Here is the [AAPI Wellness Guide 2021](https://diversity.berkeley.edu/aapisc).

It is one of many products from the AAPISC, led by Lisa Hirai Tsuchitani and Marcia Gee Riley. AAPISC is an inaugural advisory body to the Chancellor and her Cabinet under the executive sponsorship of VCEI Oscar Dubón that was created in 2019 to increase awareness about and address campus climate issues for AAPI undergraduate and graduate students, staff, and faculty: [https://diversity.berkeley.edu/aapisc](https://diversity.berkeley.edu/aapisc)
2022 CSULB Psych Grad Program

Master of Arts in Psychological Research
CSULB Psychology Department

What does CSULB MAPR program offer?
The Master's of Arts in Psychological Research (MAPR) program is designed to provide foundational graduate education in the content areas and research of general psychology to prepare for a master's-level career or entrance into a doctoral program.

All graduate seminar courses have an enrollment of 15 or fewer students which facilitates close communication and intellectual stimulation among participants. The program is designed to be completed in two years.

Core coursework includes:

- Advanced Statistics
- Cutting-Edge Research Methods

Core seminars offered:

- Cognition
- Learning
- Clinical
- Personality
- Social
- Physiological/Sensory
- Health
- Developmental

Why CSULB MAPR program?
Doctoral programs and employers frequently prefer students with the advanced training and experience provided by our MAPR program.

Outstanding Preparation for Doctoral Programs
Faculty mentors and the Graduate Advisor actively guide and assist students with the Ph.D. program application process. Many of our students enter top-notch doctoral programs throughout the country.

Our graduates who enter the workforce immediately hold positions in:

- Community colleges
- Laboratories using physiological and behavioral research methodologies
- Social service agencies
- Business
- Government

Interested in applying?
For more information visit the CSULB MAPR website or email the CSULB Psychology Graduate Program at psygrad@csulb.edu
Miscellaneous Opportunities: Week of December 13th, 2021

Master of Science in Human Factors
Psychology Department
California State University Long Beach

What is Human Factors?
Human factors, also known as ergonomics or engineering psychology, is a scientific discipline which examines human behavior and capabilities in order to find the best ways to design products, equipment, and systems for safe, effective, and satisfying use by people.

Professionals in human factors apply their skills to a variety of areas, including:
- Aerospace and automotive systems
- Computer software and hardware
- Medical systems
- Educational technology
- Consumer products
- Virtual reality

Human factors professionals work in:
- Academic institutions
- Industry
- Military and governmental research centers
- Independent consultancy

Our students are successful obtaining Human Factors positions upon graduation!

Some places our alumni work are:

Industry:
- Google
- Ring
- Honda
- Pacific Sciences & Engineering
- Insulet
- Chevron

Government:
- NASA Ames Research Center
- Edwards Air Force Base
- NASA Jet Propulsion Labs
- Social Security Administration

Human Factors at CSULB

The MS in Psychology, Option in Human Factors, is designed to prepare students to apply research-focused human factors skills to the design of jobs, information systems, consumer products, workplaces, and equipment in order to improve user performance, safety, and comfort. Our Human Factors program is accredited by the Human Factors and Ergonomics Society.

Research Centers and Labs

Center for the Human Factors in Advanced Aeronautics Technologies (CHAAT)

Center for Usability in Design and Accessibility (CUDAs)

Miles Action Perception (MAP) Lab

Stress & Technology Applied Research (STAR) Laboratory

Interested in applying?
For more information visit the [CSULB MSHF website](https://example.com) or Email the CSULB Psychology Graduate Program at psygrad@csulb.edu
Master of Science in Industrial-Organizational

CSULB Psychology Department

What does the CSULB MSIO program offer?

The Master’s of Science in Industrial-Organizational (MSIO) Psychology program at California State University Long Beach is a rigorous, 36-unit program designed to prepare students to enhance organizational performance and human well-being in professional settings.

