**AAPI General Wellness Guide Resources**

Here is the [AAPI Wellness Guide 2021](#).

It is one of many products from the AAPISC, led by Lisa Hirai Tsuchitani and Marcia Gee Riley. AAPISC is an inaugural advisory body to the Chancellor and her Cabinet under the executive sponsorship of VCEI Oscar Dubón that was created in 2019 to increase awareness about and address campus climate issues for AAPI undergraduate and graduate students, staff, and faculty: [https://diversity.berkeley.edu/aapisc](https://diversity.berkeley.edu/aapisc)
2022 CSULB Psych Grad Program

Master of Arts in Psychological Research
CSULB Psychology Department

What does CSULB MAPR program offer?

The Master’s of Arts in Psychological Research (MAPR) program is designed to provide foundational graduate education in the content areas and research of general psychology to prepare for a master's-level career or entrance into a doctoral program.

All graduate seminar courses have an enrollment of 15 or fewer students which facilitates close communication and intellectual stimulation among participants. The program is designed to be completed in two years.

Core seminars offered:
- Cognition
- Learning
- Clinical
- Personality
- Social
- Physiological/Sensory
- Health
- Developmental

Why CSULB MAPR program?

Doctoral programs and employers frequently prefer students with the advanced training and experience provided by our MAPR program.

Outstanding Preparation for Doctoral Programs

Faculty mentors and the Graduate Advisor actively guide and assist students with the Ph.D. program application process. Many of our students enter top-notch doctoral programs throughout the country.

Coursework includes:
- Advanced Statistics
- Cutting-Edge Research Methods

Our graduates who enter the workforce immediately hold positions in:
- Community colleges
- Laboratories using physiological and behavioral research methodologies
- Social service agencies
- Business
- Government

Interested in applying?

For more information visit the CSULB MAPR website or Email the CSULB Psychology Graduate Program at psygrad@csulb.edu
**Master of Science in Human Factors**  
**Psychology Department**  
**California State University Long Beach**

**What is Human Factors?**

Human factors, also known as ergonomics or engineering psychology, is a scientific discipline which examines human behavior and capabilities in order to find the best ways to design products, equipment, and systems for safe, effective, and satisfying use by people.

Professionals in human factors apply their skills to a variety of areas, including:

- Aerospace and automotive systems
- Computer software and hardware
- Medical systems
- Educational technology
- Consumer products
- Virtual reality

**Human factors professionals work in:**

- Academic institutions
- Industry
- Military and governmental research centers
- Independent consultancy

**Our students are successful obtaining Human Factors positions upon graduation!**

**Some places our alumni work are:**

**Industry:**
- Google
- Ring
- Honda
- Pacific Sciences & Engineering
- Insulet
- Chevron

**Government:**
- NASA Ames Research Center
- Edwards Air Force Base
- NASA Jet Propulsion Labs
- Social Security Administration

**Human Factors at CSULB**

The MS in Psychology, Option in Human Factors, is designed to prepare students to apply research-focused human factors skills to the design of jobs, information systems, consumer products, workplaces, and equipment in order to improve user performance, safety, and comfort. Our Human Factors program is accredited by the Human Factors and Ergonomics Society.

**Research Centers and Labs**

- Center for the Human Factors in Advanced Aeronautics Technologies (CHAAT)
- Center for Usability in Design and Accessibility (CUDAI)
- Miles Action Perception (MAP) Lab
- Stress & Technology Applied Research (STAR) Laboratory

Interested in applying?

Master of Science in Industrial-Organizational
CSULB Psychology Department

What does the CSULB MSIO program offer?
The Master's of Science in Industrial-Organizational (MSIO) Psychology program at California State University Long Beach is a rigorous, 36-unit program designed to prepare students to enhance organizational performance and human well-being in professional settings.

Students learn and develop skills through seminars, practicum experience, engagement in research, and development of a professional portfolio or a research thesis.

Coursework includes:
- Personnel Psychology
- Organizational Psychology
- Organizational Development
- Test Construction
- Research Methods
- Practicum in I-O Psychology
- Advanced Statistics

Job titles of CSULB MSIO Alumni include:
- Personnel Analyst
- Organizational Effectiveness Specialist
- Training & Development Manager
- Compensation Analyst, Personnel Director
- Testing and Assessment Specialist
- ...and many more!

Options for electives include:
- Group Dynamics
- Compensation Analysis
- Qualitative Research Method
- Test Construction
- Research Methods
- Social Network Analysis

Interested in applying?
For more information visit the CSULB MSIO website
or Email the CSULB Psychology Graduate Program at psygrad@csulb.edu

Sigma Xi Scientific Research Honor Society Interest Form

Hello and welcome!

