMP-Ψ conducts research using fMRI and MEG data to study pathophysiology, treatment and prevention of childhood mental illnesses, with an emphasis on major depressive disorder in children and adolescents. IRTA Fellows are involved in all aspects of the clinical research process, including analyzing data and interacting with patients.

Detailed ads are attached to this email. Interested applicants complete the following application: https://forms.gle/b4QbE9KNzy8FsR3g7 and send an updated resume or CV and unofficial transcript to Payton Fors at payton.fors@nih.gov.

Applications are accepted on a rolling basis. No applications will be accepted midnight December 13, 2020.

Applicants should also complete the NIH’s universal IRTA application found at https://www.training.nih.gov/programs/postbac_irta by January 15, 2021 to be considered for this position.

Please feel free to contact payton.fors@nih.gov with any questions or concerns.

Health Career Connection Internships, 12/13

Casa de Esperanza Internship Program, year-round apps

Casa de Esperanza, a non-profit in Houston, Texas, provides residential care to children birth through six who are in crisis due to abuse, neglect, or the effects of HIV. Care is provided in our neighborhood by our Hands of Hope interns. Our interns, most of whom are recent college graduates, join us for a year of service (a twelve-month full-time post-graduation internship). Applicants wishing to complete shorter internships are considered on a case by case basis. We
provide on-site housing (interns live with the children they are caring for) and interns join us from all over the United States to be part of our internship program.

Information about our internship may be found here: [https://www.casahope.org/hands-of-hope-internship](https://www.casahope.org/hands-of-hope-internship)

The application for our internship may be found here: [https://www.casahope.org/application-part-one](https://www.casahope.org/application-part-one)

Interns in our program gain valuable experience that is relevant to a number of fields and future career goals while simultaneously making a meaningful difference in the lives of a vulnerable. We will have groups joining us in January, June, and August of 2021.
Pandemic professors seeking empathetic tutors

Want to help your community recover from COVID-19?

Are you interested in Psychology, Empathy, or Working with Kids?

VOLUNTEER WITH PANDEMIC PROFESSORS

Pandemic Professors is a 503(c)(3) non-profit organization that facilitates free tutoring to children in low-income communities.

Visit our website to sign up as a tutor:
https://pandemicprofessor.org

As a tutor, you will hold virtual tutoring sessions with students to provide the academic and emotional support students need to stay on track.
**VOLUNTEERING BENEFITS**

- Help our nation's youth stay on course with their education.
- Get officially recognized on our website (unless you prefer otherwise)
  - Check out our current tutors on our website.
- Showcase your leadership potential for future employers and graduate schools.
- A letter of recommendation for graduate school or employment.
- Learn by teaching! Teaching others is a great way to improve your skills.
- Engage in internal leadership opportunities, both current and upcoming.
- Flexible schedule with variable hours.

Become a Pandemic Professor!
For more information, visit our website:
https://pandemicprofessors.org
MOTIVATE Mentoring Program

Hello,

I hope this email finds you safe and well.

My name is Destiny Hernandez. I recently graduated from UCLA with a Bachelor's Degree in Neuroscience and I am working on the start of a virtual mentoring program, MOTIVATE, in the Montebello Unified School District. I am currently requesting those interested in the potential mentor role to fill out this form to provide a number of prospective mentors to the school district as we work together. If you could please send this out to your students, faculty, and alumni, I would greatly appreciate it. Here is a brief description of the program:

MOTIVATE is a mentoring program that aids to provide the students of the Montebello Unified School district resources that would aid their path to their career goal. The program aims to close the education gap by pairing students with mentors who have reached/are on their way to a career goal similar to the students’ goals to share their experiences, their knowledge, and their guidance.

I hope you consider giving back to the community with a little bit of your time. Once again, here is the interest form. I look forward to hearing from you all. If you have any questions, please reach out to dpenandoz1224@gmail.com

Thank you,
Destiny Hernandez

Volunteer RA Position: Emotion, Health, and Psychophysiology Lab at UCSF

The Emotion, Health, and Psychophysiology Lab at UCSF is accepting applications for volunteer research assistant positions.

Our research focuses on embodiment -- how the mind influences the body, and the reciprocal, how bodily changes influence thoughts, emotions, and intentions. Research assistants working in the lab are exposed to a variety of studies at the intersection of social psychology, emotion, and psychophysiology. RAs learn how to conduct studies, collect physiological data, and edit and score autonomic data. Our RAs work at least 10-12 hours a week for two school semesters.

This volunteer opportunity is ideal for undergraduate students or recent graduates looking to gain research experience for graduate school or medical school. Please note that while we welcome international applicants, we cannot help with the visa process.

If you are interested in applying, please fill out this application form (https://forms.gle/b2qs7eP7kjZwyPfS9).
Any questions can be directed to the lab manager, Julia Moore, at julia.moore2@ucsf.edu.

Lab website: https://www.wendyberrymendes.com/

Volunteer Bootcamp Internship Program: Winning Battleground Campaigns

Flip the West is a Political Action Committee working to Flip the US Senate by electing Democrats in key Senate races in the West Coast and Midwest. This 2-4 week bootcamp program provides participants to make a quick and immediate impact on a national level while also gaining key experience in political advocacy, outreach, and organizing. This program provides comprehensive training and structure for successful field campaigns while making immediate and meaningful impact in the 2020 election.

As a part of the Flip the West Volunteer Bootcamp Internship Program you will have the opportunity to gain the following skills:

- Virtual Organizing
- Advocacy & Direct Engagement
- Virtual Network Building
- Political Advocacy

Successful participants may be eligible to receiving the following:

- Letter of Recommendation
- Professional Reference
- Professional Development

INSTRUCTIONS

Please fill out the following Google Form:
https://forms.gle/WSdHZ7iE2QNVfT2WA

You will be asked a few basic questions, to write a short personal statement and to attach your resume. If you are interested, please fill out as soon as possible. All applications will be reviewed and responded to within 48 hours.

If you have any questions, please email michael@flipthewest.com
Seeking Undergraduate Volunteers at UCSF Psychiatry Lab

Early Psychosis Research Lab | Looking for Volunteers - Clinical Research Assistant

The Prodrome, Assessment, Research and Treatment (PART) Program is based out of the University of California, San Francisco Department of Psychiatry. The PART Program conducts research with adolescents and young adults who are at high risk for developing schizophrenia, as well as young people recently diagnosed with schizophrenia. We are interested in 1) identifying young people at risk for a psychotic disorder; 2) studying risk factors for psychosis onset; and 3) testing prevention and early intervention treatments. Our program integrates psychosocial and neurobiological approaches to understanding major mental illness.

Principal Investigator: Rachel Loewy, PhD

Duties:

- Administrative/Clerical Duties such as data entry, data cleaning, research records review, etc.
- Participation in weekly clinical research meetings
- Great experience to put on your resume for graduate or medical school

Skills:

- Prefer Psychology Major
- Organizational skills are key
- Detail oriented
- Familiarity with Microsoft Office, Excel, and SPSS
- Previous research experience a plus but not necessary

We are looking for individuals who can commit about 8-16 hours per week for one year to our research lab. This would be an excellent opportunity for undergraduate students.

If you are interested in working with our dynamic, growing research program, please email your resume and cover letter to the lab manager, Heather Garman, at heather.garman@ucsf.edu
Internship and Volunteering Opportunities: Week of November 30, 2020

Suncrest Volunteer Opportunities

November 19, 2020

Dear UC Berkeley Psychology Student Service Office,

Like many organizations on the front line of the COVID-19 pandemic, we recognize that so much has changed in such a short period of time, the world around us, our neighborhoods, gathering spaces, and the freedoms we call home, work, and school. Here at Suncrest, we also understand that during this unprecedented time, many are looking to health care organizations to find ways in which one can help and give back to the community. We see and know that the COVID-19 pandemic has caused everyone to reinvent the way we maneuver our day to day lives.

Becoming a volunteer with us here at Suncrest is just one of the many ways students cannot only help their community but also lock in a site for their internship, make professional and personal partnerships, and support our program. Utilizing Suncrest Hospice as an intern or field site during a time like now can be a huge benefit and addition to your students’ overall college experience. We are sensitive to the hesitations that many may have surrounding the pandemic. It is because of this that we can safely affirm that we follow the CDC guidelines; in all Suncrest Hospice offices-students can trust that our workspaces are safe and that our employees are taking the COVID-19 pandemic seriously.

We have various ways in which students can volunteer due to the pandemic, including supporting our bereavement program, administrative tasks in our offices, or even making phone calls to families and patients. Our volunteers are the hands and hearts that keep us moving. The mission of Suncrest Hospice is to provide compassionate, quality healthcare in your place of residence, promoting comfort, independence, and dignity. We are an organization committed to providing the highest quality of hospice care to all persons who need it.

We have sent you this letter along with a program brochure, informational flyer, and recruitment flyers in the hopes that you will be able to spread the word to your students about becoming a hospice volunteer. Please include the following message in your weekly electronic announcements and all other communication to your student body. Please call or email Rae Ingram, the Volunteer Coordinator for further information.

We ourselves feel that what we are doing is just a drop in the ocean. But the ocean would be less because of that missing drop. --Mother Teresa

Stay safe and stay healthy,

Rae Ingram
Volunteer Coordinator

Phone: (408) 900-8838 Fax: (408) 962-0235
BECOME A VOLUNTEER!

Are you looking to gain hospice and medical experience before graduating from college? Does your program require you to log a certain amount of internship hours in your area of study? Wouldn’t it be ideal to complete these hours while adhering to all CDC distancing and sanitation guidelines? If you answered YES to these questions then our volunteer program at Suncrest Hospice could be the PERFECT place for you.

Our volunteer program can help with personal connection, mentorship, professional partnerships, flexibility, and afford you the opportunity to log your required hours for your internship or field study. This internship/volunteer work is an excellent opportunity to be part of a team that is making a positive impact on the lives of patients and families while gaining valuable experience.

The philosophy of hospice care is to provide comfort and the highest quality of life that one can achieve at end of life. Through an interdisciplinary team: nurse, home health aide, social worker, chaplain and volunteers, we help the patient and family walk through their journey. Volunteers are the heart of hospice care at Suncrest!

**AS A VOLUNTEER, YOU CAN CHOOSE BETWEEN MANY OPPORTUNITIES:**
- Bereavement support
- Assist office staff with administrative tasks
- Partake in special projects for our patients
- And other endless vital ways to support

**HOW DO I BECOME A VOLUNTEER?**
If you are at least 18 years old and available to provide at least a few hours a month of volunteer time, please contact Suncrest Hospice for an application.

If you want to learn more about participating in this wonderful opportunity, please call us at **408-900-8838** and ask for our Volunteer Coordinator.
