Neurogenesis Submissions Spring 2019

Neurogenesis is now accepting submissions!

Neurogenesis: Duke’s Undergraduate Journal of Neuroscience is currently accepting submissions for its upcoming Spring 2019 issue! Neurogenesis provides an interdisciplinary forum for undergraduates passionate about Neuroscience research to publish their work and make it accessible to an extended, university-wide audience. Submitting to a journal gives undergraduate researchers an insight into the peer review process that is vital to modern scientific investigation. Not to mention, getting published looks great on a resume and establishes your expertise in an area of research!

You can use work you have already completed, including past independent study papers and class papers. Types of accepted submissions include:

• Original research
• Review articles
• Interviews
• Opinions

To view submission guidelines, please visit our Getting Published website at:
https://neurogenesis-journal.com/get-published/

Have an idea for a topic but not sure where to start writing? Just send us an email and you can brainstorm with our editors.
If you are interested in submitting or have any questions, send an email to neurogenesis.journal@gmail.com.
Submissions are due Feb. 24th, 2019!

Global Poverty & Practice Minor Info Sessions, 2/28/19

The GPP Minor introduces students to the theoretical frameworks, methods, and practical skills necessary to engage with global poverty and inequality in effective ways.

The minor requires five courses and a "Practice Experience." This experience is a central component of the minor in which students partner with domestic or international non-governmental or community organizations, government agencies, or other poverty or development programs, on various dimensions of poverty action – from food security and sustainable technologies to economic justice and grass-roots political power. The combination of the coursework for the minor and this real world experience allows students to connect theories and practices of poverty action. Funding is available to support students’ practice experiences.

The deadline to declare the minor this semester is Wednesday, March 6th. There are no prerequisites required to declare.

The Declaration Form and additional information about the minor can be found at: http://blumcenter.berkeley.edu/gppminor.

Information Sessions about the minor will be held in Blum Hall 100A/B (Ground Floor) at the following times:

- Friday, January 25th, 12 - 1 PM
- Tuesday, January 29th, 5 - 6 PM
- Monday, February 4th, 11 - 12 PM
- Wednesday, February 13th 1 - 2 PM
- Friday, February 22nd, 1 - 2 PM
- Thursday, February 28th, 5 - 6 PM

Contact gppminor@berkeley.edu with any questions.

The Keynote Speaker is **Adam Kleinhenz** (USF Class of 2003) and he will be speaking about his time as a Psychology major at USF and how he has accomplished his career. There will be brief pitches from each student at the conference explaining their research to the crowd, but each student will be presenting posters throughout the event.

The Green Initiative Fund (TGIF) Now Accepting Proposals, 4/5/19

THE GREEN INITIATIVE FUND (TGIF)
Students, faculty members, and/or staff members of the University of California, Berkeley are encouraged to submit a proposal for consideration by The Green Initiative Fund (TGIF) Committee. TGIF funds projects that focus on environmental sustainability and environmental justice. Along with a grant application, individuals or groups of applicants must submit necessary project approvals and estimated metrics for their proposed project's sustainability impact on campus. TGIF hosts a fall mini-grant cycle for projects up to $5,000 and a larger spring grant cycle for projects $5,000 or above. The spring grant cycle has an optional early abstract deadline to receive feedback on your project idea, then a required final abstract deadline, upon which TGIF’s Committee will invite applicants to submit a final application for review. Check out our Facebook page for more updates on TGIF grant-writing workshops and informational sessions that will help you develop your ideas into strong grant proposals!

- **Spring Grant Deadlines:**
  - Early Abstracts: Friday, February 1st, 2019 by 5PM
  - Final Abstracts: Friday, March 1st, 2019 by 5PM
  - Final Applications: Friday, April 5th, 2019 by 5PM (Note: by invitation only)

**GGSC Research Fellowship, 4/5/19**

Got students looking for research funding? The 2019-2020 Greater Good Science Center Research Fellowship application window OPENS Monday Feb 11! This program offers support for studies that examine how well-being relates to social relationships and pro-social states and behaviors at individual, social, or organizational/societal levels. Supporting UCB student research is core to the GGSC's mission, so please encourage your students to apply, and share this announcement widely!