Students learn and develop skills through seminars, practicum experience, engagement in research, and development of a professional portfolio or a research thesis.

Coursework includes:

- Personnel Psychology
- Organizational Psychology
- Organizational Development
- Test Construction
- Research Methods
- Practicum in I-O Psychology
- Advanced Statistics

Options for electives include:

- Group Dynamics
- Compensation Analysis
- Qualitative Research Method
- Test Construction
- Research Methods
- Social Network Analysis

The CSULB MSIO program is a two-year, full-time graduate program that embraces a scientist-practitioner model.

Our program consists of a small, cohort-based learning environment characterized by team and experiential learning.

Job titles of CSULB MSIO Alumni include:

- Personnel Analyst
- Organizational Effectiveness Specialist
- Training & Development Manager
- Compensation Analyst, Personnel Director
- Testing and Assessment Specialist
- …and many more!

Interested in applying?

Sigma Xi Scientific Research Honor Society Interest Form

Hello and welcome!

If you are interested in joining a growing community of student and faculty researchers, networking, mentorship, learning about others' research, and more, please consider joining Sigma Xi, the Scientific Research Honor Society! Sigma Xi was a huge part of our lives (Morgan and Mitch!) in undergraduate and it's an organization we're looking forward to growing here at Berkeley and UCSF for grad and undergrad students. Currently it's only a few students and faculty, but our vision is to make it a big and strong chapter full of life again through mentorship, community outreach, and sharing our science passions! If you're interested in learning more about Sigma Xi or possibly joining, please fill out this 2 minute form so we can distribute more information! (This is a non-binding interest form and you can opt out of emails at any time!)

If you have any questions, please don’t hesitate to reach out! (morgan.pfaff@berkeley.edu)

UC Berkeley Statistical Consulting Service

The Berkeley Statistical Consulting Service is now open for the Fall Semesters. This free consulting service is operated by the Department of Statistics every fall and spring semesters. Advanced graduate students, under faculty supervision, are available during specified hours to answer your questions about statistics and data analysis. We welcome members of the campus community to take advantage of this service at any stage of their research.

To find out more about our service, please visit our website at: http://statistics.berkeley.edu/consulting

To schedule a meeting or ask questions about the service, please email: consulting@stat.berkeley.edu

UCR Brain Game Center-Participants needed!

Hello!

The UCR Brain Game Center for Mental Fitness and Well-being is recruiting participants for a large online study that is funded by the National Institute of Health to better understand how working memory training may lead to cognitive benefits. The study and its recruitment method has been approved by the Human Subject Review Board at University of California Riverside.
am forwarding this message as I thought that you may be interested in being part of the study. Participation in the study is strictly voluntary and there will be no penalty to you for not participating.

For more about the study see this new article in Scientific American: https://www.scientificamerican.com/article/does-brain-training-actually-work/

To enroll, simply follow the link here: https://bgc.ucr.edu/memorytrainingregistration/

You must be 18 years or older to participate and if chosen, you'll be asked to fill out some surveys, conduct a few cognitive tests and complete the working memory training. The study is only 11 business days long and is done all within the comfort of your home on your personal phone or tablet.

Not only will you receive access to our brain training software for free, but there are also give-aways that provide opportunities to win rewards such as gift cards valued $5-100 or the grand prize of a brand new iPad!

If you have further questions, please contact us at bgcsupport@ucr.edu.

Thank you!

Univ. of Kansas, Clinical Child Psychology M.A./Ph.D. Program

The University of Kansas
College of Liberal Arts & Sciences
Clinical Child Psychology Program
Dole Human Development Center, Room 2015 | 1000 Sunnyside Avenue
Lawrence, KS 66045-7555 | (785) 864-4226 | www.ccpp.ku.edu/

The CCPP is accredited by the American Psychological Association as a training program leading to the Doctoral degree (Ph.D.) in the area of Clinical Psychology with a Child Emphasis. *Our mission is to develop leaders in the research, dissemination, and practice of psychological clinical science for children, youths, and their families.*

The program faculty is comprised of 6 full-time faculty members, one adjunct clinical supervisor, contributing faculty in several departments at KU, and dozens of affiliates at our community partners in Lawrence, Kansas City, and the surrounding area. We currently enroll 22
students both on campus and internship - allowing highly individualized attention for research and clinical supervision.

