BLSA Legal Studies Major Info Session 9/28

Interested in majoring in Legal Studies? Want to know more about Legal Studies classes?

BLSA will be hosting our first-ever Legal Studies major info session on MONDAY, SEPTEMBER 28 AT 6 PM!

GUEST SPEAKERS:
- Lauri: Legal Studies major advisor (main point of contact for questions about the major, applying for the major, notifying students of social science/pre-law opportunities, and keeping track of major requirements)
- Professor Jonathan Marshall: Director of the Legal Studies Department and Legal Studies professor
- Professor Jonathan Simon: Legal Studies professor who focuses primarily on criminal justice and mass incarceration research
- Angelica Lee: Legal Studies major and BLSA Vice President

OVERVIEW OF THE MAJOR:
The Legal Studies major provides undergraduate students with an opportunity to become familiar with legal ideas, legal institutions, and the legal process. It is designed to provide tools for reasoned appraisal of how the law works and of the policies that underlie it. The major is based firmly on the view that the study of law and justice has a rich humanistic tradition and that its pursuit can encourage sustained reflection on fundamental values. Legal Studies is a liberal arts major in the College of Letters and Science but under the academic supervision of the law school faculty. There is no minor.

The courses deal with a wide variety of subjects, including philosophy of law, American legal history, non-western legal traditions, politics and law, the criminal justice process, property law, and economic regulation; courses are taught by faculty with backgrounds in the Humanities and Social Sciences as well as law.

**Zen/Chan Meditation 9/28**

Introduction to Zen/Chan Meditation

We eat and sleep to sustain our health, maybe exercise to look and feel better, read or study to stimulate the mind. The activity of our life is much like a piece of music. If it's all activity, it's just noise. When we integrate "rests" into the music, it becomes a dynamic beautiful expression. Zen /Chan allows us to find the sync between activity and inactivity, form and formless, to allow our life experience to be a beautiful and fulfilling expression of life.

This is an eight-week series that covers fundamentals of Zen/Chan meditation for the UC Berkeley community, hopefully helping participants to establish and incorporate meditation into their daily routines and benefit from it. Step-by-step instructions will be given in this class. Anyone with or without meditation experience is welcome to join.

- Time: Mondays 6:00-7:30pm Pacific Time, starting September 28, 2020
- Location: Online at Zoom (passcode: heartchan)

COVID-19 era: Please find a quiet place you feel safe and can relax for the period of time for each class. Treat each session as if you were in a room with the teacher and other participants. Don't let the mind create the separation that doesn't have to be there. We will be connected when we meditate together.
Transfer Center Meet & Greet, 9/29

Healing Shame in Inner Children & Actual Children, 10/3

A Workshop for Therapists and Other Helping Professionals

with Sheila Rubin, LMFT, RDT/BCT and Bret Lyon, PhD, SEP

Online via Zoom – Live and Recorded

Saturdays: October 3 and 10, 10am–6pm

$395 full price or $375 early bird registration (with full payment by August 28, 2020)

Special price for interns

13 CE credits available (See website for details) - CAMFT CE provider #134393

The child lives on! Though we may develop adult bodies and think our childhood is long behind us, somewhere inside the child is still alive, deeply influencing our thoughts, words and actions. It may be that the most important relationship we have is the relationship we develop with our inner child. In this workshop, we will teach you how to help your clients reestablish a healthy relationship with their inner child—how to both listen to and talk to that sensitive, creative, and essential part of us.

Using Imaginal techniques, we join and explore the world of the child. We learn how to work effectively and add a healthy coach or caring inner parent to repair the shame-ruptured parts from neglect or simply misattunements. We say hello to the part that wants to eat healthy and the part that wants ice cream. And say hello to the bully and the scary places. We learn to listen deeply and provide the champion or protector that the child didn't have. We get to explore and re-enact scenes from childhood when a person was shamed and repair or replace what they wish they could have said.

There is no prerequisite for this course. It can be taken by itself or as part of a sequence.

TO REGISTER, please visit the Schedule page at www.HealingShame.com.

For more information, call Sheila at 415-820-3974 or email Sheila@HealingShame.com.

