Geospatial Innovation Facility Zoom Workshops, 4/20/20-5/8/20

The Geospatial Innovation Facility (GIF) is now offering their upcoming workshops online using Zoom! Attendees will be required to download and install (free) data and software on their own computers to follow along with these activities.

Please register here for any workshops you'd like to attend this semester!

Introduction to BashGit
April 27 | 9:00 AM to 12:00 PM | Register for Zoom link

The first half of this workshop will introduce you navigating your computer’s filesystem and basic Bash commands to remove the fear of working with the command line to give you the confidence to use it to increase your productivity.

The second half of this workshop will introduce you to Git, a powerful tool for keeping track of changes you make to the files in a project. You can use it to synchronize your work across computers, collaborate with others, and even deploy applications to the cloud. In this workshop, you will learn the basics to understand and use Git, including working with the popular "social coding" website, GitHub.

Introduction to Artificial Neural Networks in Python
April 29 | 1:00 PM to 4:00 PM | Register for Zoom link

This workshop introduces Artificial Neural Networks (ANNs), a group of popular machine learning algorithms. No prior knowledge is required, though previous experience with other machine learning algorithms would be helpful.

**Featured Programs: Australia, Japan, South Africa**

**Canberra, Australia** - [International Security](#) *(Spring semester, open to Jr, Sr, Gr)*

Conflict. War. Terrorism. Governments, global organizations, and businesses are working to counter threats to peace and security. In Australia's capital, Canberra, you’ll get a close-up look at current issues facing international security. Through war games and crisis simulations, learn about the decision-making involved in international security situations. If you're interested in joining the United Nations, intelligence agencies, or other similar careers, you'll get the practical experience through an internship or a research project. The seat of Australian federal government, Canberra is a cosmopolitan atmosphere that contrasts with its surrounding nature reserves. After hours, take a moment to decompress at a nearby beach, park, or snow field.
Sendai, Japan - Engineering and Science (Spring semester, open to Jr, Sr, Gr)

Conduct research at Tohoku University, known for developing innovations and hands-on learning. Guided by a faculty supervisor, work in a lab with international and Japanese students on the new Aobayama campus. Less than two hours from Tokyo, Sendai’s slower pace lets you focus on your studies while still experiencing Japan. Castles, temples, and shrines offer a glimpse of Sendai’s history. An architectural oddity, the Sendai Mediatheque serves as the city’s cultural center.
Cape Town, South Africa - Explore South Africa (Spring semester, open to Jr, Sr)

On South Africa’s southwest coast sits Cape Town, an undeniably beautiful city. From brightly painted facades and Afro-chic interiors to striking street art, vitality flourishes in Cape Town. If you’re majoring in the social sciences or are passionate about community, you’ll love the volunteer projects in local townships promoting ecological conservation, criminal justice, and literacy. Expand on field courses in marine biology with a trip on your own to Walker Bay for land-based whale watching. Hike or take a cable car to the top of Table Mountain to see the incredible 360-degree view of Cape Town.

**Mental Health Support**

Scheduled appointments

- During this reduction in services, ALL appointments will be held over the phone and will be shorter than usual, given reduced service hours. If you already have a scheduled appointment with Dr. Barrios or Dr. Peña, they will be reaching out for a phone session at the time of your appointment. We understand that it may be difficult to access a private space with short notice, so please let us know if you need to reschedule or cancel based on travel/transition needs.
  - Dr. Bianca Barrios (510) 664-5342
  - Dr. Diana Peña (510) 664-7483

- Those new to mental health counseling (and not in crisis) may also call to access phone support, case management, referral support, etc. As our hours will be limited, calling our voicemail is NOT the best resource if you are in crisis or need urgent support. See below for info on urgent emotional support***.

**Communication**

- Given the fluidity of this situation, please check emails from the eTang secure messaging system, as this is a primary way counselors will update you with last minute changes to services. They will also call your cell phone number for updates and scheduled phone appointments, so please make sure your Cal Central Mobile number has a voicemail box that is set up and can accept new messages.

**Additional Services**

- As of Monday, March 16th, all counseling groups, including the UndocuWellness in Action Group have been suspended until further notice. If you’re an existing member of USP’s skills group, please check your eTang messages and/or phone messages for additional details.
- Drop in hours (aka Let's Talk) are cancelled until further notice. In lieu of drop-in, additional phone appointment slots will be opened.
- ***For ANY urgent concerns or crisis mental health needs, please call CAPS at the Tang center (510) 664-7483 to speak with a counselor. For after-hours crisis support, please call 855.817.5667. For up to date info on CAPS services, please go to...