The quality of the CCPP is reflected in the activities of the students, graduates, and faculty. Program students frequently publish empirical articles, chapters, and reviews during their tenure in the program. An extensive list of student-authored publications and conference presentations demonstrates the scientific prowess of the students and the mentoring by program faculty. Please visit our research pages for an introduction to our faculty research labs.

The CCPP has been able to fund 100% of our graduate students every year for the past 10+ years. Student funding comes from Graduate Teaching Assistantships, Graduate Research Assistantships, Graduate Fellowships, as well as research and training grants. These positions typically offer full tuition coverage plus a competitive stipend. Our student funding model and priorities are coordinated with our efforts to recruit and retain a diverse and highly accomplished student body. This includes awards supporting student projects that advance equity or promote social justice (e.g., the Sampilo-Quispe Award for Equity and Social Justice in Clinical Child Psychology), a speaker series to facilitate continuing education (Roberts Equality and Diversity Education Fund), an active CCPP Diversity and Equity Committee, and ongoing efforts to support activities that promote diversity within the field (e.g., conference sponsorships, service to professional organizations and working groups). Our Student Resources page provides more detail about program awards and opportunities.

Consistent with the mission of the CCPP, program graduates fill leadership roles in a range of service settings, including universities, medical centers, government agencies, mental and behavioral health systems, and community mental health centers. Our graduates’ careers are facilitated by extremely high match rates for APA-Accredited pre-doctoral internships at many of the premier pediatric and clinical child internship and residency programs.

CCPP faculty are very active, receiving national and university recognition for their contributions. They all have received teaching and mentorship awards and have received federal and foundation grants to support their research and students. The faculty serve as editors and associate editors and on the editorial boards of major scientific and professional journals, publish books in the specialty, and have significant empirical publishing records—most often co-authoring with students. All of our faculty members are active in national organizations in psychology generally and in the specialty of clinical child and pediatric psychology.

As suggested by the above activities, the CCPP emphasizes the integration of science and practice in all of its endeavors. If you are looking for a clinical doctoral program that will allow you to conduct research that matters, and are specifically interested in working with children, adolescents, and families, then I hope you will give the CCPP your most serious consideration.
Miscellaneous Opportunities: Week of December 13th, 2021

We are proud of what we have been able to achieve, and hope that you will have interest in being part of the program.

Please visit us on the web at www.ccpp.ku.edu or on Facebook at https://www.facebook.com/KUClinicalChild, or follow us on Twitter (@KUCCPP; https://twitter.com/KUCCPP) for more information about the program. Admissions information can be found at https://ccpp.ku.edu/admissions.

I look forward to seeing your application this fall. Please let me know if you have specific questions that I can help answer.

Sincerely,
Ric G. Steele, Ph.D., ABPP
Professor and Director

**DLab Consulting Drop in Hours now Open**

D-Lab consultants are available to assist graduate students, undergraduates, visiting scholars, Berkeley faculty, and staff to move forward with world-class research. Check out the website for upcoming events and workshops.

