Summer Session A: EPS - Earthquakes in Your Backyard

EARTH & PLANETARY SCIENCE Berkeley Summer Sessions 2020

EARTHQUAKES IN YOUR BACKYARD Earth and Planetary Science 20

Course Description:

Introduction to earthquakes, their causes and effects. General discussion of basic principles and methods of seismology and geological tectonics, distribution of earthquakes in space and time, effects of earthquakes, and earthquake hazard and risk, with particular emphasis on the situation in California.

Summer Session A - Six-Week Session: May 26 - July 2

T Th 12:00PM - 2:30PM | Course #12122 | 3 units

or

Summer Session D - Six-Week Session: July 6 - August 14

M W 4:30PM - 7:00PM | Course #12123 | 3 units

Summer Session A: Public Health - Nutrition in Developing Countries

PH 118:NUTRITION IN DEVELOPING COUNTRIES

We will focus on low- and middle-income countries because they experience the greatest burden of malnutrition, and because they face a unique context of limited financial and government resources. In this course, we will discuss the effects of nutrition throughout the lifecycle in pregnancy, infancy, childhood, and adulthood. We will focus on nutrition broadly including issues of undernutrition, micronutrient deficiencies, and obesity. We will also analyze and evaluate actions taken to ameliorate the major nutritional problems facing vulnerable populations in low- and middle-income countries.

**IT'S A PH MINOR AND MAJOR
ELECTIVE!**

M/W 8am-12pm
Dwinelle 79

Summer Session A: Public Health - Human Health & the Environment in a Changing World

Berkeley Public Health

PH N150B:

Human Health and the Environment in a Changing World

2020 Summer Session A

6 weeks

May 26 - July 2

M, TU, W, TH

12:00 pm - 1:59 pm

Morgan 101

Class #: 15639

Units: 3

Course description:

The course begins with a brief introduction and exploration of recent environmental health issues in the news. Next we delve deeper into the core areas of environmental health sciences: toxicology, exposure assessment, risk assessment, environmental epidemiology, microbial ecology, GIS and environmental legislation, regulations and policy. We examine the science, health considerations, and regulations of contaminants in air, water, and agriculture (food, pesticides) in the context of both developed and developing countries. We also introduce other key topics such as environmental justice and occupational health and safety. We use case studies to provide real-world examples of important environmental and occupational health concepts. Students who complete this course will have basic literacy in environmental health sciences. Many 150B students choose this area of concentration for graduate studies and/or their careers.

This course consists of four two-hour lectures per week. An average of 2.5 hours per week studying, reading, and writing outside of the class is expected. Students are strongly encouraged to talk to both the professor and the GSI to discuss course material and environmental health science in the broader sense, especially how the material fits with their own individual interests.

Charlotte D. Smith is a faculty member of the University of California, Berkeley School of Public Health, and a Visiting Professor at the Universidad Jesuita de Guadalajara - Instituto Tecnológico y de Estudios Superiores de Occidente (ITESO). Her research interests include the microbial ecology and control of waterborne pathogens, and using geospatial statistics to explore the pathway from environmental exposures, including contaminated water, to acute and chronic diseases (e.g., diarrheal and/or kidney disease). Current community-based participatory research in Guadalajara focuses on access to water as a human right under UN Resolution 64-292. Dr. Smith teaches Introduction to Environmental Health Sciences, Drinking Water and Health, and Applied GIS for Public Health. She is the faculty sponsor for the DeCal, Partners in Health and supervises graduate and undergraduate research.

Dr. Smith holds a BS in Microbiology from the University of Michigan, an MA in Community Health from the City University of New York, and a Ph.D. in Environmental Health Sciences from the University of California, Berkeley. She is a member of the United Nations Global Geospatial Information Management - Academic Network of the Americas, GIS Latin America, and the Organization of American States - Pan American Institute for Geography and History. She received the Jorge Matute Remus Award in 2019.

Summer Session A: Public Health – Global Health: A Multidisciplinary Approach

PH 112

2020 Summer Session A

May 28 – July 2

4 Units

Tu/W/Th 2pm-4pm

Location: LeConte 4

PH Major and minor elective. Can be used toward the 4+1 MPH. Fulfills one of two breadth requirements (Social & Behavioral Science and International Studies).

Summer Session A: Public Health – War and Public Health

Taught by Public Health faculty Dr. Pauline Lubens, this course will explore the impact of war on public health, both globally and in the United States. With the wars in Syria, Yemen, Iraq, and Afghanistan serving as case studies, PH196 will examine:

The effects of war and civil conflict on health infrastructure and systems, disease rates, and psychological, environmental, and behavioral health.

The effects of combat service on U.S. military and their families.

The effects of armed conflict and forced migration on refugees.

The course will also include panel discussions with members of the community who have experienced war and its health effects first hand – veterans and refugees.

Summer Session A: Tu/Th 4-7pm, 104 Barrows Hall

Class #15530

This is a 3.0 unit course

Summer Session A: Public Health – Introduction to Health Policy and Management

PH 150D

2020 Summer Session A

May 28 – July 2

M, Tu, W, Th

Course Opportunities: Week of April 6, 2020

10am-12pm

Morgan 101

Class #14875

Units: 3

Health policy and management applies concepts from economics, organization behavior, and political science to the structure, financing, and regulation of the public health and health care delivery systems. Introduction to Health Policy and Management (PH150D) is a three-unit breadth course that is designed to give students an overview of the health care system in the U.S. Students will also learn about current issues in U.S. health policy, health care reform efforts and proposals, and comparisons to other countries' health care systems, and contemporary organizational challenges experienced by the U.S. healthcare system.

Dr. Robin Flagg has over 25 years of experience in health policy development and advocacy. She has worked with numerous organizations including the California Association of Public Hospitals (CAPH), the Centers for Medicare and Medicaid Services (CMS) in the US Department of Health and Human Services, and Kaiser Permanente. Additionally, Dr. Flagg was the Director of Health Policy at the California Medical Association (CMA). Dr. Flagg's research interests include state policymaking, health care politics, and senior health care services. Dr. Flagg serves on the Board of On Lock, Inc. (a PACE plan). Dr. Flagg received both her PhD in Health Services and Policy Analysis and her MPH in Health Policy and Administration from UC Berkeley. Her BA was in Art History from Williams College. Following her BA, she worked for 3 years with US Peace Corps in Nepal.

Summer Session C: New Media R1B – Robots in Global Perspective

NWMEDIA R1B-001, 4 units

Robots in Global Perspective

Juliana Friend

Summer Session C | MTWR 2-4pm | 340 Moffitt Undergraduate Library

Robots will replace us. Robots will care for us in our old age. Robots are mere projections of the humans that make them. Each of these narratives has had a profound impact on how humans view themselves and their relationships with others. This course examines understandings of human-robot relations in a global perspective. By analyzing diverse social and political contexts,

Course Opportunities: Week of April 6, 2020

we will gain deeper insight into how worldviews get programmed into robots, and how robots shape our worldview.

We will explore a range of media from around the world, including:

A fiction story about a music-loving robot guarding oil fields in Nigeria

Contemporary films like *Ex Machina* and *I am Mother*

An anthropological study of social robots and nationalism in Japan

Case studies of humanoid robots built to improve road safety in Democratic Republic of Congo

Summer Session C: Com Lit – Sounding American

COMPARATIVE LITERATURE
Berkeley Summer Sessions
2020

**Sounding American:
Literature, Music, Technology and Race**
Comparative Literature 156AC

Course Description: What is meant when we say someone or something “sounds American”? Can a person sound like a certain gender, social class, sexuality, or race? How would we possibly define that sound? And what might it mean to think of a culture by the ways it sounds and listens, instead of how it looks or sees? This course will explore these questions and others by studying podcasts, poems, songs, novels, and the changing forms of sonic technologies like microphones, radios, MP3s, turntables, and more.