**CAPS WORKSHOP For EOP Students and Resources**

10/21

Good afternoon and happy Tuesday!

Counseling and Psych Services will be providing some specialized programming for EOP students. There will be two sessions on The Hidden Cost of Anxiety on Academic Success on
Sept. 23rd and Oct. 21st. There are two offerings to accommodate schedules and this was a highly attended session over the summer. More info below. Please share...

### THE HIDDEN COST OF ANXIETY ON ACADEMIC SUCCESS

**Wednesday, October 21st**
**2:15pm-3:30pm**

**Register at:** tinyurl.com/CAPSwellness2020

In this workshop, students will learn how anxiety is manifested, ways in which it can impact one's ability to function academically, and learn strategies and resources to cope with anxiety.

This workshop is designed for EOP/CE3 students and all UCB students who identify with non-traditional/underrepresented student populations (first gen, low-income, students of color, transfer/re-entry, student parents, veterans, former foster youth, formerly incarcerated/system impacted, undocumented)

Facilitated by: Veronica Orozco, PhD & Andrea Godinez, AM

### ADDITIONAL CAPS RESOURCES:
Miscellaneous Opportunities: Week of September 28, 2020

- Healing Spaces: There will also be a Latinx Healing space (flier attached) and there will be other Collective Healing and Liberation Spaces for other communities throughout the semester.

- Groups: Flier attached with offerings. The only thing to keep in mind when talking to students about groups is that if a student is currently residing outside of California or outside of the United States, unfortunately, CAPS clinicians are unable to provide them with group counseling services at this time. This only applies to group therapy, not workshops/outreach programs (e.g., the Collective Healing & Liberation Spaces will be an outreach program that will be an open virtual space for all students, no matter where they are currently residing).

You can also visit this [UHS/CAPS webpage](#) to see more Mental Health Workshops + Event

**MCC: The UC Land Grab - A Legacy of Profit from Indigenous Land, 10/23**

THE UC LAND GRAB: A LEGACY OF PROFIT FROM INDIGENOUS LAND

**Part 1:** Unearthing Indigenous Land Dispossession in the Founding of the University of California
**FRIDAY, SEPTEMBER 25, 9 AM- 12 PM**

**Part 2:** From Land-Grab to Land Acknowledgement and Beyond
**FRIDAY, OCTOBER 23, 9 AM- 12:30 PM**
Abolition Feminism, 10/25

As a political and a practice, abolition increasingly shapes our political moment — halting the construction of new jails and propelling movements to divest from policing yet erased from this landscape are not only the central histories of feminism — usually queer, anti-capitalist, grassroots, and women of color — organizing that continue to cultivate abolition but a recognition of the stark reality: Abolition is our best response to endemic forms of state and interpersonal gender and sexual violence. This conversation will surface necessary historical genealogies, key internationalist learnings, and everyday practices to grow our collective and flourishing present and futures.

Angela Y. Davis is a political activist, scholar, author, and speaker. She is an outspoken advocate for the oppressed and exploited, writing on Black liberation, prison abolition, the intersections of race, gender, class, and international solidarity with Palestine.

Gina Dent is an associate professor of feminist studies, history of consciousness, and legal studies, chair of the feminist studies department and director of the Institute for Advanced Feminist Research at the University of California, Santa Cruz.

Watch live at crg.berkeley.edu

Event will also be streamed on UC Berkeley’s YouTube page and CRG’s Facebook page. Event will be closed-captioned along with live sign-language interpretation.

**Designated Emphasis & Certificate in New Media Applications, 11/1**

The Berkeley Center for New Media is an interdisciplinary research center that studies and shapes media transition and emergence from diverse perspectives. Through critical thinking and making, we cultivate technological equity and fairness in our classrooms, in our communities, and on the internet.

A new media certification provides enhanced skills in analyzing and/or designing future media with an awareness of historical, social, and cultural perspectives that might not be visible from a single discipline. Emphasizing a critical understanding of the nature and implications of new media, our students draw on theories and methodologies from the arts, the humanities and social sciences, and science and engineering, to innovate while questioning the impact of new media on the human experience.

Our students are eligible for a host of opportunities through the Center, including conference and summer research grants, our prestigious Lyman and Eugene Jarvis fellowships, research support, teaching positions, and unique experiences with the world-class speakers we bring to campus.

We are accepting applications for admission to the Designated Emphasis (DE) in New Media Ph.D. program, the Graduate Certificate in New Media program, and the Undergraduate Certificate in New Media program.

All applications for Fall 2020 admittance are due November 1.

Through the Looking Glass: Healing Shame Workshop-
11/6, 11/13, 11/20, 12/04

Through the Looking Glass:
Using Imaginal Resources to Heal Shame
A Workshop for Therapists and Other Helping Professionals
With Sheila Rubin LMFT, RDT/BCT & Bret Lyon PhD, SEP
Online via Zoom – Live and Recorded
4 Fridays: November 6, 13, 20 and December 4, 2020
10am–1:30pm Pacific Time
$395 full price / $375 with full payment by October 2, 2020
Special price for interns
13 CE credits available (See website for details) - CAMFT CE provider #134393

Working with shame cognitively can only get us so far. When clients get stuck in shame, the most powerful way to help them get unstuck may be to activate their imagination. In the
Imaginal Realm, logic and time are fluid and flexible. What actually happened can be explored and changed. What was stuck in the cognitive realm can be reexamined and shifted. Shaming situations from the past can be revisited and resolved. In this workshop, we will utilize techniques from Drama Therapy, Focusing, Expressive Arts Therapy, Jungian active imagination processing and Hakomi. We will explore the critical voices and/or the childhood scenes that are still driving the internal shame dynamic in the client.

You will learn to help clients:

- Externalize shame so that it can be worked with directly.
- Work with roles, parts and shame-based introjects.
- Access strength, resilience, inner resources and role repertoire.
- Find a deeper understanding by working with objects you already have in your office.
- Utilize imaginal techniques to give the shame back, so that it stays in the Imaginal Realm.

Once the shame is worked through in the Imaginal Realm, the client can interact with the world differently.

There is no prerequisite for this course. It can be taken by itself or as part of a sequence.

TO REGISTER, please visit the Schedule page at www.HealingShame.com.

For more information, call Sheila at 415-820-3974 or email Sheila@HealingShame.com.

**Generation Mental Health Annual Conference, 11/13-14**

My name is Kelli Martin, and I am the Director of Campus Chapters for Generation Mental Health.

I am reaching out to let you know about Generation Mental Health’s first annual conference, *Global Mental Health: Today and Tomorrow*. The event will be held virtually on November 13-14, 2020.

We believe this event will be of substantial interest and value to your department’s students and faculty. Our early bird student tickets cost just $5 if students buy them before October 4!

I would really appreciate it if you could share the blurb attached to this email with your department’s students and faculty via email and/or via your newsletter. We would also be grateful if you could share our event on your social media channels.

We will be really grateful for your support in helping to promote our conference. Please do not hesitate to let us know if you have any questions. We very much look forward to hearing from you.

**University of Texas at Austin Psychology PhD Program, 11/15**

In light of recent events, the conversation around diversity and equity has become ever more pressing in our department. Through our recently formulated REACT 2020 plan, we are committed to increasing diversity among our faculty and graduate students. Our department is a top ranked graduate program in Psychological Science and as such, we are in a position to influence the future of psychology. In order to achieve the goal of a more diverse and representative field, we seek students from underrepresented backgrounds. We invite you to consider our program. If you would like to talk to a current graduate student in our program, please reach out to ebenasher@utexas.edu

Fall 2020: EOP Virtual Satellite Advising
L&S Virtual Front Desk

Virtual Front Desk is a resource for students, staffed by the L&S Peer Advisers.

Students will now be able to access the L&S Advising Office's front desk services virtually by logging on to Virtual Front Desk Google Hangouts. The peers will be able to assist students with quick questions, help identify petitions and forms (and how to submit), support navigating which campus office to contact with questions, and explain how to make an L&S college advising appointment if students have difficulty.

