Camp Baker: Psychology Trainees Wanted!
Roots LA Teaching Pathway, 4/28/20

After graduation, how will you launch a high-impact career?

Roots LA Teaching Pathway is the first teacher training program of its kind. This program offers college juniors (and a select number of seniors) the opportunity to train to become teachers in Los Angeles, earn a job offer at the end of this summer’s training, and those who successfully complete the summer training program receive a $2,000 summer stipend. We look for accomplished individuals with deep content knowledge to teach critical subjects where great teachers are often in short supply, like Bilingual Education (Spanish), Math, Science, and Special Education. Read more on our informational site and apply before our final deadline on April 28th.

Fall 2020 Transfer Student Center Internship, 5/8/20

The Transfer Student Center is offering leadership opportunities for transfer students. We have positions in Outreach, Education 198 Course, Events/Programming, and Operations. Students can earn up to 1-2 academic units for this exciting opportunity.

APPLY TODAY: www.transfers.berkeley.edu/internship
Application due on Friday, May 8th at 11:59pm
Chicago Booth Full-time RA position with Professor Hitsch

Professor Günter J. Hitsch is hiring a full-time research assistant to start around July 1, 2020. This full-time RA will be working on projects at the boundary between Business Analytics/Quantitative Marketing and Industrial Organization. This position has been an excellent preparation for PhD programs, with previous participants going on to institutions like MIT, Harvard, Berkeley, Stanford, and UChicago.
If interested in working with Professor Hitsch for a year, or, preferably, two years before applying to graduate school, a job description with information on how to apply can be found at http://bit.ly/Hitsch2019

Camp Baker Summer Treatment Program

Camp Baker at Judge Baker Children’s Center currently has eighteen undergraduate-level summer training positions available. Camp Baker is a therapeutic summer program based off of the Summer Treatment Program (STP) and is specifically designed for 6-12 year old children with ADHD. The STP has positive effects on the serious behavioral, social, and academic difficulties exhibited by children diagnosed with ADHD.

Summer trainees at Camp Baker will implement the treatment program in a camp setting for children with ADHD. They will receive extensive training and experience implementing the research-based intervention. Students with STP experience are often highly sought-after in graduate training programs in clinical psychology, social work, medicine, and education. Previous trainees within Camp Baker have gone in to successful careers in all of these fields. Camp Baker is currently accepting applications for two roles: 1) Undergraduate Counselor and 2) Teaching Assistant. Please visit our website for a detailed description of roles and responsibilities for each position: https://campbaker.org/training-opportunities/

All aspects of the training program are supervised by a licensed clinical psychologist. Trainees typically gain over 200 hours of experience providing treatment directly to children. Opportunities for participating in behavioral parent training groups are also available. Trainees complete a week-long training prior to the start of treatment and receive ongoing supervision.

Training begins Wednesday, July 1, 2019 with the July 4th holiday off. Camp Baker runs from Wednesday, July 8th and continues through Friday, August 14th, 2020. Trainees typically work from 7:30am until 4:30pm and stay from 7:30am-6pm one evening per week. The stipend for undergraduate-level positions this summer is $1,000.

Interested applicants should apply on the website under the training tab. Mandatory materials that must be uploaded are listed below:

- A cover letter describing your professional development goals and how Camp Baker might fit with those goals
- A current CV
- A de-identified assessment report, treatment report, or other psychology-related writing sample
Internship and Volunteering Opportunities: Week of April 20, 2020

- The name and contact information for your practicum coordinator (for applicants looking to gain practicum or academic credit)
- Three letters of recommendation (sent to Dr. Tannenbaum from the recommender directly through the website)

UCSF CAN Lab Open ACRC Position

The Clinical Affective Neuroscience Lab has an opening for an Assistant Clinical Research Coordinator that will start in May/June and a former Berkeley student suggested that we contact you to spread the word to prospective candidates in your departments. This role is excellent for students who are interested in gaining more research experience prior to attending graduate school.

