**Mental Health Support**

Scheduled appointments

- During this reduction in services, ALL appointments will be held over the phone and will be shorter than usual, given reduced service hours. If you already have a scheduled appointment with Dr. Barrios or Dr. Peña, they will be reaching out for a phone session at the time of your appointment. We understand that it may be difficult to access a private space with short notice, so please let us know if you need to reschedule or cancel based on travel/transition needs.
  - Dr. Bianca Barrios (510) 664-5342
  - Dr. Diana Peña (510) 664-7483

- Those new to mental health counseling (and not in crisis) may also call to access phone support, case management, referral support, etc. As our hours will be limited, calling our voicemail is NOT the best resource if you are in crisis or need urgent support. See below for info on urgent emotional support***.

**Communication**

- Given the fluidity of this situation, please check emails from the eTang secure messaging system, as this is a primary way counselors will update you with last minute changes to services. They will also call your cell phone number for updates and scheduled phone
appointments, so please make sure your Cal Central Mobile number has a voicemail box that is set up and can accept new messages.

Additional Services

- As of Monday, March 16th, all counseling groups, including the UndocuWellness in Action Group have been suspended until further notice. If you’re an existing member of USP’s skills group, please check your eTang messages and/or phone messages for additional details.
- Drop in hours (aka Let's Talk) are cancelled until further notice. In lieu of drop-in, additional phone appointment slots will be opened.
- ***For ANY urgent concerns or crisis mental health needs, please call CAPS at the Tang center (510) 664-7483 to speak with a counselor. For after-hours crisis support, please call 855.817.5667. For up to date info on CAPS services, please go to https://uhs.berkeley.edu/caps. **The United States Public Interest Research Group Fellowship**

Our mission is to advocate for the public interest—to speak out for a healthier, safer world in which we're freer to pursue our own individual well-being and the common good.

Whether it’s working to stop the overuse of antibiotics in agriculture, addressing our country’s plastic waste crisis, or alerting people to threats in the marketplace, the problems we work on
aren’t progressive or conservative. They’re just problems that our country shouldn’t tolerate any longer.

If you are ready to roll up your sleeves and win more results for the public, we’d love to hear from you.

You won’t just sit behind a desk. You’ll be out in the real world, working to protect consumers and enable citizens to lead healthier, safer, more secure lives. You’ll be recruiting new groups to join a coalition, speaking in a church basement or town hall to win a new endorsement, organizing a news event or rally, meeting with an editorial board, or doing whatever else it takes to get results. You’ll run a grassroots campaign office each summer during your fellowship where you’ll hire and manage a staff of 20 canvassers to raise money, build our organization and membership, and help win one of our key campaigns. This is a one-year program, expressly designed to prepare future leaders with U.S. PIRG. We look for smarts, leadership experience, top-notch written and verbal skills, and an eagerness to learn. We value organizing experience, including building campus groups.

During these interactive appointments, students reflect on their own writing process and engage fundamental strategies for developing as young scholars.
University of Colorado Survey Responses Requested

I am a student at the University of Colorado Denver and I am conducting research in air pollution. Many studies have addressed its detrimental effects on cancer, low birth weights, and other physical health concerns, but there is little literature focused on mental health concerns. I suspect there is a relationship between high levels of air pollution and anxiety rates. I have data on the air pollution (compiled EPA data bases). I need data on anxiety rates.

If I can get perhaps 30 responses, this will give me a good representation of anxiety rates among students in the Berkeley area. It would also contribute greatly to reducing global pollution as we plan on developing this research into a plan of action. If you are not able to help us out, I completely understand.

Here is a link to the survey: https://www.surveymonkey.com/r/G2SJQVJ

If you have any questions, please feel free to contact me or my research adviser Larry Erbert at Larry.Erbert@ucdenver.edu

Thank you for your time, I will appreciate any help at all!

Processing Transfer Credit at this Time

At this time, students should be advised to request that transcripts be sent electronically (if the transfer institution needs an email address, they should use busops@berkeley.edu). We are continuing to post transfer credit via this method.

A reminder that we cannot receive transcripts from students via email, they must come directly from the transfer institution. Alternatively, if an advisor receives an official transcript, they could send a pdf to busops@berkeley.edu.

If an electronic option is not available, we suggest that students postpone the request to send until after Shelter in Place (right now, April 7th). At this time, there is no one available to scan hard copy transcripts in Sproul due to Shelter in Place. And it might not be advisable for
documents to linger with mail services. My hope is that as we know more about the extent of our time away from campus, and how in person services will be handled, we'll have better guidance on when to send so that action can be taken closer to receipt of the documents.