Topics you can get help with through L&S Advising's Virtual Front Desk:

- Clarification on L&S College policies and procedures
- Help choosing petitions and forms (and guidance in submission)
- Support navigating which campus office to contact with questions
- Guidance in whether to make an L&S College Advising appointment or to use a different resource

Please note that this service is an open format, which allows students to join in and leave at their convenience. Students, therefore, will be able to hear questions posed by other students.

On the Virtual Front Desk webpage, you will find a calendar that indicates the hours. The calendar will be updated daily, depending on changes in peer availability.

This Virtual Front Desk service is in addition to the Google Hangout services that the peers are already providing in the evenings. For more information about those services, please review Virtual Office Hours w/ Peer Advisers.
UC Berkeley/LBNL, surveying the STEM community

You are invited to participate in a research study about the impacts of COVID-19 on STEM students and professionals, including folks from education, policy, and other related fields. You must be 18 or older to participate.

This study was developed by researchers at UC Berkeley, in order to find out how COVID-19 has impacted people personally, academically, or professionally. The survey will only take 15 minutes to complete, but we hope this information will help to inform schools, programs, and organizations about what’s going on and what people need.

We understand that this is a difficult and unusual time for everyone, and your well-being is our top priority. With this survey, our overall goal is to learn about your experiences, and we hope that the results from this study can be helpful in providing support where/when it is most needed. Your stories matter, and we appreciate your time.

Please note that participation in research is completely voluntary, and your responses will be anonymous (unless you volunteer your contact info).

Adulting Course on Udemy

We, Belle Lau and Jenny Zhou, are the creators of the Adulting course at UC Berkeley. Because of the widespread attention and interest that we have garnered since starting the class, we decided to create an online version of the course on a learning platform called Udemy. We want to be able to help people not just at Berkeley, but outside the community, learn how to care for one’s self and be self-reliant.

You can visit tinyurl.com/AdultingCourse to enroll for a low price of $29.99 for 33 lectures of content plus additional self-help resources. Note, this course is targeted at those in high school and above, but anyone who is willing to learn is more than welcome to take the course.
To learn more about what the class offers, please visit the attached infographic or the LA Times article here:

**SLC Virtual Writing Veve Lounge**

Dear writers,

As you read and compose your way through this semester, we invite you to add one more ingredient to the mix: **conversation**.

EOP Virtual Community Space

We have a new Virtual Community Space where students can connect with our student intake staff for quick questions. Our Peer Academic Counselors (PACs) are also hosting their drop-in advising hours through this same Zoom link. They are very knowledgeable and can assist students with follow-up questions about enrollment or generational Fall transition needs.

Our student staff are available daily so please share with your communities and encourage students to utilize this resource (continuing students as well). This information is also listed on EOP’s homepage. Students can view our virtual summer programming and resources here with links to previous webinars.

Berkeley Anti-Trafficking Coalition Interest Form

The Anti-Trafficking Coalition at Berkeley is a community of interdisciplinary student activists, academic researchers, and community partners collaborating to end human trafficking.

It was formed in 2013 from three student-led anti-trafficking organizations: International Justice Mission, Not For Sale, and the Student Abolitionist Movement.

Together, by providing education for students, raising awareness about human trafficking on campus and in the community, and advocating for more effective legislation, we are committed to eliminating all forms of human trafficking in Berkeley and the greater Bay Area.

Meet our BATC members and learn about the three projects we have planned for the semester! Fill out this interest form for more information!
**STEM Training and Resources (STAR)**

*STEM Training and Resources (STAR)* is a new web tool to explore UC Berkeley STEM opportunities and provide access to narratives from various STEM role models. STAR focuses on expanding access to STEM activities, information, opportunities, and networks. You can access the STAR database of programs and filter based on resource type and community. At this time, the database is limited to UC Berkeley resources and trainings. To add/edit/delete a resource, please use this form: [https://star.berkeley.edu/submit-a-resource](https://star.berkeley.edu/submit-a-resource).

STAR is an initiative of the *Cal NERDS* program.

The UG Research Journal of Psych at UCLA

CALL FOR UNDERGRADUATE RESEARCH PAPERS

Have you completed a research paper in a psychology-related field (i.e. psychology, cognitive science, neuroscience, linguistics)? Are you looking for a platform to publish your work?