The goal of our research is to advance our understanding of the neurobiological basis of affective symptoms, which are a common and debilitating feature of many neurological and psychiatric disorders. We use multiple methods from affective science (e.g., psychophysiology, facial behavior, and self-reported experience) to quantify emotion in neurodegenerative diseases, psychiatric illnesses, neurodevelopmental disorders, and healthy individuals. The Assistant Clinical Research Coordinator is involved in collecting and analyzing data, scheduling and communicating with participants, and other relevant duties.

Research assistant position

Position Definition:
Researchers from the San Francisco VA Medical Center; Northern California Institute for Research and Education (NCIRE); and University of California, San Francisco are conducting several research studies in trauma survivors with posttraumatic stress disorder (PTSD) and insomnia involving psychophysiological and sleep measurement. The incumbent will assist in study coordination and recruitment for these multiple research projects related to PTSD. The lab is seeking at least a 2-year commitment for this position. This is a full-time position with potential to work on collaborative projects within subject areas of sleep disorders and PTSD. Salary will be commensurate with education and relevant experience.
Internship and Volunteering Opportunities: Week of April 20, 2020

**Essential Functions:**
- Manage subject recruitment, screening, enrollment, subject tracking, scheduling, correspondence, appointment reminders as well as coordinate subject payments
- Conduct telephone screening interviews on psychiatric and medical symptomatology with participants to pre-assess for study eligibility
- Act as liaison with the multidisciplinary study team (e.g., clinical interviewer, physician, laboratory) in determining study eligibility, coordinating study procedures, and ensuring adherence to study protocol
- Coordinate all aspects of data management, including entry and verification
- Processing sleep and psychophysiology data
- Program and maintain psychology/psychophysiology experiments and related hardware and software
- Prepare and manage Institutional Review Board Documentation and other Regulatory Documents
- Manage shipment of biological samples to offsite laboratory, sample tracking, correspondence with laboratories
- Perform other duties as assigned

**Job Requirements:**
- BA or BS in psychology or related field
- 1-2 years previous experience in human subjects research
- Ability and experience in conducting and coordinating psychological research studies, including recruitment and tracking of participants, data entry and management using database software (e.g., Excel, Access), analyzing and interpreting patient medical and psychiatric records
- Ability to communicate with individuals of varying educational and social backgrounds about potentially sensitive issues. Prior experience in a mental health setting is preferred
- Prior experience in psychophysiology measurement, experience using Biopac or similar equipment is strongly preferred but not necessary
- Computer literacy with emphasis on Windows operating systems and psychology software applications (e.g., AcqKnowledge, Inquisit, SuperLab, Qualtrics)
- Experience preparing and managing Institutional Review Board (IRB) submissions and other regulatory documentation is preferred but not necessary
- Prior experience collecting, organizing, and shipping biological samples is preferred. Familiarity with Freezerworks or other biological sample software is not necessary but would confer an advantage
- Excellent interpersonal, written and oral communication skills
- Must be highly organized and detail oriented
- Ability to work under minimal supervision and problem solve
Casa de Esperanza Internship Program

I am with Casa de Esperanza, a non-profit in Houston, Texas. Casa de Esperanza provides residential care to children birth through six who are in crisis due to abuse, neglect, or the effects of HIV. Care is provided in our neighborhood by our Hands of Hope interns. Our interns, most of whom are recent college graduates, join us for a year of service (a twelve-month full-time post-graduation internship). Applicants wishing to complete shorter internships are considered on a case by case basis. We provide on-site housing (interns live with the children they are caring for) and interns join us from all over the United States to be part of our internship program.

Information about our internship may be found here:
https://www.casahope.org/hands-of-hope-internship
The application for our internship may be found here:
https://www.casahope.org/application-part-one
Interns in our program gain valuable experience that is relevant to a number of fields and future career goals while simultaneously making a meaningful difference in the lives of a vulnerable

SFVAMC research volunteer position

San Francisco VA Hospital PTSD Research Program Volunteer
Sleep and PTSD Research Assistant

The Stress and Health Research Program at the San Francisco VA Medical Center and the University of California San Francisco (UCSF) is seeking volunteer Research Assistants to assist with research studies focused on PTSD.