Weekly on Wednesday, 12pm-1pm.
Starting March 25, 2020
**The United States Public Interest Research Group Fellowship**

Our mission is to advocate for the public interest—to speak out for a healthier, safer world in which we're freer to pursue our own individual well-being and the common good.

Whether it’s working to stop the overuse of antibiotics in agriculture, addressing our country’s plastic waste crisis, or alerting people to threats in the marketplace, the problems we work on aren’t progressive or conservative. They’re just problems that our country shouldn’t tolerate any longer.

If you are ready to roll up your sleeves and win more results for the public, we’d love to hear from you.

You won’t just sit behind a desk. You’ll be out in the real world, working to protect consumers and enable citizens to lead healthier, safer, more secure lives. You’ll be recruiting new groups to join a coalition, speaking in a church basement or town hall to win a new endorsement, organizing a news event or rally, meeting with an editorial board, or doing whatever else it takes to get results. You’ll run a grassroots campaign office each summer during your fellowship where you’ll hire and manage a staff of 20 canvassers to raise money, build our organization and membership, and help win one of our key campaigns.

This is a one-year program, expressly designed to prepare future leaders with U.S. PIRG. We look for smarts, leadership experience, top-notch written and verbal skills, and an eagerness to learn. We value organizing experience, including building campus groups.

The target annual compensation for this position is $28,000 in the first year. U.S. PIRG offers a competitive benefits package. We also offer an excellent training program and opportunities for advancement.

We’re currently hiring for positions in multiple locations across the country, including Boston, Chicago, Washington DC, Los Angeles, Philadelphia and Portland, ME. If you’re flexible, you can apply for multiple locations. We accept applications on a rolling basis.

**Positions start in August 2020. Immediate positions also available.**

University of Colorado Survey Responses Requested

I am a student at the University of Colorado Denver and I am conducting research in air pollution. Many studies have addressed its detrimental effects on cancer, low birth weights, and other physical health concerns, but there is little literature focused on mental health concerns. I suspect there is a relationship between high levels of air pollution and anxiety rates. I have data on the air pollution (compiled EPA data bases). I need data on anxiety rates.

If I can get perhaps 30 responses, this will give me a good representation of anxiety rates among students in the Berkeley area. It would also contribute greatly to reducing global pollution as we plan on developing this research into a plan of action. If you are not able to help us out, I completely understand.

Here is a link to the survey: https://www.surveymonkey.com/r/G2SJQVJ

If you have any questions, please feel free to contact me or my research adviser Larry Erbert at Larry.Erbert@ucdenver.edu

Thank you for your time, I will appreciate any help at all!

**Processing Transfer Credit at this Time**

At this time, students should be advised to request that transcripts be sent electronically (if the transfer institution needs an email address, they should use busops@berkeley.edu). We are continuing to post transfer credit via this method.

A reminder that we cannot receive transcripts from students via email, they must come directly from the transfer institution. Alternatively, if an advisor receives an official transcript, they could send a pdf to busops@berkeley.edu.

If an electronic option is not available, we suggest that students postpone the request to send until after Shelter in Place (right now, April 7th). At this time, there is no one available to scan hard copy transcripts in Sproul due to Shelter in Place. And it might not be advisable for documents to linger with mail services. My hope is that as we know more about the extent of our time away from campus, and how in person services will be handled, we'll have better guidance on when to send so that action can be taken closer to receipt of the documents.

**L&S Virtual Front Desk**

Virtual Front Desk is a resource for students, staffed by the L&S Peer Advisers.

Students will now be able to access the L&S Advising Office's front desk services virtually by logging on to Virtual Front Desk Google Hangouts. The peers will be able to assist students with quick questions, help identify petitions and forms (and how to submit), support navigating which campus office to contact with questions, and explain how to make an L&S college advising appointment if students have difficulty.
Topics you can get help with through L&S Advising's Virtual Front Desk:

- Clarification on L&S College policies and procedures
- Help choosing petitions and forms (and guidance in submission)
- Support navigating which campus office to contact with questions
- Guidance in whether to make an L&S College Advising appointment or to use a different resource

Please note that this service is an open format, which allows students to join in and leave at their convenience. Students, therefore, will be able to hear questions posed by other students.

On the Virtual Front Desk webpage, you will find a calendar that indicates the hours. The calendar will be updated daily, depending on changes in peer availability.

This Virtual Front Desk service is in addition to the Google Hangout services that the peers are already providing in the evenings. For more information about those services, please review Virtual Office Hours w/ Peer Advisers.