**Data Peer Consulting Program**

**Data Peer Consulting Services**

Data Peer Consulting is available this spring (started September 7th!) to help you with all of your Jupyter notebook, SQL, data visualization, and other data science needs for free (we’re funded by the Student Tech Fund). Data Peers are currently hosted at the D-Lab Frontdesk! Visit our website to learn more about peer consultants and to find one that can help you! Our services include:

- **Virtual Office Hours**
  - Open M-F, 12pm - 4pm
- **Appointment Consultations**
  - Email us at ds-peer-consulting@berkeley.edu to set up an appointment
- **Workshops, Mini Projects, Collaborations**
  - Stay tuned on our Facebook Page to learn about upcoming workshops
  - Email us if you'd like to connect!
Full Tuition Graduate Opportunity for Psychology Majors - Open Now through 01.07.22

I am excited to share that Santa Clara University's National Science Foundation Noyce grant is currently seeking a variety of qualified Science, Technology, Engineering, and Math (STEM) majors who are dedicated to using education as a tool for social justice and to become middle or high school mathematics teachers in racially, ethnically, linguistically, and economically diverse schools. This Fellowship is open to graduates in STEM majors, and Psychology graduates qualify to apply.

SCU NSF Noyce Fellows will receive:

- FULL TUITION SCHOLARSHIP and $20,000 living stipend to earn a California Single Subject Mathematics Teaching Credential and Master’s Degree in one year.
- $10,000 stipend each year for your first four years teaching in a high-need school district.
- Extensive professional development during student teaching and for the first four years teaching in a high-need school district.
- Many opportunities to become part of a vibrant mathematics education community.

Applications are due January 7, 2022.

You can find more information at SCU NSF NOYCE website, which includes the list of qualified STEM majors that can apply for this Fellowship.

UCSB Teacher Education Program Community

Commit one year to become an exceptional teacher leader at the UCSB Teacher Education Program

Credentials Offered:

Education Specialist Credential
Mild to Moderate Support Needs; Extensive Support Needs

Multiple Subject Teaching Credential

Single Subject Teaching Credential
English; History/Social Science; Math; Science; World Languages

Earn your credential and Master’s Degree in 12 months.

Learn by being fully immersed in classroom teaching.

Build community within one closely connected cohort.

Courses Opportunity

Studying for graduate-level exams like the MCAT, OAT, GRE, etc., is often stressful and unstructured. To get more help and earn a higher score on the exams, consider buying a Kaplan Course Certificate. AMSA is offering limited certificates at a price less than half of their market value! This course certificate is currently being auctioned with the lowest bid starting at only $899, while the original price of the same is $1800. All the collected proceeds from the sales will go towards helping our organization make your lives easier as a pre-health student!
If this sounds like something you would be interested in, please visit the link down below:

OURS Peer Advising
Want to talk with a peer advisor about getting started in undergraduate research?

OURS Peer Advisors are back to support you in the Fall 2021 semester. They represent a variety of majors and interests, and have participated in many of the research programs supported by the Office of Undergraduate Research & Scholarships. We encourage you to check the website for peer advisor hours and profiles.

OURS Workshops
Innovation Catalysts student grant program application and info session
December 6 | 6-7 p.m. | Online via Zoom

Getting Started in Undergraduate Research and Finding a Mentor Workshop: Zoom
December 16 | 5-6 p.m. | Register

Haas Scholars Program Info Session: $13,800 to carry out a final project in *ANY* major
December 17 | 3-4 p.m. | Virtual -- Please pre-register.

The Stronach Baccalaureate Prize
The Stronach Baccalaureate Prize supports recent Cal graduates to undertake a public service, creative, or community-based research project in the year following graduation. Recipients are awarded up to $25,000 for projects that serve the public good and heighten awareness of issues of social consciousness.

Application deadline: Tuesday, March 1, 2022.

Dates and times of upcoming information sessions are posted on the website. Interested students are highly encouraged to make an appointment with the program manager to discuss their project ideas: https://www.wejoinin.com/sheets/fbytu
The Office of Undergraduate Research & Scholarships announces the 2022

Judith Lee Stronach Baccalaureate Prize

What Is It?
The Stronach Baccalaureate Prize supports intellectual and creative pursuits that heighten awareness of social issues and contribute to the public good. The award gives students the opportunity to extend and reflect upon their undergraduate work at Berkeley by undertaking a social engagement project after graduation.