If you are interested in joining a growing community of student and faculty researchers, networking, mentorship, learning about others' research, and more, please consider joining Sigma Xi, the Scientific Research Honor Society! Sigma Xi was a huge part of our lives (Morgan and Mitch!) in undergraduate and it's an organization we're looking forward to growing here at Berkeley and UCSF for grad and undergrad students. Currently it's only a few students and faculty, but our vision is to make it a big and strong chapter full of life again through mentorship, community outreach, and sharing our science passions! If you're interested in learning more about Sigma Xi or possibly joining, please fill out this 2 minute form so we can distribute more information! (This is a non-binding interest form and you can opt out of emails at any time!)

If you have any questions, please don’t hesitate to reach out! (morgan.pfaff@berkeley.edu)

UC Berkeley Statistical Consulting Service

The Berkeley Statistical Consulting Service is now open for the Fall Semesters. This free consulting service is operated by the Department of Statistics every fall and spring semesters. Advanced graduate students, under faculty supervision, are available during specified hours to answer your questions about statistics and data analysis. We welcome members of the campus community to take advantage of this service at any stage of their research.

To find out more about our service, please visit our website at: http://statistics.berkeley.edu/consulting

To schedule a meeting or ask questions about the service, please email: consulting@stat.berkeley.edu

UCR Brain Game Center-Participants needed!

Hello!

The UCR Brain Game Center for Mental Fitness and Well-being is recruiting participants for a large online study that is funded by the National Institute of Health to better understand how working memory training may lead to cognitive benefits. The study and its recruitment method has been approved by the Human Subject Review Board at University of California Riverside. I
am forwarding this message as I thought that you may be interested in being part of the study. Participation in the study is strictly voluntary and there will be no penalty to you for not participating.

For more about the study see this new article in Scientific American: https://www.scientificamerican.com/article/does-brain-training-actually-work/

To enroll, simply follow the link here: https://bgc.ucr.edu/memorytrainingregistration/

You must be 18 years or older to participate and if chosen, you'll be asked to fill out some surveys, conduct a few cognitive tests and complete the working memory training. The study is only 11 business days long and is done all within the comfort of your home on your personal phone or tablet.

Not only will you receive access to our brain training software for free, but there are also give-aways that provide opportunities to win rewards such as gift cards valued $5-100 or the grand prize of a brand new iPad!

If you have further questions, please contact us at bgcsupport@ucr.edu.

Thank you!

Univ. of Kansas, Clinical Child Psychology M.A./Ph.D. Program

The University of Kansas
College of Liberal Arts & Sciences
Clinical Child Psychology Program
Dole Human Development Center, Room 2015 | 1000 Sunnyside Avenue
Lawrence, KS 66045-7555 | (785) 864-4226 | www.ccpp.ku.edu/

The CCPP is accredited by the American Psychological Association as a training program leading to the Doctoral degree (Ph.D.) in the area of Clinical Psychology with a Child Emphasis. *Our mission is to develop leaders in the research, dissemination, and practice of psychological clinical science for children, youths, and their families.*

The program faculty is comprised of 6 full-time faculty members, one adjunct clinical supervisor, contributing faculty in several departments at KU, and dozens of affiliates at our community partners in Lawrence, Kansas City, and the surrounding area. We currently enroll 22
students both on campus and internship - allowing highly individualized attention for research and clinical supervision.

The quality of the CCPP is reflected in the activities of the students, graduates, and faculty. Program students frequently publish empirical articles, chapters, and reviews during their tenure in the program. An extensive list of student-authored publications and conference presentations demonstrates the scientific prowess of the students and the mentoring by program faculty. Please visit our research pages for an introduction to our faculty research labs.

The CCPP has been able to fund 100% of our graduate students every year for the past 10+ years. Student funding comes from Graduate Teaching Assistantships, Graduate Research Assistantships, Graduate Fellowships, as well as research and training grants. These positions typically offer full tuition coverage plus a competitive stipend. Our student funding model and priorities are coordinated with our efforts to recruit and retain a diverse and highly accomplished student body. This includes awards supporting student projects that advance equity or promote social justice (e.g., the Sampilo-Quispe Award for Equity and Social Justice in Clinical Child Psychology), a speaker series to facilitate continuing education (Roberts Equality and Diversity Education Fund), an active CCPP Diversity and Equity Committee, and ongoing efforts to support activities that promote diversity within the field (e.g., conference sponsorships, service to professional organizations and working groups). Our Student Resources page provides more detail about program awards and opportunities.

