## Full-Time Research Assistant at University of North Carolina at Chapel Hill

### FULL-TIME POST-BACC RESEARCH ASSISTANT UNC Chapel Hill

A full-time research assistant position is available for individuals at the BA/BS level at the University of North Carolina at Chapel Hill, **beginning summer 2020**. The position will involve assisting/coordinating a federally-funded study of adolescent girls' depression, self-injury, and suicide. The project involves the use of structured diagnostic assessment, questionnaire observational, and EMA assessments, longitudinal methods, and physiological data collection integrating biological models of stress reactivity. This position is for 2 years. Research assistants will receive substantial training in developmental psychopathology theories and methods, participant recruitment; data management; supervision of undergraduate research assistants; general research administration; and assistance with the preparation of grants and manuscripts. This position offers excellent experience for applications to doctoral programs in clinical or developmental psychology, as well as other mental health fields.

Applicants with some experience in psychology research are particularly encouraged to apply. A Bachelor's degree in Psychology or a related field is required. Salary will be commensurate with qualifications. **Interested applicants should submit a vita/resume and the names and emails of two references to [mitch.prinstein@unc.edu](mailto:mitch.prinstein@unc.edu).** Review of applications will begin immediately. **Applicants will be contacted only if selected for further consideration.**

## Space Science Laboratory Job Opportunity

The Multiverse Education Team at the Space Sciences Laboratory is seeking a student to assist with organizing, promoting, and managing the annual B.A.T.S. Teen Career Conference for high school students on **Saturday April 11th in San Francisco**.

**Job includes:** updating websites; securing, managing, and communicating with event partners, volunteers, and participants; and setup/teardown and overall site/personnel management on the event date. Post-event the assistant is needed for debrief, documentation, and final

## Work Opportunities – Week of April 6, 2020

correspondence, along with additional website updating/management and some assistance with associated education programs through semester end.

**Qualifications:** Keen attention to detail required. Must have excellent written/verbal communication and interpersonal skills and be able to follow direction well yet work independently. Demonstrated experience staying calm under pressure in a team environment is a must. Comfort/interest in STEM content preferred. Must know basic html. Prior event planning experience, outreach to high school students, and web design highly desirable.

**Hours:** 8 hours/week for the remainder of the Spring 2020 semester. Must be available for the entire day on Saturday, April 11, 2020

**Start Date:** ASAP

This is a PAID position (\$17/hour)

**How To Apply:** Please submit resume and brief cover letter/email highlighting qualifications to Dan Zevin at [dzevin@ssl.berkeley.edu](mailto:dzevin@ssl.berkeley.edu). The job is also posted at on the Cal work study site (job number is 9592222126) and HandShake.

## Paid Research Position: Research Study Coordinator

**Position Title:** Research Study Coordinator

**Contact:** Please send a cover letter and CV/Resume to Dr. Linda Chao at [linda.chao@ucsf.edu](mailto:linda.chao@ucsf.edu)

**Hours:** Full-time with benefits

**Position Definition:**

The Research Study Coordinator will perform entry-level duties related to the support and coordination of clinical studies. The incumbent will be responsible for recruiting, enrolling, registering, scheduling research study participants; helping to assure the collection and shipment of research study samples; complete study forms to submit to sponsors and / or appropriate agencies; collect, enter and clean data into study databases, maintaining data quality; assist with data analysis; assist with preparation of reports and tables; and attend team meetings. The position will be under direct supervision from the PI, Linda Chao Ph.D., and will be provided training to acquire skills and knowledge of professional concepts in research data analysis.

**Major Duties and Responsibilities:**

- Assist with subject recruitment, including placing advertisements, phone screening prospective participants, working with the team to schedule research subjects; interview patients and healthy controls; collect clinical and demographic data
- Conduct pre-procedural interviews of each research participant to determine if the subject has a contraindication for the MRI study
- Maintain and update databases, subject information folders, and subject payment forms
- Work with study team to develop new procedures when deemed necessary.

**Job Requirements:**

- Bachelor's degree in related area and / or equivalent experience / training
- Computer literacy with full working knowledge of MS Word, Excel, Access, and the Internet
- Ability to effectively manage time, multiple projects, tasks, priorities and see assigned parts of projects through to completion on deadline
- Basic consultation and communication skills: verbal and written
- Self-motivated for a fast-paced learning environment
- Ability to exercise tact and discretion in handling a variety of confidential material
- Must commit to at least a year

**Preferred Qualifications:**

- Previous research experience in field of Psychology, Neuroscience, or Biology

## Job opportunities in psychology research -- Ellman Lab, Temple University

The Ellman Lab is now accepting applications for two new research assistant positions. These positions involve collection and management of clinical, cognitive, and biological data in multi-site studies, including administration of semi-structured clinical interviews and cognitive tasks, recruitment, and supervision of volunteer staff. In addition to regular lab duties, research assistants are able to conduct personal research in relation to completed and ongoing studies within the Ellman Lab. Other research opportunities may arise through collaboration with lab staff or volunteers.

The Ellman Lab focuses on developmental risk factors for psychosis and related disorders (e.g., schizophrenia and depression) during the pre- and perinatal period and in adolescence/young adulthood. The latter studies involve multi-modal assessment of risk factors for psychosis, including (but not limited to) biomarkers, neuroimaging, cognition, and a variety of psychosocial risk factors.