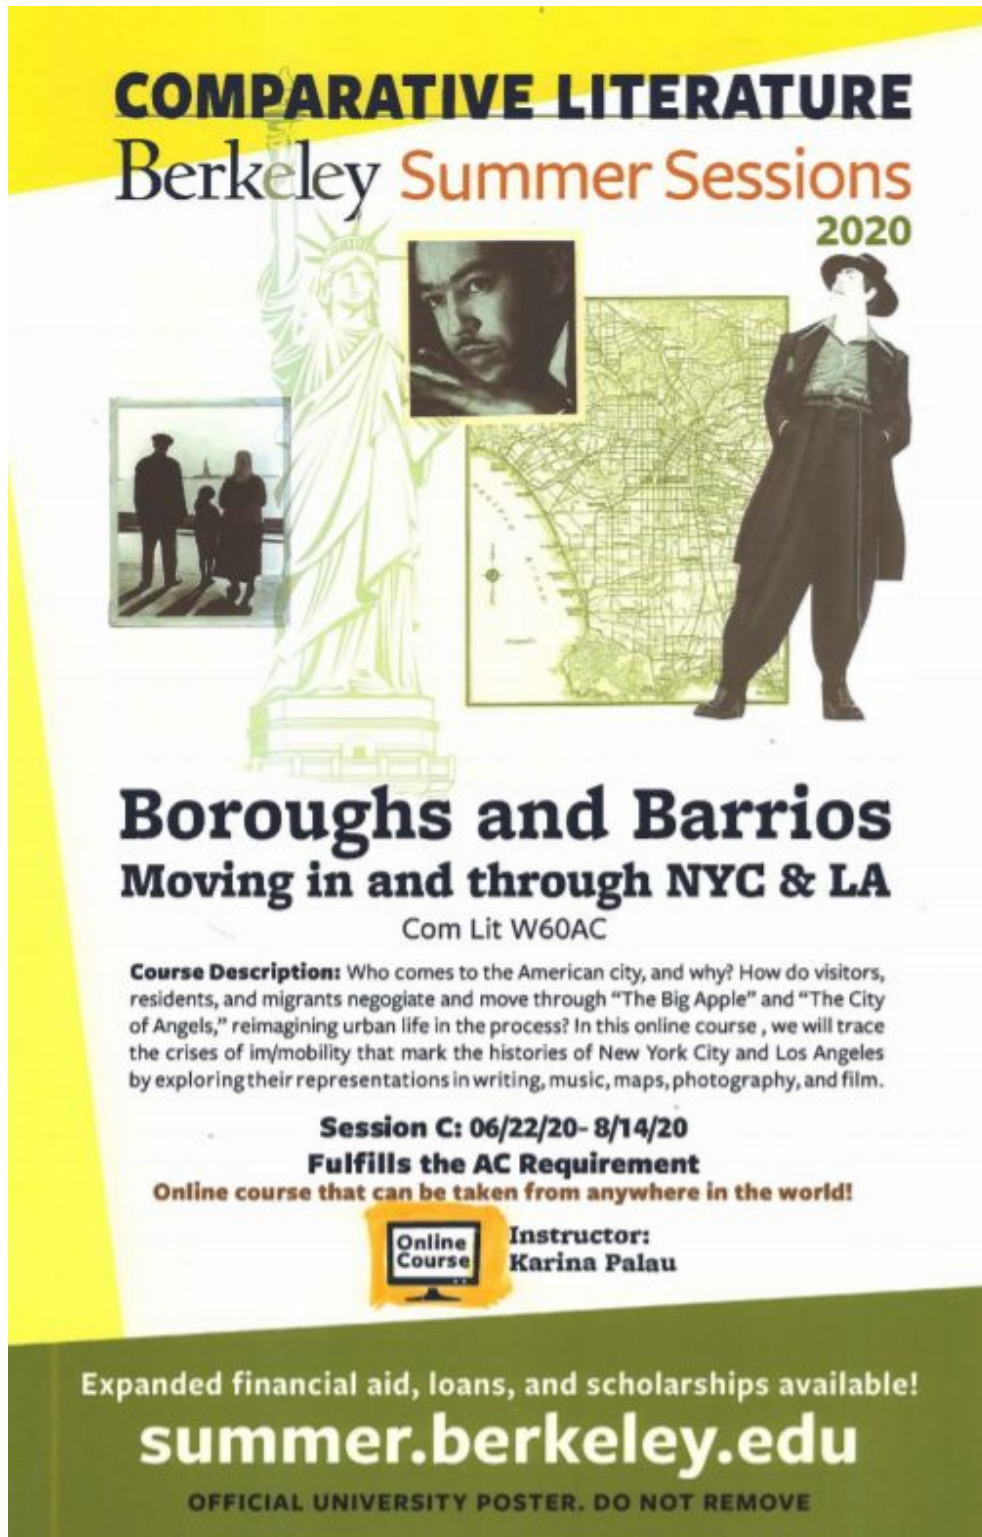

ONLINE COURSE – FULFILLS AMERICAN CULTURES (AC) REQUIREMENT

Summer Session C - Eight-Week Session: June 22 - August 14

OFFICIAL UNIVERSITY POSTER. DO NOT REMOVE

Summer Session C: Com Lit – Boroughs and Barrios

COMPARATIVE LITERATURE
Berkeley Summer Sessions
2020

Boroughs and Barrios
Moving in and through NYC & LA
Com Lit W60AC

Course Description: Who comes to the American city, and why? How do visitors, residents, and migrants negotiate and move through “The Big Apple” and “The City of Angels,” reimagining urban life in the process? In this online course, we will trace the crises of im/mobility that mark the histories of New York City and Los Angeles by exploring their representations in writing, music, maps, photography, and film.

Session C: 06/22/20- 8/14/20
Fulfills the AC Requirement
Online course that can be taken from anywhere in the world!

Summer Session C: EPS – Earth and Planetary Science W12

EARTH & PLANETARY SCIENCE
Berkeley Summer Sessions
2020

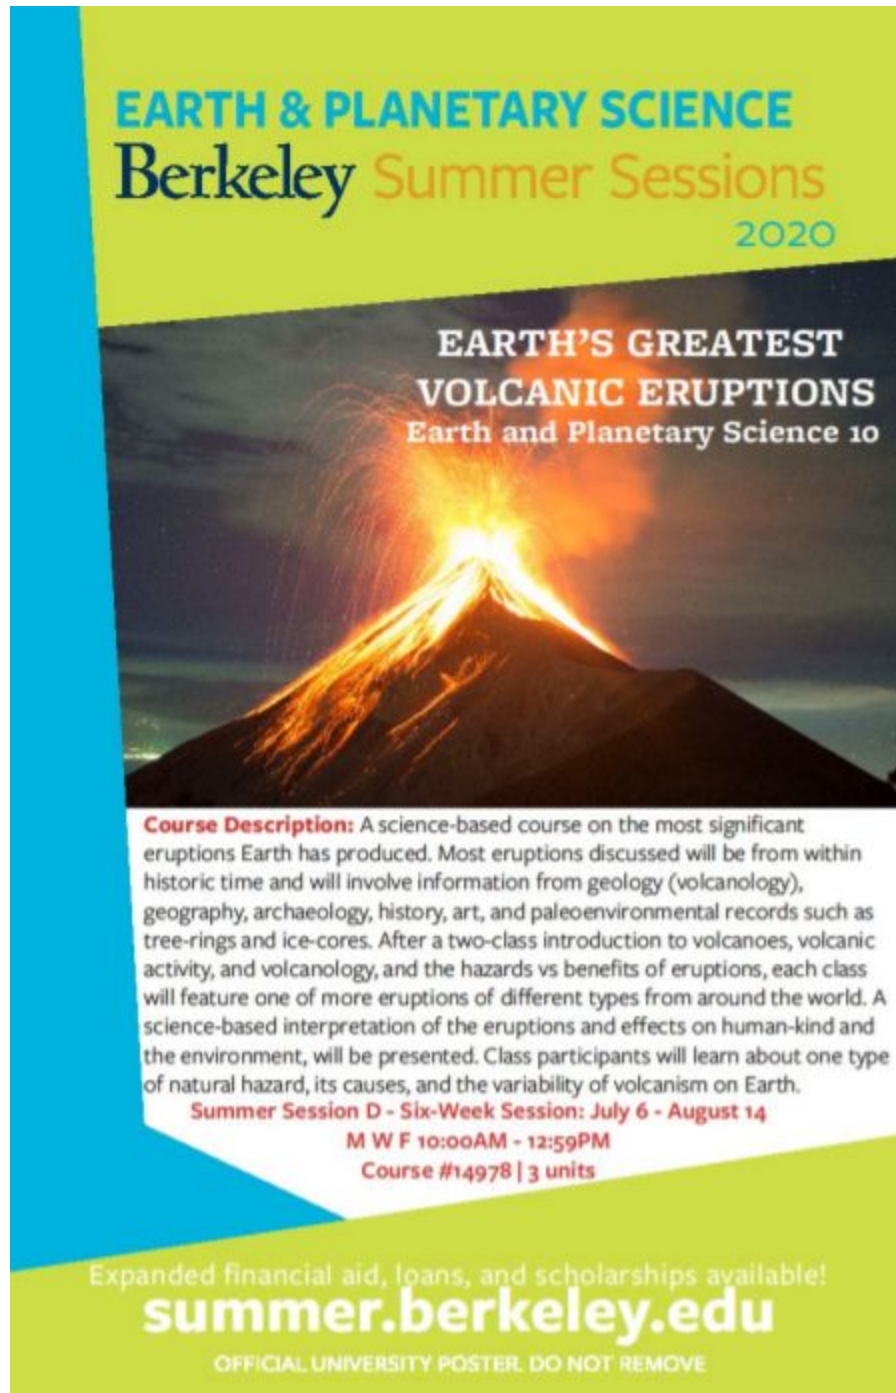

THE PLANETS
Earth and Planetary Science W12

Course Description: A tour of the mysteries and inner workings of our solar system. What are planets made of? Why do they orbit the sun the way they do? How do planets form, and what are they made of? Why do some bizarre moons have oceans, volcanoes, and ice floes? What makes the Earth hospitable for life? Is the Earth a common type of planet or some cosmic quirk? This course will introduce basic physics, chemistry, and math to understand planets, moons, rings, comets, asteroids, atmospheres, and oceans. Understanding other worlds will help us save our own planet and help us understand our place in the universe. This course is web-based.

Summer Session C - Eight-Week Session: June 22 - August 14
Online Class | Course #12121 | 3 units

Expanded financial aid, loans, and scholarships available!
summer.berkeley.edu

Summer Session D: EPS – Earth’s Greatest Volcanic Eruptions

EARTH & PLANETARY SCIENCE
Berkeley Summer Sessions
2020

**EARTH'S GREATEST
VOLCANIC ERUPTIONS**
Earth and Planetary Science 10

Course Description: A science-based course on the most significant eruptions Earth has produced. Most eruptions discussed will be from within historic time and will involve information from geology (volcanology), geography, archaeology, history, art, and paleoenvironmental records such as tree-rings and ice-cores. After a two-class introduction to volcanoes, volcanic activity, and volcanology, and the hazards vs benefits of eruptions, each class will feature one of more eruptions of different types from around the world. A science-based interpretation of the eruptions and effects on human-kind and the environment, will be presented. Class participants will learn about one type of natural hazard, its causes, and the variability of volcanism on Earth.

Summer Session D - Six-Week Session: July 6 - August 14
M W F 10:00AM - 12:59PM
Course #14978 | 3 units

Expanded financial aid, loans, and scholarships available!
summer.berkeley.edu

Summer Session D: Public Health – Women's Global Health And Empowerment

UCB SPH Summer Sessions D 2020

Women's Global Health and Empowerment