Consistent with the mission of the CCPP, program graduates fill leadership roles in a range of service settings, including universities, medical centers, government agencies, mental and behavioral health systems, and community mental health centers. Our graduates’ careers are facilitated by extremely high match rates for APA-Accredited pre-doctoral internships at many of the premier pediatric and clinical child internship and residency programs.

CCPP faculty are very active, receiving national and university recognition for their contributions. They all have received teaching and mentorship awards and have received federal and foundation grants to support their research and students. The faculty serve as editors and associate editors and on the editorial boards of major scientific and professional journals, publish books in the specialty, and have significant empirical publishing records—most often co-authoring with students. All of our faculty members are active in national organizations in psychology generally and in the specialty of clinical child and pediatric psychology.

As suggested by the above activities, the CCPP emphasizes the integration of science and practice in all of its endeavors. If you are looking for a clinical doctoral program that will allow you to conduct research that matters, and are specifically interested in working with children, adolescents, and families, then I hope you will give the CCPP your most serious consideration.
Miscellaneous Opportunities: Week of December 6th, 2021

We are proud of what we have been able to achieve, and hope that you will have interest in being part of the program.

Please visit us on the web at www.ccpp.ku.edu or on Facebook at https://www.facebook.com/KUClinicalChild, or follow us on Twitter (@KUCCPP; https://twitter.com/KUCCPP) for more information about the program. Admissions information can be found at https://ccpp.ku.edu/admissions.

I look forward to seeing your application this fall. Please let me know if you have specific questions that I can help answer.

Sincerely,
Ric G. Steele, Ph.D., ABPP
Professor and Director

DLab Consulting Drop in Hours now Open

D-Lab consultants are available to assist graduate students, undergraduates, visiting scholars, Berkeley faculty, and staff to move forward with world-class research. Check out the website for upcoming events and workshops.

Data Peer Consulting Program

Data Peer Consulting Services

Data Peer Consulting is available this spring (started September 7th!) to help you with all of your Jupyter notebook, SQL, data visualization, and other data science needs for free (we’re funded by the Student Tech Fund). Data Peers are currently hosted at the D-Lab Frontdesk! Visit our website to learn more about peer consultants and to find one that can help you! Our services include:

- **Virtual Office Hours**
  - Open M-F, 12pm - 4pm

- **Appointment Consultations**
  - Email us at ds-peer-consulting@berkeley.edu to set up an appointment

- **Workshops, Mini Projects, Collaborations**
  - Stay tuned on our Facebook Page to learn about upcoming workshops
  - Email us if you'd like to connect!
Full Tuition Graduate Opportunity for Psychology Majors - Open Now through 01.07.22

I am excited to share that Santa Clara University's National Science Foundation Noyce grant is currently seeking a variety of qualified Science, Technology, Engineering, and Math (STEM) majors who are dedicated to using education as a tool for social justice and to become middle or high school mathematics teachers in racially, ethnically, linguistically, and economically diverse schools. This Fellowship is open to graduates in STEM majors, and Psychology graduates qualify to apply.

SCU NSF Noyce Fellows will receive:

- FULL TUITION SCHOLARSHIP and $20,000 living stipend to earn a California Single Subject Mathematics Teaching Credential and Master’s Degree in one year.
- $10,000 stipend each year for your first four years teaching in a high-need school district.
- Extensive professional development during student teaching and for the first four years teaching in a high-need school district.
- Many opportunities to become part of a vibrant mathematics education community.

Applications are due January 7, 2022.

You can find more information at SCU NSF NOYCE website, which includes the list of qualified STEM majors that can apply for this Fellowship.

UCSB Teacher Education Program Community

Commit one year to become an exceptional teacher leader at the UCSB Teacher Education Program

Credentials Offered:
Education Specialist Credential
Mild to Moderate Support Needs; Extensive Support Needs

Multiple Subject Teaching Credential

Single Subject Teaching Credential
English; History/Social Science; Math;

Earn your credential and Master’s Degree in 12 months.
Learn by being fully immersed in classroom teaching.
Build community within one closely connected cohort.

(805) 893-2084
Courses Opportunity

Studying for graduate-level exams like the MCAT, OAT, GRE, etc., is often stressful and unstructured. To get more help and earn a higher score on the exams, consider buying a Kaplan Course Certificate. AMSA is offering limited certificates at a price less than half of their market value! This course certificate is currently being auctioned with the lowest bid starting at only $899, while the original price of the same is $1800. All the collected proceeds from the sales will go towards helping our organization make your lives easier as a pre-health student!

If this sounds like something you would be interested in, please visit the link down below:
