### Summer Undergraduate Research Fellowships (SURF), 2/20/20

The SURF Program is made up of five different fellowships:

**SURF L&S**
SURF Rose Hills Experience
SURF Rose Hills Independent
SURF Math Team Fellowship
SURF-SMART

The SURF L&S fellowship allows UC Berkeley undergraduates in the College of Letters and Science to spend the summer doing concentrated research in preparation for a senior thesis. Fellows receive $5000. These fellowships are generously supported by a number of private donors.

The SURF Rose Hills Experience fellowship allows UC Berkeley sophomores and juniors from Southern California in certain math, science, and engineering majors (L&S, CNR, COE, C. Chem) to immerse themselves in full-time summer research supporting a research project that is designed and directed by a faculty member. Fellows receive $5000. This program is generously supported by the Rose Hills Foundation.

The SURF Rose Hills Independent fellowship is for UC Berkeley juniors in the summer before their senior year who are intending to do research projects of their own design as part of a senior thesis for a major. Students must have permanent residence in Southern California and be part of certain STEM majors. Graduating seniors are also eligible. Fellows receive $5000. This program is generously supported by the Rose Hills Foundation.

The SURF Math Team Fellowship is for a team of four UC Berkeley math majors of any year to propose a summer research project under the mentorship of a UC Berkeley math professor. Each team member will receive a $5000 fellowship, and the faculty mentor will receive $2500 in research funds.

The SURF-SMART (Student Mentoring and Research Teams) is a program that enables doctoral students to create mentored research opportunities for undergraduate students at UC Berkeley. The program provides summer funding for both graduate and undergraduate participants and opportunities to share research results on campus and at national conferences. Each SURF-SMART undergraduate fellow will receive a $5000 fellowship, and the graduate student Mentors receive a stipend from the Graduate Division.

For more information about the program and applying: https://surf.berkeley.edu/surf-ls-apply

➢ SURF Smart Mentoring, Deadline 2/20/20

Why Self-Love & Connectedness Matters: Enhancing Positive Outcomes among Transition-Age Youth (Mayra Cazares)
This project will focus on transition-age youth (TAY) in the foster care system. TAY are among the most vulnerable young adults in our society and are at increased risk for various negative outcomes including homelessness and low educational attainment. Although the child welfare system is concerned with improving their outcomes, it has not considered how their histories of maltreatment and foster care may impact their self-love and their subsequent relationships with adults.
This project will employ a mixed-methods approach and aims to:
1. Examine the impact of maltreatment and foster care on youths’ self-love and social networks.
2. Examine the impact of self-love and social network characteristics on youth’s outcomes.

Research experience is preferred but not required; training will be provided. Research activities and responsibilities include:
1. Recruiting, surveying, and interviewing youth.
2. Entering and cleaning data using Excel and STATA.
3. Transcribing and coding interviews.

The mentee will exit the project with the fundamentals of how to conduct qualitative/quantitative research focusing on socioemotional well-being with a difficult-to-reach population. The mentee will have the opportunity to develop a poster presentation and/or write a publication on this research. The mentee is expected to regularly meet with mentor over the summer to debrief about their progress in the project as well as for mentorship on professional- and career-related topics.

**Deadline for SURF SMART Undergraduate Mentee Applications: February 20, 2020**

The SURF SMART program will run from May 29 to August 7, 2020. This program is designed to broaden doctoral students' professional development and to foster research skills and forge paths to advanced studies for UC Berkeley undergraduates. Each undergraduate mentee will receive a summer stipend in the amount of $5,000 for approximately 320 hours of work.

Information about the SURF SMART Program, other graduate mentor research projects, and a link to the undergraduate mentor application form are located on the SURF SMART website. When applying, please be sure to select the "SURF SMART" application.

Questions about the graduate mentor component of this program can be directed to smartmentoring@berkeley.edu.

**Fung Fellowship Applications Open, 2/21/20**

What is the Fung Fellowship?
The Fung Fellowship is a unique opportunity for rising juniors to create innovative health and wellness solutions to address real-world challenges alongside our community and industry partners. Fung Fellows utilize the iterative human-centered design process, public health principles, and emerging technology.

As a Fung Fellow you will:
- Explore the Health + Tech space
- Experience the design process from prototype to product
- Embed in communities to co-create with them
- Establish yourself as a young leader in an emerging field
- Selected Fung Fellows attend a 3-unit course each semester, are supported in a summer internship, and have the opportunity to apply to a second year honors program.
Required Qualifications:
- Registered student at UC Berkeley
- Rising Junior (current Sophomore standing) with a passion for health, wellness, social impact, design, and/or technology

How to Apply:
Learn more about the program at: http://fungfellows.berkeley.edu
Please apply by completing the application here: https://tinyurl.com/ffapp20

Deadline to apply: February 21st, 2020 11:59pm PST

➤ Mellon Mays Undergraduate Fellowship, 2/21/20 Deadline

The Mellon Mays Undergraduate Fellowship opens up a national network of resources that will help students get into the top graduate schools for the arts, social sciences, and humanities.

Applicants must be a second semester sophomore standing (or at least 4 academic year semesters remaining at UC Berkeley) and have an approximate 3.4 GPA.

Visit our MMUF website, for more details about our program.

The application deadline for all materials is February 21, 2020.

There is an MMUF Info-session taking place Wednesday, February 12, 4pm in Durant Hall, Room 9. Here is the RSVP link for the info session.

Questions?
Email Alberto Ledesma or Diana Acidera, or visit the Mellon Mays Office at 2413 Dwinelle Hall.

➤ Our Monologues 2020 - Phases of Healing: Many Moons, 2/22/20, 2/29/20, 3/1/20
OUR MONOLOGUES 2020

THEME Phases of Healing: Many Moons

DATES February 22nd, February 29th, and March 1st

TIMES 7 pm*
*Please note, the show does not start at Berkeley time

LOCATION Wheeler Auditorium on unceded Huichin Ohlone Territory

TICKETS $12 online, $12-$16 sliding scale on Sproul
To purchase tickets, please go to our Instagram @ourmonologues and Facebook @Our Monologues at UC Berkeley

ALL PROCEEDS GO TOWARD
Shaami Land Tax
Transgender Law Center
Black Student Union
Gender Equity Resource Center

CONTACT
For more information on purchasing a subsidized ticket, questions, or general concerns, please contact us at:
ourmonsuch@gmail.com

Our Monologues is a production that offers a platform and community for folks with historically marginalized identities on campus to collectively heal and share their stories with the greater community.

CW/TW: Content in the show includes, but is not limited to:
sexual, domestic, emotional violence, transphobia, suicide, racial violence, and addiction.

Save the date for our follow up community art exhibition @ the MCC on April 12th, 2020!
ADA Accessible. Captioned event. For disability related accommodations, please refer to: access.berkeley.edu.

Interested in publishing your independent undergraduate research? The Berkeley Scientific Journal offers you the opportunity to have your paper peer-reviewed and published in a journal as an undergraduate, which can make a big difference in your scientific career.

The final deadline to submit your paper is February 23rd at 11:59 pm.

Please find the submissions guidelines here: [https://bsj.berkeley.edu/submissions/undergraduate-research-submissions/](https://bsj.berkeley.edu/submissions/undergraduate-research-submissions/)

A bit more about us: the Berkeley Scientific Journal is the premier undergraduate research journal on campus. Every semester, our journal publishes faculty-reviewed independent undergraduate research, feature articles on current issues in science, and interviews with UC Berkeley professors. Our goal is to provide a platform for undergraduates to publish their original writing and research, as well as to make the UC Berkeley scientific community more accessible to the general public. Please take a look at our Spring 2019 issue, "Perspectives," to get a better idea of what we do:

[https://issuu.com/berkeleyscientific1/docs/perspectives_issue_23_volume_2](https://issuu.com/berkeleyscientific1/docs/perspectives_issue_23_volume_2)

Feel free to contact BSJ Research with any questions: [research.bsj@gmail.com](mailto:research.bsj@gmail.com)

Notre Dame: The Restoration Process, 2/24/20

7
Adobe Creative Jam, 2/25/20

Please join us on **Tuesday, February 25** in the ASUC Pauley Ballroom for the Adobe Creative Jam, an epic evening of inspiration, collaboration and creation, brought to you by the student technology fund. Learn Adobe XD in less than an hour, then collaborate with other students to turn that knowledge into an app that helps your community.

All majors welcome, no previous design experience necessary. Participants will receive feedback from industry experts, including professionals from Lyft, Facebook, VMWare and Adobe, and compete for a chance to win a $200 gift card and a once-in-a-lifetime chance to see Post Malone at the Chase Center in Adobe’s private box seats. All that, and we’ll throw in dinner and eye-opening presentations from Michelle Rial, author of Am I Overthinking This?, and Emiliana Simon-Thomas from Greater Good Science Center.

Register for free at [http://cjam.in/berkeley](http://cjam.in/berkeley).
MCC – Intergalactic Travels: Poems From A Fugitive Alien, 2/27/20

A celebration of truth, friendship, and poetry: launch party for Intergalactic Travels: poems from a fugitive alien by Alan Pelaez Lopez

February 27, 2020

Cal Energy Corps Opportunity, 2/29/20

The Cal Energy Corps is a paid undergraduate summer internship program engaging top UC Berkeley students in the design, development, and delivery of sustainable energy and climate solutions.

The program provides students with professional, hands-on experience to enhance their academic work, offering them a chance to use their talents for implementing cutting-edge innovations in the field. Students chosen for the program participate in full-time 8+ week internships over the summer at selected host organizations, receiving a $680 weekly living stipend. Following the program, students present their research projects to the Cal Energy Corps community at a poster session and reception.

This year, internships are available seeking support in areas such as environmental policy, machine learning, materials science, and more. Placements are currently offered at Carbon 180, Cypris Materials, Energy Solutions, Imprint Energy, Integral Group, Lawrence Berkeley National Lab, and PingThings, with more host organizations to be announced.

For more information, including how to apply, please visit our website at calenergycorps.berkeley.edu.

Applications are due February 29th, 2020

Judith Lee Stronach Baccalaureate Prize, 3/2/20

Started in 2006, the Judith Lee Stronach Baccalaureate Prize is awarded to UC Berkeley graduates to undertake a service, creative, or community-based research project in the year
following graduation. In the finest Berkeley tradition, the program supports projects that serve the public good and heighten awareness of issues of social consciousness. Recipients are awarded up to $25,000 to pursue their projects.

You can learn more and read about past winning projects on the program website. You can contact the program advisor at stronachbaccprize@berkeley.edu.

Application Deadline
March 2, 4pm

➢ Berkeley Food Institute Events with Bettina Elias Siegel, 3/2/2020

Please join the Berkeley Food Institute on March 2 for two events with Bettina Elias Siegel, author of Kid Food: The Challenge of Feeding Children in a Highly Processed World.

Student Session With Bettina Elias Siegel
March 2, 3 – 4pm
338 Koshland Hall, UC Berkeley
See details here: https://www.facebook.com/events/482137419132849/

Come meet Bettina Elias Siegel, author of Kid Food: The Challenge of Feeding Children in a Highly Processed World. A graduate of Yale College and Harvard Law School, Bettina practiced intellectual property, advertising, and food law in New York City for almost a decade before turning to a career in freelance writing. In early 2010, she became interested in improving the food in her children’s school district, Houston ISD, and soon after launched The Lunch Tray, a blog about all things related to “kids and food, in school and out.” Bettina will be speaking at a public event on March 2, 2020 from 5:30 – 7:30pm. Students have a special opportunity to meet with Bettina from 3 – 4pm in 338 Koshland Hall to discuss her path to activism, areas of research and advocacy for her, and the topic of food policy in general. Bring your questions and ideas!

Public Event: Fixing Our Children’s Food Environment
March 2, 5:30 – 7:30pm
David Brower Center Tamalpais Room, 2150 Allston Way, Berkeley
Register here: https://www.eventbrite.com/e/fixing-our-childrens-food-environment-tickets-93133744537

An evening to inspire solutions and raise funds for the Berkeley Food Institute, featuring Bettina Elias Siegel.

Please join the Berkeley Food Institute in welcoming Bettina Elias Siegel to discuss her new book Kid Food: The Challenge of Feeding Children in a Highly Processed World. What are the roles of parents and non-parents in ensuring that all of our community’s children have access to safe, affordable, and nourishing food? How have some junk food companies sought to leverage
every possible opportunity to sell their products to impressionable young future customers— and what can we do to push back? How can research and practice inform public policy on children’s food issues? We will explore these and other questions in a lively interactive forum where your questions and ideas are welcome.

Bettina is a mother of two and a nationally recognized writer and advocate on issues relating to children and food policy. A graduate of Yale College and Harvard Law School, Bettina practiced intellectual property, advertising, and food law in New York City before she became interested in improving the food in her children’s school district, Houston ISD. Soon after she launched The Lunch Tray, a blog about all things related to “kids and food, in school and out.” Bettina spearheaded three victorious Change.org petition campaigns relating to school children and food, making her one of the most successful petitioners in the organization’s history. She’s the author of the free 50-page e-book, The Lunch Tray’s Guide to Getting Junk Food Out of Your Child’s Classroom, which has been downloaded free by thousands of parents and is now in its second edition.

Join us for a book signing and reception with Bettina Elias Siegel after the event.

The event is co-sponsored by Berkeley Food Institute (BFI), the UCANR Nutrition Policy Institute (NPI), and Be Well at Work Faculty and Staff Health Programs.

This event is a fundraiser, with no one turned away for lack of funds. Suggested donation: $5 – $500, please make your donation here to support the Berkeley Food Institute. Registration is highly recommended.

➢ Expanding Your Horizons Conference, Women in STEM, Volunteers Needed, 3/7/20

UC Berkeley's Expanding Your Horizons in Science and Mathematics (EYH) Conference will be held Saturday, March 7th 2020 on campus. This conference serves to introduce 5th through 8th grade female-identifying students to career opportunities in mathematics, science, engineering, computer science, and technology. This year, we will be inviting 450 youth from the East Bay community to explore math and science by participating in diverse workshops and interacting with womxn undergraduate mentors.

We will need UC Berkeley undergraduate volunteers to assist all day with the conference!

Undergraduate volunteers can sign up here. More detailed information about the EYH can be found on our website.
Miscellaneous Opportunities: Week of February 17, 2020

150 Years of Women at Berkeley

➢ The 29th APIICON: Breakdown & Rebuild, 3/7/20

Teach for Splash at Berkeley, 3/8/20

Instill your passion about any subject to high schoolers around the Bay Area! Splash a student organization that brings over 400 high school students to Berkeley’s campus for a day of unlimited learning through classes taught by Berkeley students (YOU)! This year, Splash will be on Sunday, March 8th.

Splash is a low-commitment, high impact educational outreach opportunity that also gives you agency on your course. You choose the topic, how many students can enroll in your class, and how many sessions you teach throughout the day. If you would like to teach with others, you can also have co-facilitator(s) in a course.

Also, all teachers get a free t-shirt and lunch!

If you or your friend(s) are interested in teaching a course to high school students, sign up to register as a teacher here.

The tentative deadline to sign up to teach a class is February 11th! The day of Splash is March 8th.

Don’t know what exactly to teach? Know what you want to teach but want some feedback?
This year, we are also hosting two optional teacher training sessions for those who are interested on Saturday, February 8th and Saturday from 2-3pm, February 22nd from 2-3:30pm. You can RSVP here at bit.ly/SPLASHTEACHERWS.

If you have any questions, feel free to reach out to us at splash.berkeley@gmail.com.

20th Annual Night of Cultural Resistance, 3/13/20
We wanted to bring to your attention our Master’s Degree Program in Clinical Research at the University of California, San Francisco (UCSF). Founded in 2002, our program provides comprehensive theoretical instruction and practical training in a variety of methods of observational and experimental health-related research with human subjects. Graduates are prepared to work in the field of clinical and epidemiologic research in either academia, industry, or public health. Many graduates have used our program as a stepping stone for PhD training or professional school (medical, dental, or nursing). Application deadline is March 16, 2020, but we will begin reviewing applications on January 1, 2020.

Clair Dunne, MPA
Program Coordinator
Training in Clinical Research Program

UCSF Department of Epidemiology and Biostatistics
550 16th St., Floor 2
San Francisco, CA 94143
Ph: 415-514-8135

Firebaugh Scholars Program, 3/20/20 Deadline

Shame and Aging - ONLINE
Healing the Shame of Aging in a Society that Worships Youth
A Workshop for Therapists and Helping Professionals
with Sheila Rubin, LMFT, RDT/BCT and Bret Lyon, PhD, SEP

Online using Zoom – Live and Recorded
4 Fridays: March 20, 27, April 3 and 17 (No class April 10)
10am–1:30pm Pacific Time

$375 full price / $350 with full payment by February 14, 2020
Special price for interns

13 CE credits available (See website for details) - CAMFT CE provider #134393

We all go through it. No one is immune. And nothing produces more universal shame in our society than aging. Whereas many societies have deep respect for people as they age and see a vital role for elders, our society still worships youth.

In this workshop, we will explore and learn to be more comfortable with our own aging process. And we will explore ways to help clients talk about, explore and heal their own shame around aging. We will:

- Discover ways to help clients become aware of the many messages they received and continue to receive about aging and body image from family and society.
- Learn ways to help clients cope with the shame of not being able to do all that they once did.
- Understand counter-shaming techniques to help ourselves and our clients find pride and joy in the new reality—seeing that there are real gains as well as losses in this new stage of life.
- Work with the shame that can cause and result from sicknesses and injuries.
- Identify challenges in being looked at as unimportant and “not up to par” by a youth-oriented society and the layers of shame that can occur.
- Discover how to make the necessary adjustments so we can regain access to the life force and creativity that we still have in a grounded and embodied way.
- Begin to shift and transform cultural stereotypes about aging by finding a reservoir of vitality, inner vision and clear action for the next phase of life, that may be hidden under shame!

There is no prerequisite for this course. It can be taken by itself or as part of a sequence.

TO REGISTER, please visit the Schedule page at www.HealingShame.com.

For more information, call Sheila at 415-820-3974 or email Sheila@HealingShame.com.

For details about our complete training program in Healing Shame, visit our website. You can also check out articles and free Healing Shame webinars.
www.HealingShame.com
**2020 Student Research Conference at San Jose State University, 3/20/20 Deadline**

Abstracts are currently being accepted for the 63rd Annual Spartan Psychological Association Research Conference (SPARC), hosted by the Psi Chi chapter and the Department of Psychology at San Jose State University. All graduate and undergraduate students involved in psychological research or related fields are encouraged to apply. Submission forms and conference information can be found at the following link (also see attached flier):

[http://www.sjsu.edu/psych/Events/SPARC/](http://www.sjsu.edu/psych/Events/SPARC/)

Submission deadline: Friday, March 20, 2020

SPARC will be held on Monday, April 20th, 2020 in Student Union Ballroom B, San Jose State University.
SPARC 2020
63rd Annual Student Research Conference

Deadline: Friday, March 20, 2020

Gain professional experience in a cooperative environment!
Since 1957, the Spartan Psychological Association Research Conference (SPARC) has been providing students of psychology the opportunity to present their original research in a conference setting.

Undergraduate and graduate students interested in presenting their psychological research at SPARC should submit an abstract for consideration by March 20, 2020.*

Please join us this year, on April 20, as presenter or attendee, for another outstanding program comprised of oral presentations, poster presentations, and a keynote address from a distinguished scholar in psychology.

Keynote Speaker
Dr. Erin Flynn-Evans
Director of Fatigue Countermeasures Laboratory
NASA Ames Research Center

*Abstracts for proposed and completed studies are both welcome.
Submit abstracts online at:
http://www.sjsu.edu/psych/Events/SPARC
Northwestern University Psychology Sneak Peak Program, 3/29/20

We are currently accepting applications for the 2020 Department of Psychology Sneak Peek Program at Northwestern University. The Sneak Peek Program is a great opportunity for traditionally underrepresented students considering a PhD in psychology to attend a preview weekend at Northwestern University. Visit expenses, including travel, lodging, and meals, will be provided.

Participating students will have the opportunity to visit Northwestern’s Department of Psychology, interact with faculty members and graduate students, and meet peers interested in pursuing graduate education in psychology.

This year's sneak peek will take place on Friday, June 5th and Saturday, June 6th, 2020

Applications are now open!

The deadline to apply is 5pm CT on Sunday, March 29th, 2020.

To access the online application, please click here!

For more information follow this link:
https://www.psychology.northwestern.edu/diversity/sneak-peek.html

You may direct your questions to Ivan A. Hernandez at visitNUpsych@gmail.com.

Anne H. Scott Memorial Undergraduate Scholarship in Chinese Studies, 3/29/20

The Anne H. Scott Memorial Undergraduate Scholarship in Chinese Studies is funded through the Anne H. Scott Endowment in Chinese Studies at IEAS, a gift of Hugh A. Scott in memory of his late wife, Anne H. Scott (née Anne Hanrahan), and her dedication to Chinese historical studies. The Scholarship supports an undergraduate student emphasizing Chinese studies at UC Berkeley. It is intended to assist students who have studied the Chinese language and who wish to use their language training to study Chinese history or culture, or to translate historical texts. This year one award of $2,500 is available.