If so, The Undergraduate Research Journal of Psychology at UCLA (URJP) WANTS YOU to submit your papers for our annual publication, expected to be released Spring 2021.

URJP is an organization dedicated to informing the community of psychological findings through research run by undergraduates from all universities. Last year, we received submissions
Miscellaneous Opportunities: Week of September 28, 2020

ranging from local to international universities. URJP is one of the few established psychology journals that publishes undergraduate psychological research.

To submit, the papers must fulfill the requirements below:

- Original work completed by undergraduates (Includes senior honors theses, independent research, reviews, theoretical papers, and other scholarly writing)
- Never before been published

If you have not completed an independent research project, we still encourage you to apply by submitting a “literature review article” which does not require access to research data.

The deadline to submit papers is November 15, 2020 at 11:59 P.M. Multiple submissions from one author are welcome. If you would like to submit an article for consideration, please complete the following:

- Replace any identifying information (i.e. author name, institution) with empty brackets, to ensure anonymity within the selection process
- Visit our website's submission page, https://urjp.psych.ucla.edu/submissions/
- Once you have filled out the form (https://forms.gle/MLcnVHqnnMMPKoRfo7) linked on the submission page, send the following in an email to psychjournal.ucla@gmail.com
  - In the body of the email, include the following information: (1) your full name, (2) full article title, (3) article type (i.e., literature review, research article), (4) your email address

More information regarding our submission criteria and types of articles accepted can be found on our website, https://urjp.psych.ucla.edu/. To view our prior publications, please visit our website at https://urjp.psych.ucla.edu/publications/.

If you have any questions or concerns, please contact us at psychjournal.ucla@gmail.com for further information. We look forward to reviewing your submissions!

What is Human Factors?

Human factors, also known as ergonomics or engineering psychology, is a scientific discipline which examines human behavior and capabilities in order to find the best ways to design products, equipment, and systems for safe, effective, and satisfying use by people.

Professionals in human factors apply their skills to a variety of areas, including:
- Aerospace and automotive systems
- Computer software and hardware
- Medical systems
- Educational technology
- Consumer products
- Virtual reality

Human factors professionals work in:
- Academic institutions
- Industry
- Military and governmental research centers
- Independent consultancy

Our students are successful obtaining Human Factors positions upon graduation!

Some places our alumni work are:

**Industry:**
- Google
- Ring
- Honda
- Pacific Sciences & Engineering
- Insulet
- Chevron

**Government:**
- NASA Ames Research Center
- Edwards Air Force Base
- NASA Jet Propulsion Labs
- Social Security Administration

Human Factors at CSULB

The MS in Psychology, Option in Human Factors, is designed to prepare students to apply research-focused human factors skills to the design of jobs, information systems, consumer products, workplaces, and equipment in order to improve user performance, safety, and comfort. Our Human Factors program is accredited by the Human Factors and Ergonomics Society.

**McNair Scholars Program**

The UC Berkeley Ronald E. McNair Post Baccalaureate Achievement Program is recruiting scholars for the 2020-21 cycle. We are looking for students who have a strong interest in obtaining a doctoral degree. Named for Ronald E. McNair, a prominent African-American Astronaut who overcame extreme prejudice to become the second African American in space, the McNair Scholars Program is committed to fostering the academic self-efficacy of marginalized students. Whether low-income, first-generation, or otherwise underrepresented, the McNair Program provides an intersectional home for students who are often academically disenfranchised.

The students will be taught how to write a research proposal during the spring, given a generous stipend during the summer to conduct this independent research, and receive support from faculty mentors and the McNair Staff. Scholars are encouraged to undertake research that relates to their lived experiences, and they share this research by presenting at our National Ronald E. McNair Scholars Symposium and publishing in The Berkeley McNair Research Journal. Link to website for more eligibility information and to apply is below.