**GREATER GOOD SCIENCE CENTER CALL FOR RESEARCH FELLOWSHIP APPLICATIONS**

We welcome researchers from a broad spectrum of academic disciplines at UC Berkeley, with an emphasis on the social-behavioral sciences

The Greater Good Science Center (GGSC) at UC Berkeley announces new 1 year fellowship opportunities for UC Berkeley undergraduate and graduate students whose work relates to our mission: championing research into how social connection, kindness, belonging, and community support the happy, meaningful lives of individuals and society.

Based at UC Berkeley and led by social psychology professor Dacher Keltner, the GGSC is unique in its commitment to both science and practice: not only do we sponsor groundbreaking scientific research into social and emotional well-being, we help people apply insights from research to their personal and professional lives.

Previous GGSC fellows have secured top positions at universities nationwide, providing a significant boost to the science of a meaningful life, including topics like: awe, compassion,
resilience, reconciliation, altruism, and happiness. Check out this recent article from GGSC fellow Jia Wei Zheng, which describes his studies showing that self-compassion promotes personal improvement.

Timeline:
• **Application Window:** Feb. 11 – April 5, 2019
• **Winners Announced:** May 10, 2019
• **Funding Window:** September 1, 2019 - August 31, 2020

Funding:
• **Two fellowships will be awarded to undergraduates:** One GGSC Fellowship (up to $2,500), One Goldberg Fellowship (up to $5,000)
• **Four fellowships will be awarded to graduate students:** Three GGSC Fellowships (up to $10,000), One Hornaday Fellowship (up to $15,000)

GGSC research fellows have come from departments of psychology, integrative biology, sociology, neuroscience, urban studies, and other departments; the school of public health, education, social welfare, and Haas business; and the UC Berkeley-UCSF Joint Medical Program. Students can apply using our [online application](http://greatergood.berkeley.edu/about) starting Feb 11, 2019. The application deadline is Friday, April 5, 2019.

Applicants may contact GGSC science director Emiliana Simon-Thomas for more information at ggscfellowships@berkeley.edu. More information about the GGSC can be found at [http://greatergood.berkeley.edu/about](http://greatergood.berkeley.edu/about)

AASP West Regional Conference Hosted by Long Beach State University, 4/12-13/19

This spring, Long Beach State University will host the annual West Regional Conference for the Association for Applied Sport Psychology (AASP). The conference will take place in the Long Beach State University Kinesiology building on Friday, April 12 and Saturday, April 13th, 2019. This student-led conference is designed for students, academics, professionals, and those interested in learning more about the fields of Sport, Exercise, and Performance Psychology, as well as Coaching. The program will consist of keynote speakers, abstract presentations, poster presentations, and workshops.
More information including how to register or submit abstract submission can be found at our website: https://afajani93.wixsite.com/aaspwestconflbsu. If you can please share this information with your colleagues and students, as well as the attached flier, we would greatly appreciate it. Thank you in advance for your time. We hope to see you all at LBSU in April!

Techniques of Memory: Landscape, Iconoclasm, Medium, and Power, 4/17-18/19

The Global Urban Humanities Initiative at UC Berkeley is pleased to announce its upcoming symposium Techniques of Memory: Landscape, Iconoclasm, Medium and Power from April 17-
18, 2019 at the David Brower Center located in downtown Berkeley. Our symposium will bring scholars, practitioners, artists and activists from around the world to consider old and new techniques of building urban memory. Monuments are one way that cities embody memory, the symposium invites research, as well as current and past projects that redefine and recontextualize the monument and other media of urban memory in varying disciplines and periods.

We invite you to this exciting two-day conference and hope you will be able to attend. We have invited six exciting keynote speakers presenting and sitting as commentators for our panelists. These speakers are Austin Allen (DesignJones LLC, Louisiana State University), Jason Berry (investigative reporter and author based in New Orleans), Irene Cheng (California College of the Arts), Hans van Houwelingen (artist based in Amsterdam), Lauren Kroiz (UC Berkeley), and Marita Sturken (NYU). They will be speaking on a wide range of memory techniques that connect to our four themed panels: Landscape, Iconoclasm, Medium and Power. The four panels will consist of a total of 12 juried papers presented throughout the two days. The event is free and open to the public, and we encourage you to invite your interested colleagues as well.