The 2022 Prize is open to Berkeley graduates (degree awarded Fall 2021, Spring 2022, or Summer 2022) in any area of study. Proposals for service, creative, or community-engaged research projects are welcome.

What Will I Earn?
Stronach Baccalaureate Prize recipients may be awarded as much as $25,000, including project costs, materials, and living expenses, for a period of up to one year. More than one recipient may be selected.

How Do I Apply?
Applicants must submit a project proposal and budget along with additional supporting materials. Application instructions are available at http://stronach.berkeley.edu

Submission Deadline: March 1, 2022

Learn more & apply
Information sessions
Zoom Link and locations on website
- Nov 18, 4-5pm
- Dec 7, 3-4pm
- Jan 19, 11am-12am
- Jan 28, 1-2pm
- Feb 10, 4-5pm

The Stronach Baccalaureate Prize commemorates Judith Lee Stronach’s enduring legacy of giving, and celebrates her commitment to lifelong intellectual and creative growth.

http://stronach.berkeley.edu
Biology Scholars Program
You are invited to apply for membership in the Biology Scholars Program (BSP). BSP is open to all UC Berkeley undergraduates with a passion for science and that are committed to service, leadership, and making a difference in the world. Most BSP members are biology majors. Some are in other STEM majors (e.g., Chemistry, Math) and yet others are in non-STEM fields (e.g., Social Welfare, Ethnic Studies). All have the intention to pursue biology-related careers (e.g., medicine, environmental policy).

The BSP application is now open. CLICK HERE to apply.

Application open --- Check the Prospective Students page on our website and your inbox for application link

Wednesday, January 5th, 2022 @ 12pm noon Pacific Time - Application Closes (no late applications will be reviewed)

If you are interested, or have questions, reach out to us at biology_scholars@berkeley.edu.

SURF SMART Application
Know a grad student who might be a great research mentor? Please forward this announcement!

SURF SMART is a program that enables doctoral students to create mentored research opportunities for undergraduate students at UC Berkeley. The program provides summer funding for both graduate and undergraduate participants.

The graduate application is now available on the Graduate Division's SURF SMART website at https://smart.berkeley.edu/.

Deadline for SURF SMART Graduate Mentor Applications: Monday, December 13, 2021, 11:59 PST.

Jacobs Innovation Catalysts Student Grant Program
Each semester, the Jacobs Innovation Catalysts student grant program supports student ideas and projects with up to $2000 of funding and other support. All Berkeley students are eligible to apply and we welcome a wide range of projects at the intersection of design and technological innovation. If you've been dreaming up a new concept or would like to continue working on a recent project, consider applying to join our next cohort!
Miscellaneous Opportunities: Week of December 13th, 2021

There will be an online info session about the spring 2022 cohort application on Tuesday, December 7th, 6-7 pm (10C Jacobs Hall). The application form and updates for the spring semester will also be published on November 18th and applications are due January 3rd. Learn more on the grant program webpage and sign up to get key grant program announcements.

Cultural Anthropology and Humanities Scholarship Call
This call is aimed at budding researchers with creative and open minds interested in the challenges of applied research. We offer a unique learning opportunity in a multidisciplinary research project on the isle of Gozo, Malta. Expeditions and the University of Leuven offer two full scholarships for the 2022 Off the Beaten Track Malta Summer Program. Scholarships are granted on a competitive basis and based on a research proposal.

Call directed at
- Undergraduate and graduate students
- Ph.D. students and candidates
- Everyone with a genuine interest in cultural anthropology
- Previous participants of the project

More information on www.anthropologyfieldschool.org

Phi Beta Kappa Society Scholarship
The Phi Beta Kappa Society, the nation’s most prestigious academic honor society, launched its Key into Public Service program in 2019 to connect promising arts and sciences students with opportunities in public service. The Society seeks online applications for the Key into Public Service Scholarship from across various arts and sciences disciplines for $5,000 undergraduate scholarships and participation in a training conference for up to 20 rising sophomore and junior liberal arts and sciences students interested in public service careers. Society membership is not required.