Deadline: Wednesday, April 1, 2020, 5:00 p.m.

Follow this link for the full announcement and application procedures.

Questions?

Contact Dylan Davis, Associate Director, Institute of East Asian Studies (IEAS) davisds@berkeley.edu.
University of Nebraska-Lincoln Diversifying Psychology Weekend, 4/3/20

The University of Nebraska-Lincoln will be holding its second annual Diversifying Psychology Weekend. This weekend event is intended to help workshop doctoral program application materials for applicants from underrepresented backgrounds. We define underrepresented and diversity broadly.

The weekend will take place July 31 through August 2. Travel, lodging, and most meals will be covered during the event. All attendees will also be eligible to receive payment for graduate application fees at the University of Nebraska-Lincoln. Applications are due April 3 and we anticipate notifying all attendees by May 1.

You may access the application link here: https://ssp.qualtrics.com/jfe/form/SV_3fl6kgd54fqJDpN
Greater Good Science Fellowship Application, 4/3/20
Deadline

The 2020-2021 Greater Good Science Center Research Fellowship Application window OPENS Monday Feb 10, 2020.
The Greater Good Science Center (GGSC) at UC Berkeley announces new one-year fellowship opportunities for UC Berkeley undergraduate and graduate students whose work relates to our mission: championing research into how social connection, kindness, belonging, and community support the happy, meaningful lives of individuals and society. Former fellows have come from the departments of psychology, integrative biology, sociology, neuroscience, urban studies, and other departments; the schools of public health, education, social welfare, and Haas business; and the UC Berkeley-UCSF Joint Medical Program. Students can apply using our [online application](http://greatergood.berkeley.edu/about) starting Feb 10, 2020. The application deadline is Friday, April 3, 2020.

Timeline:
- **Application Window:** February 10–April 3, 2020
- **Winners Announced:** May 15, 2020
- **Funding Window:** September 1, 2020–August 31, 2021

Funding:
- Two fellowships will be awarded to undergraduates: one GGSC Fellowship (up to $2,500), one Goldberg Fellowship (up to $5,000)
- Four fellowships will be awarded to graduate students: three GGSC Fellowships (up to $10,000), one Hornaday Fellowship (up to $15,000)

Applicants may contact GGSC science director Emiliana Simon-Thomas for more information at ggscfellowships@berkeley.edu. More information about the GGSC can be found at [http://greatergood.berkeley.edu/about](http://greatergood.berkeley.edu/about)

Undergraduate Poster Session- Black Doctoral Western Regional Conference, 4/4/20
The Black Doctoral Network welcomes undergraduate, graduate and doctoral students to participate in our Western Regional Conference, themed “Breakthrough to Excellence.” If you have a research project, thesis, or dissertation you would like to present as a poster at a professional conference, the poster session is a good opportunity for you to showcase your academic work and receive constructive feedback from scholars in a friendly and engaging environment.

The poster session is part of the Black Doctoral Network Western Regional Conference taking place on Saturday, April 4, 2020 in Los Angeles, California at Loyola Marymount University. Abstracts may be submitted by current undergraduates from all racial backgrounds on any topic.

The abstract must be no more than 300 words in length. Include the title of the poster, issues you address in your work, your methods and theories, and results/conclusions of your research (if available). All undergraduate poster presenters will take part in a poster competition. We will send decision notifications on a weekly basis starting February 3.

For more information on the conference visit: blackphdnetwork.org/regional

TO SUBMIT A POSTER ABSTRACT: https://blackphdnetwork.submitable.com/submit

➢ BLAQOUT Conference 2020: Black in Action, 4/24-26/20
BLAQOUT CONFERENCE 2020: BLACK IN ACTION

This year’s conference celebrates the intrinsic power of the many manifestations of our BlaQness, encompassing all intersections of our complex and diverse identities. Our very existence as Black QTs is a paradox that challenges the systems designed to oppress us, thus the
theme “BlaQ in Action” spotlights the moment when one is able to remove the self-limiting mask they wear to protect their identity from society, regain consciousness of their full capabilities, and mobilize these powers to change the world. This year, our theme celebrates and passes on this legacy of resistance, centering, uplifting, and exploring our long-silenced truths through the powers of connection and collective advocacy and activism.