For more information about the conference, please visit the Techniques of Memory page. You can register on the page and view the full schedule and speaker bios. The symposium is expected to sell out and advance registration is required.
Study Health Informatics at the University of Michigan, 5/1/19

Students in health-focused undergraduate degree programs, especially the pre-med track, often find their professional calling in Health Informatics. In this field, they are able to positively and profoundly impact health and healthcare outcomes by improving the systems through which healthcare is provided instead of working as practitioners or clinicians.

The Master of Health Informatics program is a two-year, residential graduate program at the University of Michigan. Health Informatics is one of the fastest growing fields in the nation, and our graduates are in very high demand among employers: 100% of our graduates begin a career in their chosen field within six months of graduation, with an average starting salary of $78,000 per year. Our graduates work in a wide variety of settings, from clinics and hospitals to healthcare and technology consulting firms.

Applicants from all academic and professional backgrounds are welcome to apply. Current MHI students represent a wide range of backgrounds, including social sciences, natural sciences, life sciences, engineering, business, and the health professions.

To learn more about the program, we would like to invite any interested students to join us at our upcoming MHI Virtual Information Session on Tuesday, February 19 at 8:00 p.m. (ET).

The final application deadline is May 1, 2019. For questions and tips on the application process, please contact T.J. Shannon, the Recruiting and Admissions Coordinator for the Master of Health Informatics Program at hi.inquiries@umich.edu.

Learn About Trauma and Resilience in Israel This Summer, 5/15/19

This summer, the Israel Center for Psychotrauma will offer a Trauma and Resilience course at Hebrew University in Jerusalem.

The course provides participants with a broad picture of the latest developments in the trauma field. Theories and research pertaining to the trauma, healthy coping processes and possible pathological consequences will be presented. Students will learn about the risk of developing PTSD, related distress and potential protective factors. Guiding principles for clinical programs treating post-traumatic disorders will be discussed. The academic curriculum will be further enriched by field visits and opportunities to practice experiential techniques. The course is open to professionals and advanced students in the mental health and social service fields.

Additional information can be found at https://metiv.org/international-trauma-resilience-summer-course/. If you would like to register or have any questions, please do not hesitate to contact traumainternational@metiv.org.
TRAUMA & RESILIENCE
SUMMER 2019
THEORY & PRACTICE FROM
THE ISRAELI EXPERIENCE

This program aims to provide participants with a broad picture of the latest developments in the trauma field. Theories and research pertaining to the consequences of trauma, healthy coping processes and possible pathological consequences will be presented. Students will learn about the risks of developing PTSD, related distress and potential protective factors. Guiding principles for clinical programs treating post-traumatic disorders will be discussed.

The academic curriculum will be enriched by the following experiences:
- A field visit to a city-wide intervention program for strengthening resilience in the civilian population in the wake of war.
- Opportunities to practice experiential techniques for early intervention and treatment of traumatized individuals.
- Presentation of programs that have been implemented in Israel, which are aimed at building resilience and preventing pathological consequences of trauma.

**New MPH Program with Nutrition Concentration at UNC Chapel Hill**
Gillings School of Global Public Health

MPH - Nutrition Concentration

42 Credits - Offered Residential and Online

Master of Public Health Nutrition Concentration

The Nutrition Concentration focuses on the public health application of nutrition science, behavior change, communication, counseling and the effects of dietary culture on the individual and within the community. This concentration prepares students for work in public health agencies and non-governmental organizations where nutrition knowledge is more generally applied. Students will gain skills to:

- Use nutritional guidelines to promote healthy lifestyles.
- Design local and global nutrition programs that consider social, cultural, environmental, and community factors.
- Write evidence-based, nutrition-related communications for various media platforms.
- Promote and engage in policy that impacts the well-being of others.

