**NSF Graduate Research Fellowship Program, 9/22**

The [2021 NSF Graduate Research Fellowship Program (GRFP) application is now open](https://www.nsf.gov). The NSF GRFP provides three years of support to outstanding graduate students in NSF-supported science, technology, engineering, mathematics, and social science disciplines who are at or near the beginning of a degree earning program.

**The Graduate Division is hosting an NSF GRFP Application Workshop (via Zoom) from 11:00 am to 12:30 pm on Tuesday, September 22nd.** Attendees will have an opportunity to hear from a panel composed of successful applicants and a previous faculty reviewer, as well as ask questions.

Here are the full details of the workshop:

- **Date:** Tuesday, September 22nd, 2020
- **Time:** 11:00 am to 12:30 pm
- **Link to RSVP:** [https://forms.gle/Bgc1Rv1auwHfAbra8](https://forms.gle/Bgc1Rv1auwHfAbra8)

Note: registrants will receive the Zoom link directly closer to the date.

For more information on eligibility guidelines, please refer to the following hyperlink:

- [NSF GRFP Program Solicitation](https://www.nsf.gov)
- [NSF GRFP Frequently Asked Questions](https://www.nsf.gov)

For further questions about eligibility, please contact the NSF Help Desk at info@nsfgrfp.org.

Campaign & Project Management Virtual Internship, 9/30

Campaign & Project Management (CPM) Internship
Virtual Internship Program Focused on Professional Development & Winning Battleground Campaigns

The Campaign & Project Management Internship is a virtual internship program focused on professional development, project management training, campaign experiences including digital organizing, political advocacy, and virtual networking with a national political campaign. Interns will have an opportunity to work with experienced consultants and campaign professionals, and to learn best practices in political organizing and communications.

PROFESSIONAL EXPERIENCE
Digital Organizing: Learning innovative methods to organize our next generation into political action.
Advocacy & Direct Engagement: Learning advanced skills in voter engagement & direct marketing.
Project Management: Learning skills and tools to develop and manage campaign projects.
Campaign Consulting: Learning best practices in campaign strategy development & implementation.
Virtual Network: Developing a multi-state virtual network of campaign professionals & activist leaders.

EXPECTATIONS
- Work 10-12 hours per week (flexible self-scheduled hours)
- Participate in weekly professional development workshops and training seminars
Internship and Volunteering Opportunities: Week of September 21, 2020

- Develop skills in the following: project management, campaign strategy development, advocacy, virtual/digital organizing, communications, content development, and strategic planning

**BENEFITS**
Successful interns will be eligible for:
- **Leadership Positions & Opportunities**
- **Letter of Recommendation**
- **Professional Reference**
- **Internship Credit for Applicable Majors**
- **Professional Development Workshops & Seminars**

**INSTRUCTIONS**
Please send resume to Michael Miller at michael@flipthewest.com
Please title subject line: Intern Applicant - "Your Name"

**The Data Incubator Data Science Fellowship, 11/06**

Have you heard the news?

TDI's next data science fellowship cohort's application opens TOMORROW, **September 2nd**!

Do you have what it takes to become a leading data scientist?

**The Application**

Check out the dates below and mark them in your calendar so you don't miss a single deadline.

Then check out this great data science demo with TDI instructor Michael Cullan and start preparing for your coding challenge.

**Watch the Demo**

Not sure what to do for your capstone project? See what one of our recent graduates did for her project to give you a jumpstart on your brainstorming.

**See the Project**

Curious to know what financing options are available? We’ve got you covered with everything from limited full-tuition scholarships to income sharing agreements. Find the solution that's right for you.

**Financial Aid**

Casa de Esperanza Internship Program, year-round apps

Casa de Esperanza, a non-profit in Houston, Texas, provides residential care to children birth through six who are in crisis due to abuse, neglect, or the effects of HIV. Care is provided in our neighborhood by our Hands of Hope interns. Our interns, most of whom are recent college graduates, join us for a year of service (a twelve-month full-time post-graduation internship). Applicants wishing to complete shorter internships are considered on a case by case basis. We provide on-site housing (interns live with the children they are caring for) and interns join us from all over the United States to be part of our internship program.

Information about our internship may be found here:
https://www.casahope.org/hands-of-hope-internship
The application for our internship may be found here:
https://www.casahope.org/application-part-one
Interns in our program gain valuable experience that is relevant to a number of fields and future career goals while simultaneously making a meaningful difference in the lives of a vulnerable. We will have groups joining us in January, June, and August of 2021.
Pandemic professors seeking empathetic tutors

Want to help your community recover from COVID-19?
Are you interested in Psychology, Empathy, or Working with Kids?

VOLUNTEER WITH PANDEMIC PROFESSORS

Pandemic Professors is a 503(c)(3) non-profit organization that facilitates free tutoring to children in low-income communities.

Visit our website to sign up as a tutor:
https://pandemicprofessor.org

As a tutor, you will hold virtual tutoring sessions with students to provide the academic and emotional support students need to stay on track.
VOLUNTEERING BENEFITS

- Help our nation’s youth stay on course with their education.
- Get officially recognized on our website (unless you prefer otherwise)
  - Check out our current tutors on our website.
- Showcase your leadership potential for future employers and graduate schools.
- A letter of recommendation for graduate school or employment.
- Learn by teaching! Teaching others is a great way to improve your skills.
- Engage in internal leadership opportunities, both current and upcoming.
- Flexible schedule with variable hours.

Become a Pandemic Professor!
For more information, visit our website: https://pandemicprofessors.org
MOTIVATE Mentoring Program

Hello,

I hope this email finds you safe and well.

My name is Destiny Hernandez. I recently graduated from UCLA with a Bachelor's Degree in Neuroscience and I am working on the start of a virtual mentoring program, MOTIVATE, in the Montebello Unified School District. I am currently requesting those interested in the potential mentor role to fill out this form to provide a number of prospective mentors to the school district as we work together. If you could please send this out to your students, faculty, and alumni, I would greatly appreciate it. Here is a brief description of the program:

MOTIVATE is a mentoring program that aids to provide the students of the Montebello Unified School district resources that would aid their path to their career goal. The program aims to close the education gap by pairing students with mentors who have reached or are on their way to a career goal similar to the students’ goals to share their experiences, their knowledge, and their guidance.

I hope you consider giving back to the community with a little bit of your time. Once again, here is the interest form. I look forward to hearing from you all. If you have any questions, please reach out to dphernandez1224@gmail.com

Thank you,
Destiny Hernandez

Volunteer RA Position: Emotion, Health, and Psychophysiology Lab at UCSF

The Emotion, Health, and Psychophysiology Lab at UCSF is accepting applications for volunteer research assistant positions.

Our research focuses on embodiment -- how the mind influences the body, and the reciprocal, how bodily changes influence thoughts, emotions, and intentions. Research assistants working in the lab are exposed to a variety of studies at the intersection of social psychology, emotion, and psychophysiology. RAs learn how to conduct studies, collect physiological data, and edit and score autonomic data. Our RAs work at least 10-12 hours a week for two school semesters.

This volunteer opportunity is ideal for undergraduate students or recent graduates looking to gain research experience for graduate school or medical school. Please note that while we welcome international applicants, we cannot help with the visa process.

If you are interested in applying, please fill out this application form (https://forms.gle/b2qs7eP7kjZwyPfS9).
Internship and Volunteering Opportunities: Week of September 21, 2020

Any questions can be directed to the lab manager, Julia Moore, at julia.moore2@ucsf.edu.