The Research Assistant will be responsible for assisting with the day-to-day operations of research projects on PTSD and sleep. The research assistant will perform duties including: recruitment procedures such as preparing and sending recruitment mailings; telephone screenings with potential participants for eligibility purposes; assisting in tracking participants participating in studies; and data entry and data cleaning. Additional activities, depending on time and duration of commitment, may involve administration of the study protocol including guiding and supporting participants through study visits, administration of electrophysiology procedures (e.g.
EEG, EMG, ECG); administration of cognitive testing; and other research-related tasks necessary for implementation of the studies, such as literature reviews, table/slide construction, collection of relevant documents; and general office management.

The ideal candidate will:
- Possess or be in a BA/BS degree in psychology, pre-med or a related field
- Possess strong interpersonal and oral communication skills
- Possess familiarity with diagnostic and therapeutic issues related to PTSD
- Possess prior research experience

Additionally:
- Prior experience in clinical settings is desirable
- Commitment to working Mondays is preferable
- Ability to work 2 weekend days per month is required for candidates interested in administering electrophysiology procedures
- Minimum time commitment is 8 hours per week
- 1-year commitment is required

If you are interested in applying for this position, please email a cover letter and resume to the following email address with the subject heading “PTSD Volunteer Research Assistant”:
emily.staggs@va.gov

CADB Research Assistant Position at Weill Cornell Medicine

The ASD and Developmental Science Lab (PI: So Hyun “Sophy” Kim, Ph.D.; https://www.kimasdlab.com/) at the Center for Autism and the Developing Brain (CADB) at Weill Cornell Medicine is currently seeking full-time research assistants to work on research studies on children with autism spectrum disorders (ASD) including NIH funded studies examining early autism symptoms and validating innovative, early interventions for toddlers with ASD (PIs: Sophy Kim, Cathy Lord, Adriana DiMartino, Jim Rehg). The RA's primary responsibilities include behavioral coding, subject recruitment, testing participants with standardized assessments as well as play-based assessments, managing and analyzing datasets, and preparing and maintaining IRB protocols. Based on the previous experience and qualifications, the RA will be also trained to deliver interventions to target language skills in toddlers with ASD.
The expected start date for the position is Summer 2020. This is an excellent opportunity for an individual who would like to gain research experience prior to attending graduate school.

Interested applicants should send a CV, names and contact information for 2 references, and a cover letter describing relevant experience, interests, and long-term goals to Dr. Sophy Kim (sok2015@med.cornell.edu).

Position Activities:
- Codes videos of parent child interactions.
- Recruits subjects for research studies based on study recruitment criteria.
- Delivers interventions to children with ASD (for qualified candidates).
- Maintains paper and electronic research and clinical records.
- Organizes, schedules, and conducts clinical research assessments using specialized interviews and psychological assessment measures (e.g., cognitive testing, such as Mullen Scales for Early Learning, and autism testing, such as Autism Diagnostic Observation Schedule (ADOS)).
- Conducts literature searches and provides manuscript preparation support.
- Assists with preparation of grant proposals and IRB applications and amendments.
- Collects and updates data sets including test scores, demographics, and training records.
- Carries out and prepares written reports of simple statistical analyses.
- Performs other related duties as assigned.

Minimum Requirements
- Bachelor’s degree in psychology or related field and related experience.
- Transportation required for local travel.
- Previous intervention experiences with children with ASD preferred, but not required.

Highly Desired Requirements
- Experience with autism or with children and families with developmental disabilities or mental health issues preferred.

Skills and Abilities
- Superior interpersonal, organizational, and communication skills.
- Familiarity with software including EPrime, R, SPSS, MS Word, Access, and PowerPoint. SAS, Stat, Medline, PsychInfo, and other library resources are advantageous.
- Must be able to coordinate a large data set with accuracy and provide timely dissemination of information arising from it.
Note: No relocation assistance is provided for this position. Visa sponsorship is not available for this position. Weill Cornell Medical College is an employer and educator recognized for valuing AA/EOE/M/F/Protected Veterans, and Individuals with Disabilities.
Contact: Please send cover letters and resumes to Dr. Sophy Kim sok2015@med.cornell.edu.

Summer research internship at the Social Origins Lab, UC Berkeley

The Social Origins Lab at UC Berkeley is now accepting applications for their summer research internship. The goal of this internship is to provide highly motivated and curious-minded students with the opportunity to gain hands-on research experience in the field of developmental psychology.

