Berkeley Law Internship at the Death Penalty Clinic, 12/20

SPRING 2021 INTERNSHIP ANNOUNCEMENT
UNDERGRADUATE INTERN (Remote Position)
Death Penalty Clinic, University of California, Berkeley, School of Law

The ideal candidate for this unique opportunity is dependable and responsible. We are looking for two interns for the spring semester, with the possibility of continuing into the summer and/or fall. We require a University of California, Berkeley undergraduate, preferably a junior or senior, who can commit a minimum of ten (10) hours per week during the semester. (Summer internships are double that time.) These are unpaid positions.

The Death Penalty Clinic is a law practice engaged in direct representation of individuals facing capital punishment. Interns will have the opportunity to work remotely with faculty, the paralegal, and law students. They will be held to the same confidentiality requirements as clinic faculty, staff, and students.

As an intern, you must be:
- dependable and good at time management since you will be working remotely
- trustworthy because of the serious responsibility of working on capital cases
- compassionate, dedicated to confidentiality, team-oriented
- detail-oriented to best support the clinic and our clients

Responsibilities may include, but certainly are not limited to:
- inventorying and analyzing electronic files
- researching information online relevant to cases
- preserving, managing, and collecting records
- updating databases

As an intern, you will be exposed to the realities of working on a capital case and engage in projects that contribute to the professional work of the organization.

For more information regarding the Clinic, see our website at: https://www.law.berkeley.edu/clinics/death-penalty-clinic/

To apply, please email your resume and a cover letter explaining your interest to Heather Canfield, Clinic Paralegal, at hcanfield@clinical.law.berkeley.edu by Sunday, December 20, 2020 at 11:59 pm. Please submit materials in one combined PDF, starting with your cover letter, and title the document as follows: LAST NAME, FIRST NAME – Application
We plan to interview select applicants via Zoom during the beginning of Spring Semester, though this timeline is subject to change.

**Insight Summer 2021 Internship, 1/13/2021**

*About the INSIGHT Program:*
The INSIGHT Summer Research Program is an NIH-funded, eight-week paid summer internship through the University of Washington at Harborview’s Injury Prevention and Research Center (HIPRC). Students in our program are matched to clinical research projects and partner with a UW Medicine & Health Sciences Faculty. Students get to meet and learn from peers and health professionals from across the country, and also get to participate in clinical shadowing at Harborview, and social activities and tours, including the King County Medical Examiner’s Office. Bringing together a diverse group of young people interested in health care and research allows HIPRC to create a unique and rich resource for students who seek to learn more about what they can accomplish in the field of injury and injury prevention. The INSIGHT Program offers a $3,200 stipend to those accepted.

Below follows our website, where interested students can find the application portal and all the details of the program:

[https://hiprc.org/training/undergrad-grad/insight/](https://hiprc.org/training/undergrad-grad/insight/)

**The Data Incubator Fellowship, 2/5/2021**

In today’s world, we know how difficult it can be to attend a full-time data science fellowship program for 8 full weeks.

That’s why we’re proud to introduce our part-time fellowship program.

You’ll get the same great training, instructors and career boost as our full-time program, but with more flexibility.

The part-time program:

- Lasts 20 weeks instead of 8
- Takes place on Monday and Thursday evenings from 7:00-9:30 p.m. ET, with office hours held each week
Internship and Volunteering Opportunities: Week of December 14, 2020

- Allows you to work full-time while advancing your data career
- Includes TDI data science certification
- Offers the same curriculum and career services as our full-time program

The new application for our Spring 2021 Fellowship Program opens on 12/6.

Select your preference for full-time or part-time in your application and take the option that's right for you.

The Data Incubator

Casa de Esperanza Internship Program, year-round apps

Casa de Esperanza, a non-profit in Houston, Texas, provides residential care to children birth through six who are in crisis due to abuse, neglect, or the effects of HIV. Care is provided in our neighborhood by our Hands of Hope interns. Our interns, most of whom are recent college graduates, join us for a year of service (a twelve-month full-time post-graduation internship). Applicants wishing to complete shorter internships are considered on a case by case basis. We provide on-site housing (interns live with the children they are caring for) and interns join us from all over the United States to be part of our internship program.

Information about our internship may be found here: https://www.casahope.org/hands-of-hope-internship
The application for our internship may be found here: https://www.casahope.org/application-part-one
Interns in our program gain valuable experience that is relevant to a number of fields and future career goals while simultaneously making a meaningful difference in the lives of a vulnerable. We will have groups joining us in January, June, and August of 2021.

Volunteer RA Position: Emotion, Health, and Psychophysiology Lab at UCSF

The Emotion, Health, and Psychophysiology Lab at UCSF is accepting applications for volunteer research assistant positions.
Our research focuses on embodiment -- how the mind influences the body, and the reciprocal, how bodily changes influence thoughts, emotions, and intentions. Research assistants working in the lab are exposed to a variety of studies at the intersection of social psychology, emotion, and psychophysiology. RAs learn how to conduct studies, collect physiological data, and edit and score autonomic data. Our RAs work at least 10-12 hours a week for two school semesters.

This volunteer opportunity is ideal for undergraduate students or recent graduates looking to gain research experience for graduate school or medical school. Please note that while we welcome international applicants, we cannot help with the visa process.

If you are interested in applying, please fill out this application form (https://forms.gle/b2qs7eP7kJZwyPfS9).

Any questions can be directed to the lab manager, Julia Moore, at julia.moore2@ucsf.edu.

Volunteer Bootcamp Internship Program: Winning Battleground Campaigns

Flip the West is a Political Action Committee working to Flip the US Senate by electing Democrats in key Senate races in the West Coast and Midwest. This 2-4 week bootcamp program provides participants to make a quick and immediate impact on a national level while also gaining key experience in political advocacy, outreach, and organizing. This program provides comprehensive training and structure for successful field campaigns while making immediate and meaningful impact in the 2020 election.

As a part of the Flip the West Volunteer Bootcamp Internship Program you will have the opportunity to gain the following skills:

- Virtual Organizing
- Advocacy & Direct Engagement
- Virtual Network Building
- Political Advocacy

Successful participants may be eligible to receiving the following:

- Letter of Recommendation
Internship and Volunteering Opportunities: Week of December 14, 2020

- Professional Reference
- Professional Development

INSTRUCTIONS
Please fill out the following Google Form:
https://forms.gle/WSdHZ7iE2QNVfT2WA

You will be asked a few basic questions, to write a short personal statement and to attach your resume. If you are interested, please fill out as soon as possible. All applications will be reviewed and responded to within 48 hours.

If you have any questions, please email michael@flipthewest.com

**Seeking Undergraduate Volunteers at UCSF Psychiatry Lab**

Early Psychosis Research Lab | Looking for Volunteers - Clinical Research Assistant

The Prodrome, Assessment, Research and Treatment (PART) Program is based out of the University of California, San Francisco Department of Psychiatry. The PART Program conducts research with adolescents and young adults who are at high risk for developing schizophrenia, as well as young people recently diagnosed with schizophrenia. We are interested in 1) identifying young people at risk for a psychotic disorder; 2) studying risk factors for psychosis onset; and 3) testing prevention and early intervention treatments. Our program integrates psychosocial and neurobiological approaches to understanding major mental illness.

Principal Investigator: Rachel Loewy, PhD

**Duties:**
- Administrative/Clerical Duties such as data entry, data cleaning, research records review, etc.
- Participation in weekly clinical research meetings
- Great experience to put on your resume for graduate or medical school

**Skills:**
- Prefer Psychology Major
- Organizational skills are key
- Detail oriented
- Familiarity with Microsoft Office, Excel, and SPSS
- Previous research experience a plus but not necessary
We are looking for individuals who can commit about 8-16 hours per week for one year to our research lab. This would be an excellent opportunity for undergraduate students.

If you are interested in working with our dynamic, growing research program, please email your resume and cover letter to the lab manager, Heather Garman, at heather.garman@ucsf.edu
UCB Transfer Mentorship Program

TRANSFER INSIGHTS MENTORSHIP PROGRAM

Develop professional skills, and support incoming transfer students.

Mentors will be paired with one (up to 3) mentee(s) for the semester and share their insight and student experience.