Degree Requirements

Our 42 credit Gillings MPH is an innovative application-based approach to learning that considers public health in local and global contexts, consisting of:

- Core courses (12 credits) integrate concepts of public health, epidemiology, biostatistics, community assessment, behavioral and community-based interventions, program evaluation, health care systems and policy. While learning from a panel of collaborative faculty across specialty areas, students work in multidisciplinary teams to identify current issues in public health and propose real-world solutions.
- Nutrition courses (15 credits) include topics such as human nutrition and its influence across the lifecycle, communication, counseling, culture, policy, and population-based research.
- Elective courses (9 credits) provide students the opportunity to tailor their interests within or outside the field of nutrition, including topics such as health equity, social justice, global nutrition, leadership, etc.
- The Practicum & Culminating Experience (6 credits) allow students to apply their knowledge in a community setting, internship for a minimum of 200 hours and synthesize what they’ve learned in a policy brief, white paper, publication, grant proposal, clinical case report, business plan or other type of paper that will strengthen a career portfolio.

Melting the Shame Freeze Workshop, 2/23-24/19

Melting the Shame Freeze:

Using Somatic Techniques to Create Safety and Build Attunement
A Workshop for Therapists and Other Helping Professionals
With Bret Lyon PhD, SEP, BCC & Sheila Rubin LMFT, RDT/BCT

Saturday, February 23, 10am-6pm & Sunday, February 24, 10am-5:30pm
(Live in Berkeley, just off the I-80)

Friday, March 1, 8, 15 & 22 - 10am-1:30pm PT
(Online)

$350 full price / $325 with full payment by January 28
Special price for interns
13 CE Credits — CAMFT CE provider #134393

In this workshop, we will explore how to utilize somatic techniques to connect more quickly with the client and forge a strong therapeutic alliance.

We will:

- Focus on using breathing and grounding to resource the client, becoming more aware of our own breathing and expanding it in the process.
- Learn ways to help clients repair the disconnect between self and others—and between parts of the self—that have been created by shaming, inappropriate behavior or abuse.
- Explore how to keep our clients more present in the room with us and counter over-verbalization, dissociation and freezing.
- Learn techniques and theory from Wilhelm Reich (the father of somatics), Peter Levine (Somatic Experiencing), Ron Kurtz (Hakomi) and Eugene Gendlin (Focusing).

Mario Savio Memorial Lecture, featuring Robert Reich and March for Our Lives

Lecture | March 13 | 8-10 p.m. | Martin Luther King Jr. Student Union, Pauley Ballroom
Featured Speaker: Robert Reich, Chancellor's Professor of Public Policy, UC Berkeley
Speaker: March for Our Lives
Sponsors: College of Letters & Science, Goldman School of Public Policy, Library

The Mario Savio Memorial Lecture and Young Activist Award are presented annually to honor the memory of Mario Savio (1942-1996), a spokesperson for Berkeley's Free Speech Movement of 1964, and the spirit of moral courage and vision which he and countless other activists of his generation exemplified; to promote the ideas and values he struggled to advance throughout his life; and to recognize and encourage young activists striving to build a more humane and just society.

About the speaker:
Robert B. Reich is Chancellor's Professor of Public Policy at UC Berkeley and senior fellow at the Blum Center for Developing Economies. He served as Secretary of Labor in the Clinton administration, for which Time Magazine named him one of the ten most effective cabinet secretaries of the twentieth century. He has written fifteen books, including the best sellers "Aftershock," "The Work of Nations," "Beyond Outrage," and, his most recent, "The Common Good," which is available in bookstores now. He is also a founding editor of the American Prospect magazine, chairman of Common Cause, a member of the American Academy of Arts and Sciences, and co-creator of the award-winning documentary, "Inequality For All." Professor Reich is the co-creator of the Netflix original documentary "Saving Capitalism," which is streaming now.

Target audience: All Audiences
Open to audience: All Audiences
Attendance restrictions: Free admission. Open to the public; first come, first served.

**BLC Lecture-The Multiliteracies Framework and Interpretive Communication, 3/1/19**

*The Multiliteracies Framework and Interpretive Communication: Curricular and Instructional Perspectives*

**Kate Paesani**
Director, Center for Advanced Research on Language Acquisition (CARLA)

Over the past two decades, postsecondary foreign language programs have experienced a shift away from an emphasis on oral communication toward more text-based curricula and the development of students’ multiple literacies. This “literacy turn” prioritizes overlapping language modalities, interpretation and creation of multimodal texts of various genres, and linguistic, cognitive, and sociocultural dimensions of learning. In this talk, I examine interpretive communication through this literacy lens, focusing in particular on curricular and pedagogical applications of authentic audio and video texts using the knowledge processes framework of multiliteracies pedagogy (Cope & Kalantzis, 2009; Kalantzis, Cope, Chan, & Dalley-Trim, 2016). I begin by outlining a rationale for literacy-oriented curriculum and instruction, and then describe an ongoing project at the University of Minnesota to develop students’ interpretive listening and viewing abilities through multiliteracies lesson plans. Next, I present findings from two studies related to this project—one on lesson plan analysis and one on teacher learning—and conclude with implications for postsecondary language programs and teacher professional development.