Phi Beta Kappa invites applications for a
$5,000 undergraduate scholarship and networking conference in D.C. for liberal arts and sciences students interested in public service. Membership not required.
Apply by 1.23.22 at pbk.org/ServiceScholarsApp
Characteristics of ideal recipients include intellectual curiosity, interdisciplinary breadth and depth of arts and sciences coursework, leadership propensity, and service to others. Students within all liberal arts and sciences majors are encouraged to apply.

Applicants can learn more and apply online by **January 23, 2022** at [PBK.org/ServiceScholarsApp](http://PBK.org/ServiceScholarsApp)

**UCSB Sea Turtle Field Course and Expedition**
Created by a graduate from the prestigious Bren School of Environmental Science & Management, BIOMA has provided hundreds of University Students worldwide with a two-week academic + fun high quality sea turtle experiential learning and hands-on research experience. HANDS-ON PROFESSIONAL EXPERIENCE & ACADEMIC CREDIT.

A field program created at UC Santa Bárbara. TRULY LIFE-CHANGING

Founded by a Graduate from:
Jacobs Winter Design Showcase

Please join us at the Jacobs 2021 Winter Design Showcase on **Friday, December 10, 2021, 4:00 - 5.30pm**, to celebrate the student work of the newly launched Master of Design program at UC Berkeley.

The Design Showcase is a three-day event (December 8-10) that highlights student accomplishments and work from the courses and programs offered at Jacobs Institute for Design Innovation at UC Berkeley. On Friday, December 10, the Design Showcase features student work from the Master of Design program and invites colleagues, friends and family to view the work during an Open Reception from 4:00 - 5.30pm.

We are thrilled to share the work of our first two MDes cohorts, and hope you will be able to join us at this inaugural event celebrating their work from their first semester on campus.

Please [RSVP for the MDes Open Reception & Celebration here](#), and select tickets for Friday (though you are welcome to attend all of the days). You can also visit the Jacobs Design Showcase website for more information, as well as our MDes website for ongoing updates about the schedule.

**Refractions: A New Suns Contest Reading!**

This past spring, the SLC Discovery and Language Exchange Programs issued an ambitious call to our campus community: craft short stories that imagine new futures and lay the groundwork for more just realities. Dubbed the New Suns Short Fiction Contest, it resulted in tales told from the outer limits of the universe to the intimacy of a kitchen counter, from a world without loss to a world transformed by ancient legend. Each submission, in its own way, spoke not only to what is possible, but also to what may come.
Now, you’re invited to bask in the glow of these new suns by attending the contest-culminating reading: Refractions. Join the New Suns Contest Team next Friday, December 10, from 3-5 PM, to hear from all four contest winners and experience first-hand the power of their stellar stories. There will also be time to mingle with and hear from other New Suns writers and celebrate their desire to envision novel ways of being.

If you plan to attend, simply RSVP at bit.ly/slc-refract. We hope you’ll take advantage of this wonderful study break opportunity, mark your calendars, and bring some luminosity into the tail-end of your RRR Week!
Regroup. Reflect. Radiate

Congratulations on making it to RRR Week! As you turn your attention to your final tasks, we’re wishing you time to rest and regroup, reflect on your ideas, and share what you’ve learned as radiantly as you dare. And for those who still have a few words (or more) left to write, we’re excited to be right there with you!

Come see us throughout RRR Week to bring one last burst of conversation and community to your writing process. Please note: our RRR Week hours are not the same as our previous hours. On Monday through Thursday, we’ll be offering hybrid Appointment from 11 AM-6 PM and hybrid Drop-in from 1-5 PM. On Friday we’ll be virtual-only, with Appointments from 11 AM-5 PM and Drop-in from 1-5 PM. Our last day of service is this Friday, December 10, so just be sure to plan accordingly. The earlier you visit during the week and on each day, the more you can maximize your opportunities for support.