**UC Berkeley Labor Center COVID-19 Resources**

The Labor Center has compiled resource lists for understanding new COVID-19 federal legislation and federal and state policy and assistance available to those affected by the pandemic. In the coming weeks and months, we will continue to review and update these pages with information on new COVID-19 legislation, regulations, analysis, and tools.
Student to Student Peer Counseling is a group of student counselors providing free, one-on-one, confidential, walk-in services to UC Berkeley students. As peer counselors, we provide a supportive atmosphere where students can openly talk about their feelings. All of us are extensively trained to cover a broad spectrum of topics, ranging anywhere from stress to suicidal thoughts, and are here to offer nonjudgmental, empathetic ears for whatever you're going through. We know that COVID-19 related events are stressful and anxiety-inducing, and want to be there for the UC Berkeley community should anyone need a space to talk openly about how they're doing and to develop their own solutions to problems and uncertainties. Please note that all our services are completely free and confidential.

Recently we have shifted to taking appointments via Zoom. You can make an appointment at https://sspc.berkeley.edu/appointments/, and we'll send you an email with the meeting link once you're scheduled. For more information, visit our website at sspc.berkeley.edu or send us an email at sspcemail@gmail.com. Hope everyone’s taking reasonable precautions and staying safe during these challenging times.

➔ UC Berkeley CAPS @ Tang is still open!

Tang remains open for urgent drop-in at the Tang Center: M-F, 10am-5pm

CAPS (Counseling and Psychological Services) is figuring out virtual options for counseling outside of the office, for that reason, they are limiting services to phone consultations and offering support for alternative ways to connect for counseling. **Psychology Decal Looking for a Co-facilitator!**

Looking for an additional co-facilitator for the 1:59 Autism Spectrum Disorders DeCal which will meet 1x/week for 1.5 hrs during fall. This is a seminar type course with a majority of the lectures by guest speakers or panels. This is an established course so there is not excessive workload for any new facilitators outside of the decal class time (maybe 1/2 hr/week prep time). Looking for lively facilitators who want to engage with the class and speakers. We will again have a very interesting speaker line up next semester. The course is very popular and fills up fast each semester. If interested please email spectrumdecal@gmail.com First timers are expected to attend a 2-hr facilitator training workshop and fill out some paperwork.

**Expanded - Class Schedule's Search by Major Requirement Feature**

Interested in easily finding Fall 2020 classes that fulfill a specific major requirement? The Search by Major Requirement feature on the Academic Guide's Class Schedule (classes.berkeley.edu) allows you to do so for 18 majors, including Bioengineering, Classical Civilizations, Cognitive Science, Data Science, Economics, EECS, English, Environmental Earth Science, Environmental Economics and Policy, Environmental Sciences, Gender and Women’s Studies, Integrative Biology, Mathematics, Molecular and Cell Biology, Political Science, Psychology, Sociology, and Urban Studies. This feature was made possible by the Student Technology Fund.

How to use this feature on classes.berkeley.edu:

- In the Major Requirements facet in the left-hand menu, select your requirement year. Generally, the requirement year is when you were admitted to Berkeley or to your major. Declared students can verify their requirement year in CalCentral’s Academic Progress Report (APR).
- Select your declared or intended major.
- Select the term in which you would like to search for classes in Summer 2020 and Fall 2020.

The resulting display includes all classes that fulfill any of the requirements in the selected major. Please be sure to read the text in the yellow box at the top of the results list to learn about specific conditions of the major you have selected. You can then filter to the sub-requirements and use the standard Class Schedule filters (such as Breadth Requirements and Classes with Open Seats) to narrow results.

Undeclared students can visit program pages in the Berkeley Academic Guide for detailed descriptions of major requirements. Declared students should consult their APR for details and degree progress thus far.

US/UK Longitudinal Study

Enforced social isolation and mental health:
An observational study of the psychosocial effects of quarantine during COVID-19

We're inviting adults in the US to take part in this study

Dr. Daisy Fancourt, University College London (UCL), is conducting a study to understand the mental health impacts of sheltering in place, and activities that may buffer against those effects. 70,000 UK residents have already enrolled in this important study.

The Center for Arts in Medicine and Americans for the Arts Action Fund have partnered with UCL to extend this study to the US. The results will help inform recommendations to improve well-being and resilience during and after the COVID-19 crisis. Results of this longitudinal study will be made publicly available on a weekly basis.

Participation involves completing a 10-15 minute online survey now and then answering a shorter follow-up survey once per week while social distancing measures are in place.

To participate in the study, please click here.

We invite you to share this study far and wide!