Time: Mondays & Wednesdays 11AM-2PM
(July 6 - August 14)
Location: 12 Haviland
Units: 2 or 3
Course: PH155B, CCN 15420
Instructors: Mara Decker, Denise Dunning, Anke Hemmerling

The course will provide core knowledge and skills from several disciplines on how to improve women's health and well-being globally, and it will follow a life course framework. It aims to expand students' understanding of the interconnected factors that influence women's health and empowerment -- including foundations of sexual and reproductive health, economic development, political frameworks and global reproductive rights, demographic and social changes, basic principles of empowerment theory, educational opportunities, and efforts to ensure gender equality. *No prerequisites.*

IMPORTANT: If you are planning to enroll in both PH 155B and PH 142 this summer, please make sure to sign up for the PH 142 discussion and lab sections #105 and #105A from 5-6pm. All other PH 142 sections (101/101A, 102/102A, 103/103A, 104/104A, 106/106A) are from 11am-12pm and would create a conflict with PH 155B.

UCB SPH Summer Minor in Global Public Health

This course can be used as an elective for the completion of the Summer Minor in Global Public Health.

Summer Session D: Public Health – Intro to Global Health Equity

Public Health 115: Summer Session D

Introduction to Global Health Equity

Class # 15527

Lecture: Tu/Th 12-2pm

Discussion: F 12-2pm or 2-4pm

3 units - maximum enrollment 40 students

Fulfills Social & Behavioral Sciences Breadth Requirement.

No prerequisites.

Faculty:

Dr. Phuoc Le, MD, MPH

ple@berkeley.edu | 415-476-4812

Visiting Faculty:

Dr. Sriram Shamasunder, MD

Ms. Sangeeta Tripathi, MPP

Course Description

Public Health 115 aims to serve as a toolkit for students who are interested in learning how to build their capacity to create social change for local and global health justice.

Students will learn about the historical and theoretical underpinnings of global health, how social determinants affect medical outcomes and health policy, the principles of international law and health economics, and the structure of health delivery models. In this process, students will engage in topics related to social factors that impact health, including class, race, gender, and poverty. Class discussions will address contemporary global health priorities through the lens of human rights activism.