Have a fabulous RRR Week, and we can’t wait to see you in the VêVê Writing Lounge!
Camp Augusta

Who are we?
Camp Augusta is a nonprofit outdoor education center in the woods of Northern California. Each year, thousands enjoy Camp Augusta’s rustic 90 acres and core programs uniquely designed for summer youth campers, wilderness trips, elementary school children, and family groups.

Camp Augusta understands the value of non-electronic, personal experiences for kids. That’s why Camp Augusta is full with only 95 campers per session, and why staff are prepared with the most extensive hiring and training process in the USA!

Why partner with Camp Augusta?
Camp Augusta is a special community-living environment that equips staff with skills that positively influence their roles as students, educators, outdoor recreation specialists, therapists, program managers, and artists. Whether for course credit or internship experience, partnership with Camp Augusta means that your students gain hands-on training and experience in a high-responsibility setting that helps prepare them for higher education, careers, and healthy relationships. Included in a summer season of training and counseling at Camp Augusta:

- 25 days of on-site staff training exploring human development, facilitation & communication skills, and counseling
- Training in emergency response, wilderness & adventure activities, performance arts, and much more
- Training and summer mentorship provided by staff, including Camp Director Randall Grayson, PhD in psychology
- 6 summer sessions during which staff apply their training and build meaningful relationships with campers, families, fellow staff, and their natural surroundings

Who do we attract?
Counselors, who are chosen for their character and love of youth, model and enforce healthy living skills and positive values. Staff who thrive at Camp Augusta possess the following qualities:

- Open-mindedness and compassion
- Creativity and innovation
- Responsibility
- Physical/mental/emotional stamina
- Dedication to guiding/counseling children
- Desire to learn, grown, and face challenges with openness, joy, and curiosity
- Actively facilities goodwill and positivity
Miscellaneous Opportunities: Week of December 13th, 2021

Positions available in: counseling, community leadership, wilderness trips, kitchen, equestrian program and more

Fung Fellowship Applications are Open

What is the Fung Fellowship?
The Fung Fellowship is a unique opportunity for rising juniors and seniors to create impact-driven solutions to address real-world challenges alongside our community and industry partners. Fung Fellows utilize the iterative human-centered design process, interdisciplinary tactics, and emerging technology in both of our offered tracks: Conservation + Tech and Health + Tech.

As a Fung Fellow you will:
- Explore innovation and technology in your chosen track sector
- Experience the design process from prototype to product
- Embed in communities to co-create with them
- Establish yourself as a young leader in an emerging field

Selected Fung Fellows attend a 3-unit course each semester, are supported in a summer internship, and rising juniors have the opportunity to apply to a second year honors program.

What your first year might look like:
- Engage in foundational experiences such as weekly lectures and hands-on lab sections, fall boot camp, spring retreat, and interdisciplinary team projects
- Access to exploratory opportunities such as conferences, company site visits, networking events, workshops, hackathons, and career services

Required qualifications:
- Registered student at UC Berkeley
- Class of 2024 rising junior or Class of 2023 rising senior (current sophomore or junior standing)
- Strong passion for health, conservation, social impact, design, and/or technology

The Fung Fellowship accepts all majors into this program and there is no GPA bracket. Applications are reviewed holistically.

Information to apply:
1. Learn more about the program at: fungfellows.berkeley.edu
2. Stay tuned for more info regarding our infosessions on February 2 and February 9, 2022! We will offer both remote and in-person options.
3. Sign up for our interest form: bit.ly/FF22-interest
5. Deadline to apply: Friday, February 18, 2022 at 11:59pm PST
Miscellaneous Opportunities: Week of December 13th, 2021