Research assistants will focus primarily on multiple large, multi-site studies examining risk for psychosis in adolescence/young adulthood, but could contribute to any of the ongoing studies in the lab and will have opportunities to develop independent research projects.

Interested individuals can read more about the Ellman Lab at our [website](#).

Interested students may apply for either or both of the positions, at the following links:

## Chicago Booth Full-time RA | Daniel Bartels & Celia Gaertig

The University of Chicago  
Booth School of Business  
5807 South Woodlawn Avenue  
Chicago, Illinois 60637  
[Michelle.Skinner@chicagobooth.edu](mailto:Michelle.Skinner@chicagobooth.edu)  
Daniel Bartels and Celia Gaertig

### RESEARCH PROFESSIONAL

Chicago Booth Professors Daniel Bartels and Celia Gaertig seek one full-time Research Professional for a period of at least one year, but ideally two years, to work on projects in marketing, psychology, judgment and decision-making, and behavioral economics. The emphasis will be on the management and analysis of research studies conducted online, in the research lab, and in field settings.

The ideal applicant should be completing (or have completed) a Bachelor's or Master's degree and should have strong programming skills and a background in data analysis. Candidates with research experience are strongly preferred, especially those with a background in experimental research. Candidates need not be psychology majors, though they should have a strong interest and some experience in marketing, psychology, judgment and decision-making, or behavioral economics.

The preferred start date is between May and September 2020, though earlier or later start dates will be considered. Applications will be evaluated on a rolling basis, but all applications submitted by April 19, 2020 will be given full consideration.

We pay an annual salary of \$50,000 and provide standard benefits such as health insurance.

If interested, please fill out a brief survey at <https://forms.gle/HMXPHgutryMvK6kQA>. You must also fill out a formal application at [https://uchicago.wd5.myworkdayjobs.com/External/job/Hyde-Park-Campus/Research-Professional\\_JR08201](https://uchicago.wd5.myworkdayjobs.com/External/job/Hyde-Park-Campus/Research-Professional_JR08201). Please submit all ancillary materials (resume, cover letter, and postsecondary transcripts (unofficial is fine)) in the Resume/CV field. You may upload multiple files.

The University of Chicago provides equal employment opportunities to all employees, applicants, and job seekers. No person shall be discriminated against in employment or harassed because of race, color, religion, sex, sexual orientation, gender identity, national or ethnic origin, age, disability, veteran status, genetic information, marital status, parental status, ancestry, source of income, or other classes protected by law. This policy includes the commitment to maintaining a work environment free from unlawful harassment.

### **Job Opening for Psychology/Neuroscience Research Assistant/Lab Manager**

## Work Opportunities – Week of April 6, 2020

2 Riverside Circle  
Roanoke, VA 24016  
(540)526-2500

### **Research Assistant (Lab Manager) position available**

Fralin Biomedical Research Institute at Virginia Tech Carilion  
Roanoke, Virginia

A full-time research assistant (lab manager) is sought for the labs of Dr. Pearl Chiu, Dr. Brooks King-Casas, and Dr. Stephen LaConte at the Fralin Biomedical Research Institute at Virginia Tech Carilion (<http://research.vtc.vt.edu>). Projects in the labs combine methods from experimental and clinical psychology, neuroscience, and behavioral economics with functional neuroimaging to investigate decision-making in healthy and clinical populations (current projects have a focus on borderline personality disorder, posttraumatic stress disorder, depression, substance-use disorders, at-risk youth, and traumatic brain injury). The research assistant will be responsible for recruiting and assessing research participants, implementing all aspects of study protocols, and maintaining positive communication with research participants and collaborators. Data collection involves various modalities including: behavior, fMRI, clinical interviews, genetic samples. Additional duties include managing participant databases, organizing project funds, and preparing and tracking IRB protocols. The research assistant is an essential member of the group and will be generally responsible for having overall knowledge of all lab projects and managing day-to-day logistics of the lab. Training will be provided for all aspects of the position. For motivated individuals, there are many opportunities to be involved with data analysis. This is an excellent position for candidates interested in graduate school in cognitive or clinical psychology, neuroscience, and related fields. Preference will be given to candidates who are willing to make a two-year commitment.

Minimum requirements include: 1) BA/BS in psychology, neuroscience, biology, or related field; 2) two years of research experience; 3) ability to work both independently and as part of a team; 4) demonstrated organizational skills and attention to detail; 5) demonstrated ability and desire to succeed in a fast-paced research environment with multiple concurrent duties; 6) excellent written and oral communication skills; 7) proficiency with MS Word, Excel, and PowerPoint or equivalent.

Other information: MA/MS candidates with clinical (clinical psychology, psychiatry) training will be considered; salary will be commensurate with experience. Candidates with data analysis and/or computer programming experience will be considered favorably.

Required application materials: Cover letter including statement of interest, CV/Resume, list of references. Two letters of recommendation will be required prior to final consideration.

Consideration of applications will begin April 8, 2020, and will end when the position is filled. Expected start date is as soon as possible. The Fralin Biomedical Research Institute at Virginia Tech Carilion is an Affirmative Action/Equal Opportunity employer and is committed to cultural diversity and compliance with the Americans with Disabilities Act.