First-Generation Career Conference 2019

We are happy to announce the 2019 First Generation Career Conference, which will take place on March 1 at 1:00-6:00 PM at the Career Center! The event is hosted by the Career Center and sponsored by Workday. The keynote speaker will be Jennifer Cabalquinto, CFO of the Golden State Warriors.

This event will bring together students, staff, and industry professionals to discuss topics around career development and issues facing first-generation students. This conference is a great way for first-generation students to discuss shared experiences, learn more about career development (on topics such as mentorship, personal branding, networking, and more) and connect with professionals across many industries.
We will kick off the conference with a dynamic keynote speech followed by concurrent workshops presented by employers and campus partners, and a networking session for students to informally meet alumni and professionals across industries.

Below is the agenda:
1:00-1:10pm Opening
1:10-1:50pm Keynote Speaker
2:00-2:50pm Workshop #1
3:00-3:50pm Workshop #2
4:00-4:30pm Break/Activity
4:30-5:30pm Networking Session
5:30-5:40pm Closing
5:40-6:00pm Informal Conversations (optional)

Interested students in these programs can register now on Handshake by clicking here.

➤ Fung Fellowship: Round 2 Applications

Round 2 for FF Applications are OPEN: Apply now for the 2019-2020 academic year!!

The Fung Fellowship for Wellness and Technology Innovation Program:
The Fung Fellowship is a unique opportunity for rising juniors of ALL MAJORS to participate in an interdisciplinary fellowship experience at the intersection of public health, design, and digital technology. Students work in teams to create innovative health and wellness solutions to address real-world challenges alongside our community and industry partners. Fung Fellows utilize the iterative human-centered design process, public health principles, and emerging technology, such as VR, AI, machine learning, and blockchain.

As a Fung Fellow you will:
- Explore the Health + Tech space
- Experience the design process from prototype to product
- Embed in communities to co-create with them
- Establish yourself as a young leader in an emerging field

Selected Fung Fellows attend a 3-unit course each semester, are supported in a summer internship, and have the opportunity to apply to a second year honors program.

Required Qualifications:
- Registered student at UC Berkeley
- Rising Junior (current Sophomore) with a passion for health, wellness, social impact, design, and/or technology

How to Apply:
- Learn more about the program at: https://fungfellows.berkeley.edu/
- Please apply by completing this online application form.
• Deadline to apply: **February 22nd, 2019 11:59pm PST**. We will begin interviewing candidates on a rolling basis.

**Volunteer in a Focus Group!**

You are invited to participate in a focus group for a new UC Berkeley study analyzing **Instagram images** on health-related topics!

You will share your thoughts on a **hot-button issue**, which many health officials consider a **public health crisis!**

You will spend about **45 minutes** discussing health topics and your social media use habits in a group of 3 to 5 participants.

At the end of the focus group, you will receive a **gift card**. Interested? Please email researcher Julia Vassey at: socialmediastudy@berkeley.edu

**LinkedIn Lab for L&S: Building Your Profile**

**LinkedIn Lab for L&S: Building Your Profile**
Thursday, Feb. 28th, 2019, 12-1pm
Career Center, Blue Room

Have you made a LinkedIn profile, but are wondering how to make it stand out from the crowd? Your profile is part of your professional brand and should be used as an asset with fellow professionals and potential employers.

In this hands-on lab (laptop required), you will:
- get tips and best practices for building your profile;
- learn about each section of the profile and what components go into them,
- preview other ways to start getting the most out of the platform.

You'll leave the session with the tools to continue building a polished profile!

**Prerequisite:** Make a LinkedIn profile. Please bring a laptop as there will be hands-on activities during the session.

**RSVP** highly recommended!