Major themes:

- 1) Frameworks of Global Health Equity
- 2) Sociology of Medicine/Health Care
- 3) Global Health Governance
- 4) Contemporary Priorities of Health Inequity

Course Opportunities: Week of April 6, 2020

Objectives: By the end of the course, students will be able to...

- Think critically about and articulate the history, pathology, and causation of contemporary global health inequity
- Utilize basic research methods and work collaboratively in a team setting to complete a group case project
- Formulate comprehensive and equitable policy recommendations on global health cases
- Critically analyze and critique key grassroots global health advocacy efforts and models

Summer Session D: Psych 5 – Technology vs. Psychology

PSYCHOLOGY
Berkeley Summer Sessions
2020

**Technology vs. Psychology:
The Internet Revolution and the
Rise of the Virtual Self**
Psych 5

Course Description:
Online alter egos are stronger and sexier but also angrier, more impulsive, and less ethical. Psychological damage stems from the lack of privacy. Tech also contributes to wellbeing and new treatments.

Session D: July 6 - August 14
M W | 5:00 PM - 7:30 PM | 2 Units | VLSB 2060
Class #12562

Expanded financial aid, loans, and scholarships available!
summer.berkeley.edu
OFFICIAL UNIVERSITY POSTER. DO NOT REMOVE

Summer Session D: Psych 7 – The Person in Big Data

PSYCHOLOGY
Berkeley Summer Sessions
2020

The Person in Big Data
Psych 7

Course Description:
Principles & methods of personality & social psych applied to modern society--the collection & analysis of social "big data." Learn the ways it has been defined, collected, and utilized, as well as fundamental concepts.

Session D: July 6 - August 14
M W | 2:30 PM - 5:00PM | 2 Units | DWIN 145
Class #12417

Summer Session E: Psych 137 – Mind-Body and Health

PSYCHOLOGY
Berkeley Summer Sessions
2020

Mind-Body and Health
Psych 137

Course Description
Course explores the mind-body interactions in a dozen diseases/disorders from recurrent ailments (e.g., asthma, gastrointestinal disorders) and chronic diseases (e.g., hypertension) to "terminal" diseases (e.g., cancer, AIDS); also included are specific disorders of appetite, sleep, and sexual functioning.

Session E: July 27 - August 14
M T W T H F | 9:00 AM - 12:00 PM | 3 Units | Evans 60 | Class #12626

Expanded financial aid, loans, and scholarships available!
summer.berkeley.edu
OFFICIAL UNIVERSITY POSTER. DO NOT REMOVE

Summer Session E: Psych 138 – Global Mental Health

PSYCHOLOGY

Berkeley Summer Sessions

2020

Global Mental Health

Psych 138

Course Description

Global mental health seeks to alleviate suffering caused by mental disorders globally. Since the majority of mental health resources are concentrated in high-income countries, we focus on the mental health burden in low-resource settings. This course integrates the scientific evidence, cultural and contextual nuances, and interdisciplinary approaches of global mental health.

Session E: July 27 - August 14

Global Public Health Minor Summer 2020 Courses

UC Berkeley Summer 2020 Global Public Health Minor or Certificate Courses

We are currently in the midst of a **global** public health emergency. At least 152 countries have confirmed cases of COVID-19. It has never been more apparent than **now** that careers and expertise in global public health settings are crucial to the health and well-being of our communities.

The UC Berkeley undergraduate summer minor/certificate program in Global Public Health is alive and well and adapting to this changing global health environment. All summer minor/certificate courses for sessions A and D will be offered remotely. There may be opportunities for students to attend some classes on Campus in session D, but this is currently unknown. All courses will have synchronous (live/real-time instruction) during the scheduled time in the course catalog. There may also be asynchronous (offline instruction) components. **The summer minor/certificate can be completed in one or two summers.**

The Global Public Health minor is now offered to UC Berkeley Public Health majors. We are also excited to share that **all global public health minor/certificate courses will incorporate COVID-19 or pandemic-related content.**

Please visit our website, <https://publichealth.berkeley.edu/academics/undergraduate/global-public-health/>, or contact Program Advisors, Kimberly Henderson and Patricia Cruz, at sphug@berkeley.edu, for additional information.

There has never been a better time to get involved in global public health, so please join us!