Student PIRG Voter Registration
Hi Professor,

First, thanks so much for supporting our work and advertising our full time job opportunities to students. Our program this year has over 65 full time campus organizing staff working on over 100 college campuses across the country. They have hired over 1,200 remote undergraduate interns and have reached over 22,000 students in virtual classrooms to let them know how to get involved in our campaigns. We are excited to start our work to register and turn out hundreds of thousands of students in the next 50 days before Election Day.

You may know, National Voter Registration Day is coming up next Tuesday (9/22) and I wanted to ask if you can sign this Civic Engagement Pledge to help make sure students are registered to vote.

Especially in this online environment, it is important that students receive multiple reminders on how to register to vote before the registration deadline. We will reach students through phone calls, text messages and social media but need your help to get the word out in your class on National Voter Registration Day.

Will you sign this pledge and check off all the ways you can get the word out?

Please let me know if you have any other suggestions! We have regular meetings to discuss more ways to reach every student before Election Day and would love your feedback. I have included more info about National Voter Registration Day and ways to get further involved.

Shawna Upton
Student PIRGs Recruitment Director
supton@studentpirgs.org
About National Voter Registration Day:
This fall, young people will be the largest and most diverse group of potential voters in the country, with their own values, ideas and issues that they care about. COVID-19 has created many challenges to voting, which is why it is important to do everything we can to help students register and turn out to vote on November 3rd.

As a premier partner, the Student PIRGs are working with our vote coalitions on campuses across the country to make sure National Voter Registration Day is a success by reaching all students on our campuses on September 22nd.

National Voter Registration Day is a non-partisan civic holiday celebrating democracy. It was first established in 2012 and has gained momentum since, including endorsements from the National Association of Secretaries of State (NASS), the National Association of Election Officials and many more. The goal of the holiday is to ensure, by creating a broad awareness of voter registration, that tens of thousands of Americans who might otherwise miss the voter registration deadline are able to register to vote.

Over 3 Million voters have registered on National Voter Registration Day so far, including 1.3 Million in 2018-2019 alone, and this one is on track to be the biggest ever!

Unconscious Bias Project
Are you pre-law, pre-health, or from any major hoping to gain community service experience? Looking for a place where folks from diverse backgrounds and experiences come together?
Join UBP @ Berkeley today! We are also recruiting board members and committee directors for our upcoming semester! The Unconscious Bias Project was founded to prevent unintended discrimination with fact, tact, art, and action.

We create and distribute tools that help people discover and adjust the implicit biases hidden deep inside their own brains!

In the past, we have given workshops, hosted training, created our own podcast, published articles, and over the summer, we launched our #TogetherAgainstBias COVID-19 fundraiser. If any of this appeals to your interests and passions, please join us using this form: https://forms.gle/CbuMzyfcgcupPmMh9

To learn more about our past work, please visit https://unconsciousbiasproject.org/

If you have any questions, feel free to email saffy24@berkeley.edu!

Thank you so much!

Sincerely,
Saffanat Sumra

**Education Reimagined in the Bay**

**Who we are:** As an organization, our mission is to promote a more equitable approach to education which will close gaps in access, funding, and achievement for students of color and students in poverty. To this end, we advocate for two initiatives: 1) The re-examination of curriculum, so as to eliminate unilaterally euro-centric pedagogy and curriculum in education and encourage inclusion in our curriculum materials and perspectives, 2) the investment and distribution of resources including student health services (physical, mental, emotional, and sexual), mentorship and counseling, financial literacy, and restorative justice/anti-racism training for teachers and staff.

**What we do:** As a student collective, we put our effort into researching and promoting current California and Bay Area educational measures drafted by education non-profits. We petition,
campaign, and advocate for policy change concerning curriculum reform and restorative justice practices.

STAR Scholars Program

The Psychology STAR Scholars Program (Students Tackling Advanced Research), is an educational opportunity outreach program designed to support and guide underrepresented students to become involved in research and understand its application in the real world. These students engage with research in a meaningful way, connect with current Psychology PhD students, and prepare for careers in and out of academia. The program consists of two parts: (1) a Fall Seminar Series and (2) Winter Workshops and Mentoring Program.

Our virtual 2020 Fall Seminar Series is open to all students.

This series is led by our STAR Scholars mentors and faculty director, Dr. Cindy Lustig.