Under the direction of Dr. Jan Engelmann, the lab explores how social and cognitive abilities arise and interact with one another in human development and across species and cultures. In doing so, our research studies primarily involve working with children of various age ranges. The summer intern will work closely with graduate students and the lab manager to facilitate the research process. Responsibilities for the intern will include running research studies with young children, helping to recruit participants, collecting and coding video data, and assisting with administrative tasks. Previous research experience is beneficial, but not required.

Tentative dates for the internship are June 29th - August 7th, with an expected commitment of 30 hours/week. A stipend of $2250 will be provided.

For more information, and to apply, please visit https://socialorigins.berkeley.edu/opportunities/
Please direct any questions to Alissa Gomez at socialoriginsmanager@berkeley.edu.

Do the Bay Summer Internships

Love being on the guest list?
All about the local music, events, and nightlife scenes?
We want you to join DoTheBay!

If you’re looking to gain invaluable real-world media and music industry experience, you’ve come to the right place. Are you energetic, smart, organized, reliable, creative, and love being the leader of your group (i.e. a magical unicorn)? We want you to join the DoTheBay Team!
We're currently looking for interns to assist in the following fields -- bonus points if you can contribute in multiple areas:

- **Content**: front and back-end site management, event creation, content curation, analytics, etc. Someone who is in the know of what's going on every week around the SF Bay Area and is also tech-savvy.
- **Social Media**: Marketing and communication backgrounds and/or previous experience running social media for a business/brand/organization preferred. Bonus points if you're interested in social analytics and are on the pulse of all things happening locally.
- **Editorial**: Journalism backgrounds and/or previous experience writing short-form editorial for a business/brand/organization preferred. Looking for funny, witty writers who have their own unique style but can also write within DoTheBay's voice. You should be on the pulse of all things happening locally, but also excited to take a deeper dive into one or more fields including: music, food and drink, local news and culture, etc.
- **Sales & Business Development**: Business and marketing backgrounds with some level of real-world sales experience preferred.

Skills we’re looking for: Detail-oriented, comfortable writing quickly and creatively, reliable, and down to party. We are serious about the last one.

Bonus points if you have skills in: HTML, CSS, Photoshop, Illustrator, Premier, Photo, Video and/or overall tech-savviness.

Double bonus points if you're all about live music, going to events, and enjoying all that the SF Bay Area has to offer.

Sound like something you're interested in? Great. We can't wait to meet you. Email the following to info@dothebay.com

- Résumé
- Cover letter
- Portfolio and/or relevant examples of past work
- Social media links (optional)
- Which position you're applying for

Camp Baker: Psychology Trainees Wanted!

Camp Baker is now accepting psychology trainees for a fun opportunity to gain direct service hours over the summer

Have your summer classes been cancelled? Are your summer internships no longer happening? Do you need something to do?

Apply to be a counselor at Camp Baker!

Camp Baker at Judge Baker Children’s Center currently has graduate-level and undergraduate-level summer training positions available. Camp Baker is a therapeutic summer program based off of the Summer Treatment Program (STP) and is specifically designed for 6-12 year old children with ADHD. The STP has positive effects on the serious behavioral, social, and academic difficulties exhibited by children diagnosed with ADHD.

Camp Baker is currently accepting applications for three roles: 1) Graduate Counselor, 2) Undergraduate Counselor, and 3) Teaching Assistant. Please visit our website for a detailed description of roles and responsibilities for each position:

https://campbaker.org/training-opportunities/

All aspects of the training program are supervised by a licensed clinical psychologist. Trainees typically gain over 200 hours of experience providing treatment directly to children. Opportunities for participating in behavioral parent training groups are also available.

Trainees complete a week-long training prior to the start of treatment and receive ongoing supervision. Training begins Wednesday, July 1, 2019 with the July 4th holiday off. Camp Baker runs from Wednesday, July 8th and continues through Friday, August 14th, 2020. The stipend for graduate-level positions is $2,500 and the stipend for undergraduate-level positions is $1,000.

For more information, check out our website, FAQs, or contact us!
phone: 617.278.4286, email: campbaker@jbcc.harvard.edu
